JFK REBUKES STEEL LEADERS

★ ★ ★ ★ ★ ★

August Release Set For 155,000

. . . RESERVISTS, GUARDSMEN

Washington (AP) — President Kennedy said Wednesday all 155,000 Reservists and National Guardsmen summoned to duty in the Berlin crisis will be released in August barring any "serious deterioration" in the world situation.

At his news conference, the President set no specific day. But Army spokesmen said the mustering out will begin during the first 10 days of August and be completed by the end of the month.

Dates for release of specific units are being worked out and won't be announced until April 30, the Army added. Members of Congress were told that the men will be let go "as expeditiously as possible after Aug. 1."

Last month, Pentagon sources reported Aug. 24 was being considered as the starting date and Sept. 25 the completion date for release of the men. There was no indication why the dates were moved forward.

However, a presidential statement issued in connection with Kennedy's remarks stressed that setting a go home time for the men "is not the result of any marked change in the international situation." This, Kennedy said, "continues to have many dangers and tensions."

Rather, Kennedy said, the action is made possible by "our successful buildup of permanent instead of emergency strength." Meanwhile, he said, the Reserve units honed to fighting trim during the nearly one year of active duty, "will remain available, in a new and heightened state of combat readiness, if a new crisis should arise requiring further service."

Possible Because

Release of the reserves and guardsmen was made possible, Kennedy said, because Congress provided extra funds for accelerating the buildup of regular forces. This, he said, resulted in:

1. Creation of two new divisions which by summer's end will bring the number of combat-ready divisions to 16, compared to 11 in June last year.

2. Retaining 6 wings of B47 bombers scheduled for inactivation and an increase in the number of tactical fighter wings from 17 to 21.

Acceleration

3. Accelerated procurement of new equipment, both for nuclear and non-nuclear combat, and more than doubled the construction rate for Polaris submarines.

The White House listed 110,000 Army men as the total to be released, whereas the Pentagon has been reporting the total called up as 119,000. Asked about this discrepancy, the Pentagon said the original 119,000 was based on organization tables for each unit but that some units reported under strength.

In addition, it said, about 2,800 Reservists have been released since the callup due to illness, individual hardship and other factors.

Appreciation

Kennedy said he knew he spoke for all Americans "in expressing our appreciation to all those who served under the adverse conditions of living in camps and being taken away from their families and their service."

Taking note of the small number of gripers and "we want to go home" demonstrators, the President said the great majority of those summoned involuntarily served uncomplainingly.

UFT MEMBERS . . . picket N.Y. school

N.Y. Schools Hit By Strike

. . . ROWDIES ACT UP

New York (AP)—More than half of the city's teachers struck for higher pay Wednesday, badly crippling the New York public school system, the nation's largest. A court order late in the day forbade further picketing.

Idle students by the thousands ran wild in school buildings and rampaged through the streets, as normal standards of classroom discipline collapsed.

Nearly a score of schools were closed tight, with their thousands of pupils sent home. Countless others went through the motions of holding classes.

The first full scale teachers strike in the history of New York City was branded by Board of Education President Max Rubin as "reckless, irresponsible, a betrayal of a pledge, immoral and illegal."

School Superintendent John J. Theobald announced that all schools will be open Thursday, but that he could not guarantee they would remain open.

An anti-picketing order was signed by State Supreme Court Justice William C. Hecht Jr., after Rubin told him the strike if extended "will be a disaster for the New York City school system."

Hecht scheduled a hearing Friday to determine if he will issue a formal anti-picketing injunction to replace his temporary restraining order.

The board of education made public plans to use the order as a prelude to enforcement of a state law prohibiting strikes by public employes. With removal of the pickets, teachers will be expected to return to their classrooms. If they refuse, they will forfeit their jobs under the state law.

More than half of the city's 40,000 public school teachers were absent from their classrooms, disrupting an educational system with one million pupils. Parochial and private schools were not affected.

Out Of Hand

Rowdy students got out of hand in corridors or auditoriums at Seward Park High and Stuyvesant High in Lower Manhattan, and at Evander Childs High in the Bronx. Erasers, books, rolls of toilet paper and other debris were hurled from windows to litter streets outside.

Evicted into the streets, unfettered students banged on parked cars and threw rocks through windows. Eggs and box lunches were tossed at picketing teachers outside Taft High in the Bronx. Fist-fighting broke out among students. Traffic was brought to a halt.

A fake bomb scare was directed against one high school in Upper Manhattan—presumably by a student.

Junior and senior high schools were hardest hit by the strike against the city's 900 public schools. In 215 schools in these categories, only 6,000 of 20,000 assigned teachers reported. Many were closed.

The strike was called by the United Federation of Teachers, protesting what they called a starvation public school budget. The UFT staged a one-day demonstration against the schools in 1960 during an organizing drive, but it failed to close any schools.

The UFT last December won bargaining rights for all the system's 40,000 teachers, although only about 15,000 belong to the union.

In negotiations that broke down this week, the union sought a $53 million a year increase in teachers' salaries, which would boost them into a range of $5,400 to $9,500 a year, plus bonuses for special categories. Present wages range from $4,800 to $8,650 a year, plus bonuses.

President Displays Anger And Disdain

. . . Denies Soaring Costs Made Price Hikes Necessary

By NORMAN WALKER

Washington (AP) — President Kennedy bluntly denounced the major steel companies Wednesday for "a wholly unjustifiable and irresponsible defiance of the public interest" in raising their prices by $6 a ton.

A nationwide television audience saw the President — speaking in cold anger and disdain — accuse "a tiny handful of steel executives, whose pursuit of private power and profit exceeds their sense of public responsibility (with) utter contempt for the interests of 185 million Americans."

Kennedy told his news conference that instead of raising prices the steel industry should rescind the increase and seriously consider a price cut.

A Flat Denial

The President flatly denied U.S. Steel Corp.'s contention, in triggering off the industry price boosts, that spiralling costs since 1958 made the price increases necessary. He said industry costs are expected to decline during the next year and the producers, having consistently enjoyed good profits, can expect even more.

The President indicated U.S. Steel had economic problems different from other steel producers. He was particularly critical, and remarked it was curious that the other firms, one by one, quickly followed U.S. Steel's lead by adopting almost identical price hikes.

In that connection, he said committees of the House and Senate, as well as the Justice Department and Federal Trade Commission, are launching investigations to determine whether the laws — evidently the antitrust laws — have been obeyed.

Later, Atty. Gen. Robert F. Kennedy, the President's brother, said the Justice Department is "already taking action."

Asked if this means department lawyers had begun preparing anti-trust court actions against any of the companies involved in the price increases, he replied:

"I can't discuss the details at this time."

But he told a reporter the department is pursuing several avenues, including court action.

Chairman Emanuel Celler, D-N.Y., announced the House Antitrust subcommittee will start its investigation May 2.

Defense Costs To Soar

Kennedy said he would recommend price curbing legislation only "very reluctantly." But he indicated this is not an impossibility. He said Secretary of Defense Robert S. McNamara calculated higher steel prices would hoist defense costs by $1 billion.

"(Most) price and wage decisions in this country," Kennedy said, "are and ought to be freely and privately made. But the American people have a right to expect in return for that freedom, a higher sense of business responsibility for the welfare of their country than has been shown in the last two days.

"Some time ago I asked each American to consider what he would do for his country and I asked the steel companies. In the last 24 hours we had their answer."

Retaliation Hinted

Kennedy hinted at some administration retaliation. Asked whether the steel price increase might result in cancelling a planned administration revision of business depreciation schedules, Kennedy replied:

"Well, it affects our budget. Secretary (of the Treasury Douglas) Dillon and I discussed it this morning. Of course, all this matter is being very carefully looked into now."

The President also indicated that if some steel firms decline to raise prices the government may do its steel buying with them at the lower price rates.

Chairman Roger M. Blough of U.S. Steel, the man who Kennedy said told him personally Tuesday at the White House of the prospective steel price boosts, scheduled a news conference Thursday in New York, apparently to respond to what Kennedy said Wednesday.

Kennedy said several times in reply to a question Wednesday that he had no commitment from Blough or other steelmakers that they would not raise prices. But he said that in talks with Blough and President David J. McDonald of the steelworkers union the idea was clear that what was wanted was a modest labor settlement without a price increase.

The President praised McDonald for his course, and mentioned that the union probably would have sought much more had it been aware the steel firms intended to raise prices.

—'Keep Getting Behind'—

BOND ISSUE EYED FOR STREET WORKS

By VIRGIL FALLOON
Star Staff Writer

The City-County Planning Commission may recommend that Lincoln issue bonds to accelerate key projects in the city's major street improvement program.

Commission members agreed Wednesday that the city "keeps getting further behind on street improvement needs and is never going to gain (on the multi-million dollar program) without a bond issue."

No immediate action on this possible recommendation and others to the City Council on the proposed 1962-68 capital improvement program was taken.

The commission scheduled a special meeting for next Wednesday for further discussion and possible action.

Street projects cited for speed-up under a bond issue proposal were the East O widening, completion of the Northeast and Southeast Diagonals, improvement of Vine and 27th and construction of the K Street viaduct.

'City Will Suffer'

In a letter to the commission, Chairman E. J. Faulkner said "if the community does not move to complete these projects any faster than it can pay for them from current revenues, the city will suffer a number of very serious effects stemming from the inadequacy of its arterial street facilities."

He suggested the consequences as further "string-type" commercial development out and away from the downtown area, a serious deteriorating effect on downtown tax assessment values and decline in general health of business firms.

The street improvements are estimated at $5,741,000 in the 6-year program with $1.1 million projected for 1962-63.

Planning Director Douglas Brogden told the commission that a number of arterial streets, such as Randolph, A east from 48th, and 70th aren't even in the program yet, but will become critical problems as the city grows.

Dean Roy M. Green, the commission's engineer member, termed as "senseless" city engineering plans to construct the Northeast Diagonal's middle section (27th to 48th) first as it "would lead nowhere."

Other Planning Action, Page 7

Brogden suggested that if the middle section were built first, widening of North 27th would be needed more than South 27th as proposed by the plan.

Other recommendations or questions on the program to be considered next Wednesday are:

—that the planning director make studies for proper sites for the city's sanitary landfill that will be needed two years hence.

—whether proposed Municipal Building remodeling should be restricted to necessities until such time as the proposed City-County Building is constructed.

—whether the proposed 18th and Q multiple-purpose building is needed, at least to what extent, if the new city-county building is built.

—Morrison Pushes Design—

HIGHWAY PROGRAM SPEED-UP ORDERED

By BETTY PERSON
Star Staff Writer

Gov. Frank Morrison took steps Wednesday to speed up the highway program and ordered the use of consultant engineers to help design highways on the state's primary and secondary road systems.

Morrison instructed State Engineer John Hossack to use design consultants on a temporary basis to speed design completion and "keep primary and secondary roads construction moving at a maximum pace."

"If we are going to build up lead time in highway construction, all phases of the program must move together," the governor said.

"Our highway department improvement program has resulted in some lead time in the early stages of preliminary engineering," Morrison said.

Personnel Added

He noted that some additional personnel have been placed in the design department in the past few months as recommended by the Highway Advisory Commission, but added that "this has not been adequate to make sufficient progress on the goal of one year's lead time" desired by him and the commission.

Morrison outlined 3 requirements which consultants must meet:

—have proven design consulting experience.

—be able to meet the deadline to be established by the state engineer.

—deliver work that is acceptable to the Federal Bureau of Roads without time-consuming revisions by our own highway department.

Results Demanded

In explanation of his attitude on these requirements, Morrison said: "We must get immediate results without interfering with the orderly operation of the highway department and the state must get value received for money spent in this manner."

The governor said Hossack has made substantial progress in the early stages of the improvement program, and that "every avenue of building up lead time in construction phases will be pursued."

Hossack said it would take 10 days to two weeks to determine which of the projects will be best suited to the use of consultant engineers.

Court Acts; Ships Will Sail Again

San Francisco (UPI) — A federal court acting under the Taft-Hartley law at request of President Kennedy Wednesday ordered the West Coast maritime strike ended for an 80-day cooling-off period.

Operators estimated ships would begin moving in two to 4 days.

U.S. District Judge George B. Harris issued a temporary restraining order to permit ships to be loaded and sailed, but set a hearing for Mondeay when he is expected to convert the order into a preliminary injunction.

Both employers and marine unions indicated that they would comply although both had opposed government intervention in the strike which would have been a month old this Friday.

Asked To Intervene

President Kennedy asked the U.S. Department of Justice to intervene after a breakdown in mediation efforts and receipt of a report by a 3-man presidential board of inquiry as required by the Taft-Hartley law.

Loading and unloading of ships was expected to begin Wednesday night or Thursday. More than half of the 120 ships of the Pacific Maritime Association (PMA) were tied up by the dispute.

Both sides expressed doubt that full operations would be maintained during the next 80 days.

The 3 striking unions indicated they would resist sailing on any vessels that would not return to a U.S. port within 80 days. The PMA said it would seek to avoid sending vessels which might return empty because they could not be unloaded after the 80-day period.

St. Sure also said that "on the basis of the difficulties that now exist, I have no hope of settlement in 80 days."

BLUE JACKETS BLANKET CAPITAL

By GLENN KREUSCHER
Farm Editor

Vanguards of blue-jacketed youths converged on the College of Agriculture campus for opening ceremonies of the 34th annual Nebraska Future Farmers of America convention Thursday.

The three-day meeting will draw more than 2,000 FFA members who subscribe to the belief that "The successful farmer of tomorrow is the future farmer of today."

Registration, and practice for the 56-piece state FFA band and 4 public speaking events are scheduled the first day.

Winners will be named Thursday in public speaking, parliamentary procedure, creed speaking and soil conservation speaking contests.

Speakers at the Thursday evening program will include Dean E. F. Frolik of the College of Agriculture and Darryl Eastvold of Mayville, N. D., national FFA vice-president. The FFA Degree of State Farmer will be conferred upon 110 candidates during this session.

Other events include a Friday honors luncheon for 1962 State Farmers and their advisers, courtesy of the Lincoln Jaycees, and the annual FFA banquet that evening at the Nebraska Center for Continuing Education, sponsored by Gold & Co.

The convention will conclude Saturday with election of officers.

PLANNING CONVENTION

State FFA officers confer before the big session opens. Shown (from left, seated) Dennis Swanstrom, Waverly, state president, Glen Strain, Lincoln, state adviser, and Glenn Luedke, Wisner, vice president; and (standing, from left) Dale Kinnan, Cozad, treasurer, Merlin Prior, Imperial, secretary, and Jack Underwood, Exeter, reporter. **(Star Photo)**

Cloudy Skies Are Expected

Cloudy skies are likely over most of Nebraska Thursday. The Panhandle is the exception.

Parts of the state, including Lincoln, had shower activity Wednesday night, with Ainsworth and Grand Island reporting some hail.

Highs Thursday generally will approach 50, with the northeast slightly cooler.

Demos Call Steel Hikes Arrogant

Washington (UPI) — House and Senate Anti-Trust Committees launched inquiries into the big steel price increases Wednesday as congressional Democrats denounced the hikes as "economic arrogance."

Chairman Emanuel Celler, D-N.Y., announced that his House Anti-Trust subcommittee would open hearings May 2. He said U.S. Steel Corp. had a history of price leadership that "may itself evidence violations of the existing anti-trust laws."

"If the other steel companies pursue their past 'follow the leader' practices they may involve themselves in the toils of the anti-trust laws," Celler said in a statement apparently prepared before other firms announced their price hikes.

The chairman of the Senate Anti-Trust subcommittee, Sen. Estes Kefauver, D-Tenn., announced that he also had ordered the staff of his subcommittee to look into the situation. He called the increase "shocking and irresponsible."

Some of the sharpest democratic attacks were delivered by Senate party leader Mike Mansfield, Mont., Speaker John W. McCormack, Mass., Sen. Hubert H. Humphrey, Minn., and Sen. Albert Gore, Tenn.

Mansfield said the price rises would set in motion an inflationary trend that would increase the price of all industrial products and raise government costs. He said he understood it would boost the U.S. defense budget by $600 million.

Quick To Follow

Pittsburgh (AP) — Five big steel producers hiked their prices Wednesday in line with a $6-a-ton increase announced earlier by U.S. Steel Corp., the industry's pace setter.

They are Bethlehem Steel Corp., No. 2; Republic Steel Corp., No. 3; Jones & Laughlin Steel Corp., No. 4; Youngstown Sheet & Tube Co., No. 7, and Wheeling Steel Corp., the nation's 11th ranking steel maker.

The steel price hike coming on the heels of a labor settlement labeled as non-inflationary triggered a shock wave of protests in the nation's capital. The labor contracts provided an estimated 10-cents-an-hour in new fringe benefits.

All of the price increases come out to roughly 3.5%, or three-tenths of a cent per pound of steel. The average price of a ton of steel had been a little more than $150.

JFK Says SAC Alarm Over-Stated

Washington (AP) — President Kennedy touched on these subjects at his press conference Wednesday:

Attack Alarm — Kennedy was asked about a false alarm by the Strategic Air Command last year. Did he think he should have been notified?

The President said the situation had been over-stated. He said it would have taken some time for the planes to have taken off, and that the alarm lasted only for a few seconds. He said he thought that proper action was taken by the air command.

Clay — The President was asked to interpret his decision to allow Gen. Lucius D. Clay to return from his post in Berlin.

Kennedy said Clay had been asked to remain only until January. Clay will continue to give the administration the benefit of his consultation on Berlin problems, he added, and in all likelihood will be as valuable here as on the troubled Berlin scene.

New Guinea — Kennedy was asked to clarify the U.S. position in the dispute over New Guinea between the Netherlands and Indonesia, in view of the criticism of U.S. policy in the matter.

Kennedy said the role of the mediator was not a happy one, and that no one is happy with its moves, but the United States is prepared "to make everybody mad if it makes some progress."

Goulart — Kennedy said, in response to a question, that what President Goulart of Brazil told him during a visit here agrees generally with a Brazilian-Mexican joint statement of nonintervention in communist and anti-communist conflicts. He said, however, he has not yet seen the joint statement.

Japanese Award — Kennedy was asked why a Japanese officer, who had planned the Pearl Harbor attack in 1941, received the Legion of Merit award from the United States.

Tersely Told Tales

New York (AP)—Steel stocks advanced moderately on the New York Stock Exchange Wednesday following announcement of steel price increases.

They were less than $1 ahead at the close after having run up gains of as much as $3 earlier.

★ ★ ★

Washington (AP)— President Kennedy's nomination of Byron R. White to be an associate justice of the Supreme Court won speedy Senate confirmation Wednesday.

The Senate approved the selection by voice vote after its Judiciary Committee unanimously recommended confirmation. White listened silently for nearly two hours as witnesses sang his praise before the committee.

★ ★ ★

Miami (UPI) — George T. (Ted) Baker, founder and long-time head of National Airlines, has negotiated a $6.2 million deal to sell most of his stock in National to former Frontier airlines president and board chairman Lewis B. Maytag Jr., it was learned Wednesday night.

Ponca Indians Seek To Divide Tribal Assets

Washington (AP) — The Interior Department sent proposed legislation to Congress to provide for division of tribal assets of the Ponca Indians of northeastern Nebraska.

The department said the bill, which also would terminate the tribe's special relations with the federal government, was submitted in response to requests of the Indians.

Assistant Secretary John A. Carver Jr. explained that the division of assets would be authorized only if it is approved by a majority of the adult members of the tribe.

The tribal land now consists of about 690 acres valued at about $70,000. In addition, tribal trust funds totaling about $28,000 and federal property worth about $7,400 would be included in the distribution.

Under the proposal each member of the tribe would be given the opportunity of selecting not more than 5 acres of tribal land as a homesite, and would be requested to pay the tribe its current market value. All tribal lands remaining after the proposed homesite purchases would be sold and the proceeds would be distributed among the eligible tribal members.

Kearney Man Dies Following Imperial Crash

Imperial, Neb. (UPI)— Lester Harrison, 33, Kearney, died Wednesday in a local hospital of injuries he received Tuesday night in an auto accident ¾ miles west of town on U. S. 6.

Chase County Sheriff Clifton Morrison said Harrison and two other men were in a car which struck the back of a stalled grain truck. The others, Floyd Carmen, 36, Chapman, who was driving, and Orville Pedersen, 36, Shelton, were hospitalized here. Their condition was not serious.

The truck driver was Howard Smith, Imperial. He told Morrison that he put out warning flares and left the truck to get repair parts after drive-shaft bolts had sheared.

Frontier Homes Makes Big Deal

Falls City (AP)—The Frontier Homes Corp. plant here will supply 300 family mobile home units for the missile site activation program headquartered at Whiteman Air Force Base, Mo.

Ray Conley, vice president and division manager of the company plant here, said the units will be used at Butler, Sedalia and Warrensburg, Mo.

The contract, valued at approximately $1,500,000, is with the Boeing Company of Seattle, Wash.

The local plant now employs about 250 persons.

Faulty Burning Torch Is Blamed For Reno Blaze

Reno (AP) — A faulty burning torch started the million-dollar fire that destroyed the downtown New Golden Hotel last week, authorities said Wednesday.

The cause was detailed in a statement released by City Manager Joe Latimore. It included an interview with the hotel's maintenance man, William H. Smith, who said a high pressure gauge on an acetylene tank exploded while he was preparing to weld some equipment April 3.

Several hotel guests were trapped in the four-story building's upper floors.

One body was recovered and 5 persons were listed as missing. Seventeen were injured.

CLEAN SWEEP

London (AP)—Two men sweeping the steps of the Dagenham Borough Hall dropped their brooms when a payroll messenger arrived. Then they knocked him cold with lead pipe clubs and fled with 1,400 pounds ($3,920).

Release Plan Affects Seven Units In State

Seven U.S. Army Reserve and Nebraska Army National Guard units called to active duty last October will be affected by the President's August release plans.

In addition, an undetermined number of Nebraskans who were called to active duty as "fillers" in other reserve units will benefit from the order.

The 4 Army Reserve units:

82nd Field Hospital, Omaha, called Oct. 1.
162nd Medical Battalion, Lincoln, called Oct. 15.
320th Ordnance Battalion, Grand Island, called Oct. 15.
11th Quartermaster Platoon Petroleum Depot, West Point, called Oct. 15.

The 3 Army National Guard units:

1057th Transportation Company, York, called Oct. 1.
24th Medical (Air Ambulance) Company, Wahoo, called Oct. 1.
1056th Transportation Company, Crete, called Oct. 15.

5th Award

Omaha (AP) — The Union Pacific Railroad for the 5th time has received the U.S. Public Health Service's highest award for excellence in dining car sanitation.

Dr. Eyen Leaves Lincoln Hospital

Dr. Michael Eyen, 50, of 1352 Aldrich Rd., was released from St. Elizabeth Hospital Wednesday.

Dr. Eyen had been treated for internal poisoning after firemen had found him unconscious and not breathing in the basement of his home April 2. Earlier in the day he had pleaded innocent in county court to a felony assault charge in connection with an acid-throwing incident involving 24-year-old Victor Pechar of Lincoln.

Search, Seizure Rules Explained

More than 100 law enforcement officers Wednesday attended a training school on search and seizure conducted by the Federal Bureau of Investigation.

The two-day session is being held at the University of Nebraska Law College.

The program covers searches of motor vehicles, hotel and motel rooms, private residences and individuals, and the seizure of evidence obtained in a search.

Anderson Gets Pen Sentence

...On Ainsworth Arson Charges

Ainsworth (AP)—Paul Anderson, 18, of Minneapolis was sentenced to a term of 8 to 10 years in the Nebraska Penitentiary Wednesday after he pleaded guilty in District Court to arson.

Anderson was accused of setting a fire which destroyed 3 business buildings in downtown Ainsworth, housing 4 firms. County Attorney Samuel Ely said Anderson admitted setting the blaze in an effort to destroy a stolen car which was being checked by federal authorities. The damage in the fire was estimated at $100,000.

Sentence was pronounced by Judge William C. Smith Jr.

Two more youths were charged with malicious destruction of property and bound over to District Court under $1,000 bonds in connection with the attempts to conceal the stolen car by pushing it into a gulch near Ainsworth. The car had been reported stolen in Minneapolis.

The two are Larry Hapke, 17, of Bassett and Blaine Ellis, 21, of Newport. Both pleaded guilty in County Court. A 3rd youth, Yngol Haller Jr. 19, of Ainsworth, previously had pleaded guilty to the same charge and was bound over to District Court.

Castro Will Let Sick Go

Miami, Fla. (AP) — Fifty-four sick and wounded prisoners of the Cuba invasion will be flown to Miami Saturday, the Cuban families committee here was informed Wednesday night.

There was no mention of ransom in word the committee received from its negotiators—with a promise of more details Thursday—but a Cuban government-controlled Havana telecast, monitored in Key West, said the committee negotiators had agreed to deposit the ransom for those freed in the Royal Bank at Montreal for transfer to the National Bank of Cuba.

Castro had demanded indemnities ranging from $25,000 to $500,000 for a total of $62 million to free his captives. The families committee said it had raised more than $26 million in cash and pledges.

Out Saturday

The men being freed are scheduled to attive in Miami Saturday morning by airliner.

With the group will come 4 delegates of the committee who went to Havana Tuesday to negotiate with Fidel Castro for release of 1,179 captives of the Bay of Pigs fiasco of last April 17.

Eudaldo A. Suarez of the families committee reported the delegation advised him of this by telephone after a conference Wednesday with Castro. The negotiators also conferred Tuesday with the Cuban Prime Minister.

Two Physicians

Two Cuban physicians will accompany the prisoners.

In New York, a public relations consultant to the families committee said also that "apparently some kind of agreement was reached Wednesday" concerning the fate of the remaining prisoners.

The consultant, James Fusca, said the committee was awaiting a cabled report from the negotiators, but added:

Help Of God

"The mother of one prisoner called us and said she had talked with Havana and . . . with the help of God, the rest of the prisoners would be free within the next month."

Suarez said a committee delegation would be at Miami International airport to meet the liberated men and take them to hospitals.

News of the impending release spread rapidly through Miami's Cuban exile colony of 75,000. Headquarters of the families committee, which comprises relatives of the prisoners, was jammed with mothers, fathers and wives eager to learn whether their menfolk were coming home.

Suarez said he expected a further call, probably Thursday, on negotiation details. There was no word, he said, about the immediate fate of the prisoners not among the 54 to be flown to Miami.

Peterson Urges Government Emergency Fund

Curtis (AP)—Former Governor Val Peterson told the South Platte Chambers of Commerce he believed it would be well if the Legislature set up an emergency fund of a half million to a million dollars for the use of the state's government.

Then, he said, there would be no need to "run" to Washington for funds.

On the Unicameral Legislature, Peterson said it was his opinion it should be continued in Nebraska although it would be better to switch to election by party rather than the non-political setup now existing.

Of politics in general, he commented there is no excuse for any political party unless it works to make the world a better place to live in.

Churchill Given Kennedy OK For Postmastership

Washington (AP) — President Kennedy Wednesday sent to the Senate his nomination of Charles E. Churchill to be postmaster at Fairbury, Neb.

Milk Section Of Bill OKd

Washington (AP) — The House Agriculture Committee approved Wednesday the milk section of the administration's farm bill, completing work on the individual parts of the wide-reaching measure.

The bill as a whole comes before the committee Thursday, and each part will still be subject to amendment. A final vote on sending it on to the House floor could come Thursday.

The only major change made Wednesday in the milk section — which itself is a compromise of the administration's original version — was to increase from 7½ to 10% the minimum voluntary cut in milk production under which farmers could quality for compensation payments from the government.

There are no penalties for farmers who don't want to reduce production or want to increase it. They simply would not get the government payments.

Price supports would remain at the present 75% of parity ($3.11 a hundred pounds) for all dairy farmers.

Merger Effect Is Explained To Lutheran Group

More than 30 members of St. Andrew's Lutheran Church learned Wednesday night what the forthcoming formation of the American Lutheran Church through the merger of 4 national synods will mean.

Dr. J. Sabin Swenson of Omaha, president of the Nebraska Conference of the Augustana Church, spoke on the merger, which takes place Jan. 1, 1963. At that time the United Lutheran Church in America, Augustana Lutheran Church, American Evangelical Lutheran Church, and the Finnish Evangelical Lutheran Church all merge into one.

He said that the new church will be Lutheranism's largest body, with more than 3 million baptized members, 50,000 of which will be in the Nebraska Synod.

"Congregations will be as individual as before," said the Rev. Dr. Swenson. "The main change will be in their title in Nebraska, it will read Nebraska Synod of the Lutheran Church of America.

One of the main reasons for unifying, he told his audience, was that the old divisions were often based on community groups such as German, Swedish, Danish or Finnish.

"We are now all Americans and speak the same language. There's no longer any need for division," he explained.

Services Friday For Dr. Burke

Omaha (AP) — Funeral services will be held at 2 p.m. Friday at First Methodist Church for Dr. Harry A. Burke, superintendent of schools who died Tuesday.

Burial will be at 2 p.m. Saturday at the Kearney Cemetery in Kearney, Neb.

Guest Conductor, Flutists Confer

During a rehearsal break 4 flutists talk with Forrest Buchtel, guest conductor for the 19th annual Band Clinic-Festival at Peru State Teachers College. Buchtel, nationally known composer and professor of music at Vandercook College of Music, Chicago, worked with the more than 200 instrumental musicians during the day and was guest conductor for the evening concert. With Buchtel are, from left, Mary Ullsperger, Syracuse; Janet Harie, Beatrice; Linda Anderson, Syracuse; and Dorothy Lynch, Fairbury. **(Photo Special to The Star)**

Nebraska Reports 14 New Oil Wells

Denver (AP) — New locations dropped to 73 last week in Rocky Mountain-high plains oil fields, Petroleum Information — an industry publication —said. This was off 24 from the number of new wells reported the previous week.

The southeastern Rockies dominated the newly announced work with 20 locations slated in eastern Colorado and 14 in Nebraska. Twenty-two of these are wildcats.

Activity by states as reported by the publication included:

Nebraska — Phillips Petroleum made location for a scheduled 6,000 foot test of basal Pennsylvania at 2 strat-P-2190 in Morrill County, 21 miles northeast of Hart Field. Skelly Oil abandoned 6 Fritz in Red Willow County at a depth of 3,491 feet in granite.

Towboat Is Saved After Long Battle

Bellevue (UPI) — The Melinda B, towboat of the Greenville Transportation Co., Greenville, Miss., was saved from sinking Wednesday after a 12-hour battle.

The 150-foot towboat, starting downriver with 3 bargeloads of grain, struck a sandbar and was whirled around into a rock dike.

The impact broke two holes in the hull, one about two feet across and the other a few inches wide.

Water poured into the hull and the boat drifted to below the Bellevue bridge before the pilot could get it to the bank.

The Army Engineers sent a launch with welding and pumping equipment to help out and Bellevue police lowered a compressor hastily borrowed from Offutt Air Force Base. The compressor was lowered from the bridge to the deck of the towboat Mister Mac, which also joined the battle.

Pumps were throwing the water out at 5,000 gallons a minute at the height of the battle and finally the boat was made buoyant and the holes patched temporarily.

The boat was to be taken to St. Louis for permanent repairs.

Petition Choice May Decide Old Courthouse Site

Arthur—Three petitions are circulating in Arthur County to decide where to put the old two-room courthouse, smallest county seat building in the state.

The new courthouse was opened in January.

County commissioners decided to keep the old building as a museum, but a site wasn't decided.

Arthur Enterprise publisher Robert Crouse said the building could remain at the present site west of the new building, be moved to another area on the courthouse square or be moved to another part of town.

The petition with the most signatures probably will decide the issue, Crouse said.

He revealed that the old courthouse will be given to the Arthur County Historical Society when the group is incorporated. Charles Gessford of Arthur is the society president.

Verdigre School Head Is Injured

Verdigre—Supt. Robert G. Sheckler of the Verdigre public schools is in a Creighton hospital suffering from severe back and other injuries received in an auto accident.

Morrison Not Speaking For Stockmen—Paxton

Thedford —Chester Paxton of Thedford, president of the Nebraska Stock Growers Association, says that when Gov. Frank Morrison in a recent appearance before the Ways and Means Committee in Washington, endorsed President Kennedy's trade program, he was definitely not speaking for Nebraska stockmen.

Morrison was quoted on press wires as saying that the United States "has no choice but to proceed with the program outlined in the proposed Trade Expansion Act of 1962" and that "the President must have authority to negotiate in order to maintain its export markets."

Paxton in commenting on Morrison's statement said, "I can't conceive of anyone in Nebraska advocating this Free Trade proposal. Farm marketings in Nebraska, the Beef State, show that cash receipts from cattle alone account for nearly one-half of the total cash receipts on our farms."

"People interested in the cattle industry of this nation can't go along with the Kennedy Trade Program," said Paxton.

"It is our opinion that we should double our tariffs and establish quotas for imports from these countries so that our American farms and ranches could benefit from an expanding animal agriculture in this country; so that we could purchase high-priced equipment, meet our pay-rolls and pay that ever increasing tax burden," add Paxton.

Oahe Generator In Testing Phase

Omaha (AP) — Army Engineers reported that the first of seven 85,000 kilowatt generators being installed at Oahe Dam on the Missouri River near Pierre, S.D., has entered the lead testing phase.

The big unit, capable by itself of meeting electrical needs of a city of 50,000, was started on a limited scale, engineers said. It will run on a part-time basis for several weeks while engineers check it out and make adjustments.

When completed in July, 1964, the Oahe hydro-electric plant will have an installed capacity of 595,000 kilowatts, largest on the chain of Missouri River dams.

Practical Or Principles Approach

By WILLIAM O. DOBLER

Probably few people know what is going on at the present time relative to the construction of new public airport facilities for Lincoln along the east side of the Lincoln Air Force Base. The story, however, is an intriguing one and one of considerable importance. It is conceivable that the situation could bring about a reopening of the entire airport question and delay this facility for years.

The problem is an intricate one involving the Burlington Railroad, the Abel Construction Co., Abel Investment Co., the City Council, the Lincoln Airport Authority, a private citizen and the federal government. It involves the acquisition of land by negotiation or condemnation by the authority and the zoning of land by the City Council. It involves, finally, a federal aviation funds grant of $1,307,800 that must be committed by May 1. The Abel Construction Co. owns a 12.97-acre tract of land north of the entrance road to the Terminal Bldg. at LAFB and west of the Burlington tracks.

Many Factors Involved

The Abel tract and the Burlington tracks both must be taken by the Airport Authority for construction of the new runway. Such public acquisitions of private land can be made in two ways—friendly or unfriendly. The amount paid for the land can be negotiated, the friendly way, or settled by court action, the unfriendly way.

Abel apparently has given the authority and city its choice between the two ways. If it grants the company heavy industrial zoning on an eight-acre tract immediately adjacent to and west of an existing eight-acre tract it owns on the south side of the Terminal Bldg. entrance road, the firm is prepared to negotiate the deal in a friendly manner.

★

If the south zoning is not granted, Abel is prepared to seek the maximum payment from the authority for its north tract. Also, the Abel firm is a large Burlington customer. The Burlington has a real affinity for hauling sand, gravel, cement, etc., used by the Abel firm. As a result, Burlington has come to about the same conclusion Abel has. If Abel gets its zoning and thereby remains on the Burlington line, the Burlington will seek an amiable settlement for the relocation of nearly 12,000 feet of trackage. This seems to be a reasonably practical attitude on the part of the Burlington but it shows little else.

Exactly what damages Abel might be able to show if the issue went to court are rather difficult to see. It is important in this respect to know that neither the north nor south site the company owns is now zoned for the industrial usage being made of it. It is zoned for residential. It is probably not good land for either residential or heavy industry. A proper use would probably be light industrial. The heavy industrial use wanted by Abel would not be an attractive use in consideration of its location adjacent to the airport. On the other hand, the land is between the Interstate Highway and the Terminal Bldg entrance road so its use cannot be too confined by zoning or it would amount to virtual confiscation. Certainl, residential zoning is ridiculous but business or light industry might well be proper.

★

The Burlington might make all sorts of claims if it wanted to be unco-operative as a means of helping one of its major customers. But how much of a claim it could make stick is quite another question. As an owner, it would not be ousted from its land and trackage until the authority actually needed the area, thus giving it ample time to reconstruct its lines to the east.

The authority seems to believe that what the Burlington and Abel would agree to if the zoning is granted would cost about $50,000 less than the settlement might end up if it were taken to court. Also, the authority is in a bind to get a grant agreement with the government before the $1,307,800 offer expires May 1.

If the Burlington-Abel deal is not settled by June 1, the authority could only estimate its expenses and if it were wrong, it would have to make up the difference itself because the federal grant cannot be changed once a formal agreement is signed. So, the authority favors the zoning Abel is interested in so that agreement can be reached with Abel and the Burlington by June 1. It would be easy for the City Council to grant this zoning and settle the whole matter and there has been worse zoning than this in the past.

Deadline June 1

However, Abel and the Burlington are pressuring the city and, in effect, offering to buy the zoning for $50,000. This is a precedent that would be catastrophic to set. The whole deal is just a little too cozy for Abel and the Burlington and the city should do what is right and proper, regardless of any threats, and the authority should proceed on the same basis. If it lets the federal funds lapse May 1, it will be subject to severe criticism, regardless of what kind of a settlement is worked out with Abel and the Burlington.

Steel Prices Hiked

The right of the U.S. Steel Corp. to raise the price of its product by $6 a ton is without question. U.S. steel is private enterprise and if it wanted to double the price of its product, it could do so and no one could do much about it. But U.S. Steel and other industries in the nation have a certain public responsibility, just as do labor unions and just plain citizens.

U.S. Steel had the advantage of federal government pressure in negotiating a labor settlement which called for no increases in pay and only some improvement of fringe benefits. The unions agreed because the administration in Washington was insistent upon a hold-the-line policy on wages and prices. Thus, U.S. Steel's hike is a betrayal of the situation as it existed just a few days ago.

The action, taken as it was, will most certainly usher in a new round of tough bargaining on the part of labor at the next contract date. This will mean wage hikes and probably a strike in order to get them. Then will come more price hikes, more salary hikes and on and on until we have priced ourselves out of a lot more of the world market.

The action of U.S. Steel shows no sense of its public responsibility and could be a seriously disrupting force in the nation's economy. It even makes one wonder about the managerial ability of a firm which raises its prices because it is losing volume to foreign imports against which it cannot compete pricewise. The hike in prices will only cut U.S. Steel out more than it has been cut in the past. It cannot go on forever raising prices to make up loss in volume.

Hoffa On Hoodlums

During his brief stay at Des Moines last weekend Jimmy Hoffa, the generalissimo of the Teamster Union, described Attorney General Robert F. Kennedy as a fellow who went around acting like a little hoodlum.

He referred to Kennedy's overseas trip. It shocked Hoffa the way Kennedy talked back to foreign bigwigs and disputed with foreign students. He observed that a few more trips like that and he wouldn't ever get elected to anything.

Of the Hoffa criticism, we all agree that he ought to be an authority on hoodlums. There have been a lot of them in his life. It is a different story, though, when it comes to knowing how to be a smooth diplomat and a crusader for right.

One suspects that Mr. Hoffa is not wringing his hands over the American image created by Robert Kennedy overseas, but rather is reflecting his feelings over the growing effectiveness of the whole Kennedy clan in cutting Mr. Hoffa down to size. He has a tender memory of the labor bill that came from the hand of President John F. Kennedy when he was a senator. It is true that the Congress substituted the rather innocuous Landrum-Griffin law with the result that Mr. Hoffa is still on the loose. But the best recommendation of the Kennedy measure was the way Hoffa turned purple when it appeared.

Younger brother Robert, as attorney general, is carrying on the scrap with diligence and, therefore, cannot be dismissed in the Hoffa security plans. By the tone and character of the shouts that come from the opposing camps, the public has learned to tell how accurate has been the shooting.

Reward For Finishing

An interest in the high cost of high school graduation in its effect on the number of seniors dropping out of school because they could not afford the fun, prompted Ripon College, of Ripon, Wisconsin, to get more detailed facts.

The college canvassed 788 high schools representing 535,000 students. It found that the drop-outs amounted to 22,508 and that of this number 5,563 left school a few weeks before graduation. But it also found that lapsations for reason of graduation costs were only one of five. That would indicate that only about one out of 500 quit because he couldn't afford it.

Most of the costs were extra-curricular. They included formal clothing, proms, class photos, year books, rings, auto expenses, class trips and caps and gowns.

From the evidence there cannot be much sympathy with the critics. The loss of one graduate out of 500 does not constitute a grave issue. Rather, it suggests to school administrations to refrain from approving excesses in graduation activities, though not to the extent of stifling them. It also counsels the drop-out student that he has become confused over the whole point in education. His diploma is the big thing and should not be lost for the lack of a ring, or no date for the prom.

High school graduation is an occasion for enthusiasm and special observances. It does not mean to indicate that the graduate has mastered all of the educational material or has reached the summit of his learning. But it does mean that the youngster has accepted the first great challenge of his life and after 12 years has conquered it. It marks him as a finisher and an adequate person. That is mighty significant and not something to be cast away at the finish line for a trivial and temporary reason.

"If I've Explained This Once, I've Explained It A Thousand Times!"

DREW PEARSON

Dakota Proves American Way

BISMARCK, N.D. — I have been traveling across the Great Plains of the Northwest—a land where the tumbleweed rolls lazily along the fence lines, a land which lies brown and sleeping in the April sunshine, where the rivers are blue and still frozen despite the April sunshine; a land where men sometimes pray for rain, but where if there were more rain the rich black soil would burst with enough crops to drive Orville Freeman crazy.

Today it's a land where farm machinery, once in great demand, sits outside the machinery dealers, brightly painted red, yellow and green to entice farmers. But there are few takers.

☆ ☆ ☆

It's also the land that Wild Bill Langer once made famous. Bill Langer is dead now, but the skyscraper state capitol which he helped to build as governor stands straight up from the prairies like an Empire State building transplanted from Fifth Avenue. Inside, the brass columns and burnished doorways are reminiscent of the senator who at one and the same time was one of the brassiest and most kindly men ever to chomp a cellophaned cigar on the floor of the U.S. Senate.

Outside the state capitol stands an old French 40-and-8 boxcar, part of the Merci Train sent to the 48 states as a gift from the French people for the Friendship Train.

It's a symbol that the people of North Dakota are by no means as isolationist as their political critics contend.

It's also a land where Pierre Salinger got his training directing the volatile news policies of JFK by editing "Slope Teacher," the weekly publication of Dickinson State College, an energetic institution of higher learning on the western slope of the North Dakota badlands.

☆ ☆ ☆

This is also a land which in the years following World War I, started a great socialist experiment. The Nonpartisan League launched a state bank, community granaries, community gasoline stations, and the marketing of crops on a community basis.

The main aspects of that socialism are gone now. The community cooperatives have been taken over by the farmers' Union and the political aspects, much less burning than in the old days, have been channeled into a moderate, liberal program under the leadership of the new Democratic governor, William Guy, and the revived and revitalized Democratic party.

Therein lies a lesson of interest to those worried about communism in the USA.

For North Dakota is a state which once tried communism. It did so by the process of the ballot, without a revolution; then gradually, deliberately rejected it.

DORIS FLEESON

U.S. Cold War Stance Stronger

WASHINGTON — Sen. Albert Gore's statements in the Senate that "a sense of confidence" is returning to the West and "there is basis for cautious optimism" in the cold war are not merely one man's opinion.

President Kennedy has expressed private agreement with the Gore speech. Secretary of State Dean Rusk and his brain-trusters have taken the same line in private briefings. Assistant Secretary of State Averell Harriman, an authentic Russian expert, has underwritten prudent hopes that the Russians and Chinese are enjoying bad relations which promise well for the West.

Maybe all this is only spring fever, but it is pervasive and pleasant to believe. It is also an agreeable change from the picture about a year ago when the Cuban invasion disaster held the center stage.

Gore's claims are neither dramatic nor startling; the speech was carefully framed to avoid personal attack. Above all, it did not take in so much territory that it could readily be challenged.

☆ ☆ ☆

The Tennessee Democrat, a member of the Foreign Relations Committee, while praising Kennedy's performance, acknowledged that he could not point to any one event which had turned the tide. But his assertions were plainly stated, and he conceded later that he intended to make Americans feel better about the long, hard East-West struggle.

The senator charged that America's stance was "wavering" during the '50s, but he gave President Eisenhower credit for continuing old and successful policies and initiating a military build-up which he said was "now coming into fruition." The Cuban invasion he delicately pronounced "a misstep," and he asserted that the lost ground had been recouped.

He also expressed the candid view that Khrushchev in effect woke up Kennedy at Vienna last June so that even that dismal summit was of benefit in the long run.

Gore concluded on a note of caution which has long been the administration line. Apparently it is now willing to go a step further and let some sunshine into its assessments of the situation.

☆ ☆ ☆

It has the further advantage that he responsibly attaches his name to it in public. Those experienced in reading between the lines of Washington coverage had sensed something of what he said. Participants in off-the-record briefings had been able to hint at, but not to ascribe authority to, the brighter view.

Thus the effect was diluted. It still remains to be seen what other administration stalwarts will underwrite present optimism or, by failing to do so, indicate that the official view has shifted.

Nor has the passage of time been sufficient to prove that this administration's soothsayers in such matters are really so talented as their credentials would indicate. The Kennedy foreign policy staff took a beating on Cuba a year ago from which it has been slow to recover in the public esteem; it now needs to be proved wise over the long pull.

THEY WALKED WITH CHRIST

Pilate's Wife

"When He was set down on the judgment seat, His wife sent unto Him, saying, Have thou nothing to do with that just man . . ." —Matthew XXVII:19

Matthew gives us only this brief glimpse into the life of Pilate's wife.

Perhaps her only importance for the writer of the gospel narrative was that one moment when her life touched that of Jesus and she intervened to save Him because she had "suffered many things this day in a dream because of Him."

An apocryphal writer says that her name was Claudia Procula, which suggests that she may have belonged to the noble and influential family of that name in Rome.

The fact that Pilate was able to take her with him to Judea lends support to such a view. There was a Roman law forbidding pro-consuls to take their wives with them when they went to rule in foreign lands.

Her reference to Jesus as "that just man" suggests a previous and accurate knowledge of Him. Had she heard His message, and was she, too, a secret disciple, like Nicodemus?

Such a thing is not impossible. As several historians have pointed out, Roman women of that day were beginning to show a great interest in Eastern faiths, which offered more personal promise and satisfaction than the Latin cults. In Rome itself, a great number of patrician women had been initiated into the Mithraic religion.

Scripture does not tell what Pilate's reaction was to his wife's note. But there is little doubt that it strengthened his own resolve to release Jesus.

The fact that Pilate did not have the personal courage to persist in that resolve, even at the possible cost of losing his own position, was no fault of his wife.

The Greek Orthodox Church thought so highly of Claudia, in fact, that she is revered as a saint by members of that denomination.

MARQUIS CHILDS

Water, California's Biggest Problem

SAN FRANCISCO — By the end of the year, or early in 1963, California will have a population of 17,000,000 and become the largest state in the Union. This will dramatize a westward movement—a shift in economic and political power from the East Coast to the West Coast—that has been one of the remarkable phenomena of the past decade.

As compared to California's 50 per cent increase between 1950 and 1960, with 750,000 people a year moving into the state, Oregon and Washington have had scarcely more than the normal population increase. But it is quite possible that in the present decade these two states, with their great natural advantages, may see something like this same fantastic growth.

The World's Fair opening in Seattle on April 21 will be a stimulus. Visitors by the millions are expected to come from all over the country. They will get a look at the splendid scenery and form some idea of the outdoor life—boating, skiing, fishing, hunting — and its accessibility in contrast to the crowded East. The majority of visitors coming in their own cars will take in California on their way to or from the fair and this will give a new spurt to that state.

☆ ☆ ☆

To provide the newcomers with homes, schools and recreation areas is already an overwhelming task. A new housing development springs up on what had been six weeks before an orange grove. Freeways cut through mountains and settled communities with the pressure of ever-increasing traffic that is like a natural force. The population of Los Angeles is going over the seven-million mark.

The statistics of what the state is doing and still must do are dizzying. Three new state universities are coming into being—one in San Diego, one in Orange County and one in Santa Cruz County. This is aside from six new state colleges. There are 60 junior colleges providing the first two years either in being or under way. The state is spending $100,000,000 on beaches and parks in an effort to provide a minimum of play space for the exploding population.

And with this growth goes a crime rate that has become a source of political attack and counterattack — juvenile delinquency, drug addiction, a prison population of 25,000 costing $1,800 a year per prisoner. This suggests some of the problems that pile up on the doorstep of the governor of this state.

☆ ☆ ☆

But dwarfing all other problems is one paramount to growth and even to continuing existence—water. Uncounted civilizations in the past have gone down and the sands of time have buried their temples and their monuments when water ran out. A vast urban sprawl has come into being in southern California in a semi-arid region and thousands upon thousands of acres of dry land have with irrigation produced a large share of California's wealth. Today, as the water table drops, salt water is seeping into coastal areas and the irrigation pumps must work harder and harder to keep it back. This is the ominous signal that has meant the beginning of the end for past civilizations balanced precariously on the need to bring fresh water over great distances.

As long ago as 1905 the city of Los Angeles began to vote bond issues to carry water across mountains and deserts. A 240-mile aqueduct was completed in 1913 to Owens Valley and this was extended 90 miles in 1930 to Mono Basin. But the demand for water grew in geometric ratio and the Metropolitan Water District, made up today of Los Angeles and 90 other cities, was formed to carry water 242 miles from the Colorado River. This extraordinary system, completed in 1941, is comprised of 92 miles of tunnels, 63 miles of concrete-lined canals, 54 miles of concrete conduits, five pumping plants and a number of inverted siphons to carry the water across washes and canyons.

The right to water from the Colorado River, in dispute between Arizona and California, is now before the Supreme Court and it is a hot political issue in the West. This is one reason that the state in 1960 approved a $1.75-billion bond issue to transfer water from the northern half of the state, where it is in excess, to the southern half where demand constantly outstrips supply. It is a project of fantastic dimensions—lifting water 243 feet and carrying it in a man-made river to a southern terminus 450 miles away and then with another large pumping plant lifting the residue of the water and carrying it another 70 miles. If this challenge to man's technical ingenuity and his organizing capacity is met, it will mark perhaps the first time that a complex desert civilization has had a promise of long life.

Needless to say, the federal government is deeply involved in spending to help solve California's water problems, the United States Bureau of Reclamation being responsible for the Central Valley project that will cost close to a billion dollars. Gov. Edmund G. Brown in his campaign will not hide this partnership between Sacramento and Washington nor will he fail to take credit for putting over the state's own water program. It is part of the planning that he says is essential to this booming society.

Pork The Winner

Omaha, Neb.

We all remember the old and remodeled Mother Goose "saw" that when the cow jumped over the moon, that was when beef was the highest. Not so today. When the New York Police Department rendered its bill to Congress for millions of the American taxpayers' dollars spent for the protection of the Russian Hog, pork was easily the altitude winner.

WALTER B. SWAN

Dresses, Shorts

Lincoln, Neb.

I agree most heartily with the mother who wrote in, expressing her opinion on the way some of our young people dress, running around with so very little on and looking like heathen who don't know any better. If the girls knew how silly they look, they too would prefer the pretty cottons for summer.

It seems as if they can't wait to get their short shorts on, even while the weather is still so cold that they have to bundle up with sweaters. It looks idiotic and that's what it is. If more mothers would give the matter some thought, I agree with the idea that it would be a start toward keeping the juvenile courts emptier.

Off THE RECORD By Ed. Reed

"You're new here, aren't you?"

LIFE BEGINS AT FORTY:

Ability To Remember Is Not Related To Age

By Robert Peterson

Many people justify their difficulty in remembering names and telephone numbers by assuming that forgetfulness is a normal accompaniment of advancing years. I've been guilty of this myself despite the fact that I've read a dozen studies by psychologists which attest that older people have the ability to remember, but that most of them fail to cultivate this gift.

The other day I was in an office waiting to see a man when I observed his secretary — a brisk, efficient woman of about 60 — arranging a conference and dialing one number after another without looking them up. When I asked how many phone numbers she carried in her head she said, "Oh, 30 or 40 I guess. Years ago I discovered it was easier to take a few minutes off and memorize a number than to look it up each time it had to be called."

She made me feel pretty stupid as I sat there pondering the fact that my mental reserves harbored but five or six numbers I could phone without recourse to my telephone index. So last night I made a list of a dozen numbers I call with some regularity and spent half an hour memorizing them.

By golly it works. This morning I had to make a call and began reaching for my trusty index. Then I realized this was one I had memorized, so I quickly spun the combination into mental focus and dialed the number. It gave me a pleasant jolt to realize I wasn't so stupid after all. And it got me to thinking that a lot of us bumble along on one or two mental cylinders simply because we fail to use the full intellectual powers at our command.

☆ ☆ ☆

I've noticed that many vibrantly healthy people munch pills and vitamins they don't really need. I thus got a chuckle out of a fellow the other day who observed that there's a new pill on the market that's so powerful you can't take it unless you're in perfect health.

☆ ☆ ☆

Want a free trip to Europe? Just about anyone blessed with persistence and minimal powers of persuasion can earn such a trip for himself. All you've got to do is drum up interest in such a trip among folks in your community. It's standard practice among the major airlines to send along free as "tour conductor" anyone who can talk 15 people into flying abroad as a group at standard fares.

Folks who would love a trip abroad but can't afford it should set a goal of going this year or next. In every community there are men and women — including many who are retired—who have sufficient money but have never been anyplace largely as a consequence of procrastination and lack of incentive. By getting them out of their ruts and into a jet you will be doing them —and yourself—a favor.

☆ ☆ ☆

The big travel attraction this year is the 1962 World's Fair at Seattle, Washington, which runs from April 21 through October 21. In addition to the great industrial exhibits the entertainment offerings will include the Royal Dramatic Theater of Sweden, Verdi's opera "Aida" with a cast of 333, boxers from Thailand, puppeteers from Poland, and the Mormon Tabernacle Choir.

If you would like a booklet "Trips to Include in Retirement Travels" write to this column c/o The Lincoln Star, enclosing a stamped, self-addressed envelope and 10 cents to cover handling costs.

Teachers Can Learn

New York (AP) — Lincoln Center for the Performing Arts is to include a training center for the benefit of arts teachers throughout the country. William Schuman, president of the project, said it is designed to attract at least 400 teachers each summer beginning in 1966.

The purpose, he said, is "to raise the level of education for literally millions of students."

As examples of the operating method, Schuman said speech teachers would be able to act in plays uuder the direction of theater experts. Musicians and dance teachers would work with leaders in their fields.

Learning A Language

Miami, Fla. (AP)—A little Polish girl enrolled in a Dade County school was placed in a "special" English class with Cuban refugee youngsters, also non-English speaking. The child's English is progressing slowly, but now she jumps rope and counts, "Uno, dos, tres, cuatro," a teacher reported.

Baptist Finances

Nashville, Tenn. (UPI)—The Southern Baptist convention reports 1961 was a record financial year but receipts fell short of the denomination's $18,513,500 budget. A total of $17,715,140 was received last year, which was 1.35% over the total for 1960.

EDITOR ALSO PRODUCES NON-LITERARY JEWELS

Tallahassee, Fla. (UPI) — When Dorothy Johnson needs a new piece of jewelry, she calls up the editor of the local newspaper and says "make it."

Malcolm Johnson, her husband, then goes to his backyard workshop and fashions a ring, bracelet or pendant as required.

Johnson, executive director of the Tallahassee Democrat, says it is the perfect hobby. It relaxes him, and he does not have to invent excuses at home to pursue it.

He stamps each piece with his first name and Mrs. Johnson calls it her "Malcolm" jewelry. Though an avid collector of antique jewelry, she always wears at least one "Malcolm" piece when she goes out.

The Johnsons' 20-year-old daughter, Donna, also has a case full of Dad's originals. Her favorite is a bracelet hung with charms depicting the big events in her life, including her first sip of champagne.

Half-Inch High

This tiny champagne goblet, about one-half inch high, was the hardest piece he ever did in terms of time and patience, Johnson said.

Johnson started as an amateur silversmith when his wife and daughter bought him some hand-made cuff links in Key West and he was unable to find shirt studs to match. He made them.

Though his creations are lovely enough to wear to an inaugural ball, Johnson says the hobby is not expensive. He said $15 worth of tools, some available at the dime store, will put you in business and the materials are not costly.

In addition to silver, Johnson also works in pewter. Mrs. Johnson's prized possession is a set of pewter cocktail glasses he made for $2 each. He's now making sherry cups to match.

Mrs. Johnson also has a silver ring, set with ebony, that cost $3.50.

Used Gold Teeth

Johnson once did a gold ring and locket, using gold from the teeth of members of the family.

"We call this the family heirloom jewelry," Mrs. Johnson said.

"I do my best work when the Legislature's in session. When you're working on silver and pewter, you don't have time to worry about anything else," Johnson said.

Monaco Facing French Customs Bar

Paris (AP)—France Wednesday moved to throw a customs barrier around Monaco unless the Riviera principality quickly comes to terms in their financial dispute.

The cabinet decided to denounce the 1951 good neighbor treaty, which is the basis of French-Monacan relations for customs, taxes, communications and postal services, state monopolies and other fields.

The cabinet decision authorized Foreign Minister Maurice Couve de Murville to proceed with the denunciation, but set no date for such action. Under the treaty terms, a denunciation would take effect 6 months later.

Relations between France and its tiny neighbor flared up recently when Prince Rainier III fired his premier, a Frenchman nominated by France, in the midst of a dispute over the ownership of shares in Radio Monte Carlo.

But the basic issue is French concern at Monaco's development into a tax haven beyond the reach of French income and other taxes. Some 2,000 companies have established dummy headquarters there in the past few years.

Treaty revisions requested by France would extend the French taxation system into the principality. The Monacan regime refused to do this.

In Monaco, a special meeting of the national council was called to discuss the French denouncement of the 1951 treaty.

Officials there, including Rainier, would not comment on the French move.

House Refuses To Give Up Its 'Junk Mail' Privileges

Washington (AP)—The House refused Wednesday to give up what opponents call its "junk mail" privileges as it sent to the Senate the annual appropriation bill financing Congress.

A 197-192 roll call vote defeated an amendment by Rep. Silvio O. Conte, R-Mass., to prohibit use of any of the money to send free mail addressed merely to occupants.

Before the "junk mail" provision was approved last year, House members had to address their mail to named occupants at the addresses. The bill itself was passed by voice vote. It would provide $113,733,890 to finance the House of Representatives, the Capitol architect, the Library of Congress, the government printing office and the botanic gardens for the year starting July 1. It contains no money for the Senate which will add its budget later.

Club Women Pick Lincolnite For President

Omaha (AP) — The Nebraska Federation of Women's Clubs elected Mrs. George W. Mechling of Lincoln as its new president at the closing session of the annual convention Wednesday.

Vice presidents elected were Mrs. Walter Kirchefer, Sutton, first; Miss Ruth Ebmeier, Laurel, second, and Mrs. W. E. Davis, Kearney, third.

Mrs. L. B. Myers of York was chosen secretary and Mrs. Arthur A. Anderson of South Omaha was named treasurer.

Mrs. Don Kolterman of Seward, was chosen director of juniors.

The officers were installed by Mrs. M. H. Hasebroock of West Point.

The first prize award of $300 for community achievement went to Mrs. Jim Snyder of Ainsworth for her work in a campaign to raise money for a municipal swimming pool and funds to heat the pool.

The second award of $200 went to Mrs. Russell Dugan of Ralston for her work in a joint junior and senior program.

The third award of $100 went to Mrs. Atha Bluford of South Sioux City for work in drive to provide a colored children's center.

The Ralston program included backing a bond issue for a library building, drawing plans for a park, working for adoption of national building codes and planning for beautification of the east entrance to Ralston.

New Films On Natural History Set For Summer

Tourists who visit Nebraska's historic Fort Robinson near Crawford this summer will have the opportunity to see a series of new natural history films.

The movies, ranging in subject matter from the primitive earth and early animal life to modern animals, will be shown at the University of Nebraska Trailside Museum.

Fort Robinson is the center of one of the richest fossil-bearing areas in the world and the film series is particularly appropriate for the early western fort, according to Dr. C. Bertrand Schultz, director of the University of Nebraska state museums.

Film showings are scheduled on Wednesday and Sunday nights, beginning June 17.

Legislative Council Meetings Scheduled

The Legislative Council has scheduled two more interim committee meetings for April.

The purchasing committee will meet at 1:30 p.m. April 18 and the committee studying educational problems will meet in executive session at 10 a.m. April 27.

PLOESTI

DRAMATIC-EXCITING WORLD WAR II ADVENTURES OF THE 98TH

Just published by Random House

NEW at Miller's Book Store

PLOESTI is the authentic story of the fantastic surprise air mission of World War II, when 177 B-24 Liberator bombers flew in at 50 feet to demolish Ploesti, Germany's largest oil refineries.

"They flew so low that tree tops and corn stalks tangled with the bomb-bay doors; so low that wheat shocks blew away in the bomber wakes like tumbleweeds."

It's the dramatic story of the men who flew; the Roumanian princess who saved downed airmen from the Germans; the American colonel with the atomic secret who was captured by the Nazis. Stewart and co-author James Dugan tell this dramatic story of real-life courage.

Service District Zone Eyed Near Interstate Hwy. Cutoff

The City-County Planning Commission indicated Wednesday that "highway service district" zoning near the Interstate 80 cutoff to West O may be considered rather commercial."

An ordinance proposing "highway service district" regulations is scheduled for 3rd reading and public hearing next Monday before the City Council.

Meanwhile, the commission tabled the request of Mr. and Mrs. R. W. Smith for highway commercial zoning of a tract proposed for a new service station.

Planning Director Douglas Brogden recommended against further extension of West O highway commercial zoning, now existing for two miles.

As an alternative, Brogden suggested. that the newly proposed zoning district with permitted uses for service stations, restaurants, hotels and motels, be considered for the "crossover" area between the Interstate and West O.

The commission postponed decision on the zoning request until after council action on the highway service district ordinance.

The commission also reemphasized its recommendation that hotels and motels should be included in these districts.

Lincoln motel owners have indicated opposition to inclusion of motels and hotels in propsoed service areas along the Interstate.

In other action the commission:

—approved a special permit for the National Bank of Commerce and Hovland-Swanson to construct an overhead passageway in the alley to connect with the new Peterson Parking Garage at 12th and P.

—approved a special permit to the Nebraska Book Co. to construct an overhead passageway in the alley between Q and R, 11th and 12th, to connect with a building south.

—approved final plat of Pound Heights, an 82-lot replat between LaSalle and Pioneers Blvd., west of 48th.

—approved A-2 Single Family zoning and the preliminary plat for Meadow Lane 5th Addition, a 180-lot replat between Vine and Holdrege and east of 70th.

—approved revised preliminary plat of Normal Acres First Addition, a 27-lot replat at Cotner and Normal Blvds.

—reported the 1962-68 capital improvement program to be in general conformity with the comprehensive plan.

SoutheastStudent One Of 5 Winners In Talent Search

Peter H. Schultz of Southeast High School is one of 5 Nebraska high school seniors announced as winners of the Nebraska Science Talent Search for 1962.

The other winners are Marian J. Gordon, Benson High School, Omaha, Everett R. Lawton, Syracuse High School, Kenneth S. Oliver, North High School, Omaha, and Gary Alan Thrane, Benson High.

Honorable mentions went to Jack M. Hall, Syracuse High, James C. Nichol, Scottsbluff High School, Richard L. Pellican, Benson High and John Paul Steg, North High.

Each will be a guest at the annual banquet of the Nebraska Academy of Sciences Saturday in Lincoln.

Nebelsick Accepts Job In Puerto Rico

Schuyler (AP)—John Nebelsick has resigned effective June 1 as Colfax County agent to take a post in Puerto Rico.

Nebelsick has a 3-year assignment at the El Guacio Christian Service Center on a 95-acre demonstration farm located near San Sebastian. He will help develop diversified agriculture on the demonstration farm.

Constitution Of Congregational Church Reworked

Ainsworth (AP) — A proposed constitution of the Nebraska Congregational Conference was being reworked in some places Wednesday prior to a vote by the 106th annual meeting of the group.

The constitution came up for discussion Tuesday, the first day of a 3-day meeting. A vote scheduled to follow the discussion was postponed until Thursday.

Changes being made in the meantime were described as noncontroversial.

The new constitution is necessary as the result of a merger of the Congregational and the Evangelical and Reformed churches.

Bartels, Paradise On Chadron Staff

Chadron—Dr. Clark Elkins, president of Chadron State Teachers College, has announced the appointment of two new faculty members for the fall term.

They are G. Bruce Bartels, appointed assistant professor of education and director of student teaching, and Michael E. Paradise as assistant professor of mathematics and education.

Bartels, who is working toward his doctorate degree at the University of Nebraska, was principal at Phillips and Edgar and Superintendent of schools at Edgar and Tecumseh.

Paradise, a native of Greece, came to the U.S. in 1951 and became a citizen in 1961. A formtr teacher at Wausa, Neb., and in Colorado schools, he is working on his doctorate at Greeley, Colo.

Kennedy Asks For New Drug Controls

Washington (AP) — President Kennedy asked Congress Wednesday for new controls over drugs of doubtful effectiveness and those sold over the counter without prescriptions.

He also recommended establishing an enforceable system to prevent illegal distribution of habit-forming barbituates and amphetamines. Barbituates are sedative-type drugs and amphetamines are stimulants.

These and other proposals were made in a letter to Chairman James O. Eastland, D-Miss., of the Senate Judiciary Committee. It has the administration's bill for consumer protection under study.

The President urged prompt committee action on the legislation. He said his recommendations Wednesday could be included.

A subcommittee on patents has concluded that more study is needed on one section of the bill — a provision for licensing manufacturers to produce drugs developed by a competitor.

Kennedy noted this in his letter but said this should not delay action on the other sections. They are needed, he said, to "establish necessary safeguards to assure the reliability and effectiveness of drugs placed on the market."

The Department of Welfare, parent agency of the Food and Drug Administration, should have power to withdraw approval of a new drug if there is substantial doubt of its effectiveness or safety, the President said.

On controlling over-the counter drug sales, the President pointed out that drug manufacturers are already required to maintain the reliability of their products that go into prescription drugs. Kennedy said these controls "should be made applicable to over-the-counter as well as prescription drugs."

Two other recommendations were:

—That drug manufacturers be required to keep records on and report to the Welfare Department on any indications of adverse effects from use of a new drug or antibiotic.

—That a hearing procedure bill be eliminated because it would consume too much time. It was proposed for drug manufacturers to appeal from advisory opinions given by the Welfare Department to the patent office on the effect of changes in drugs.

Court Is Asked To Void License Of Barber School

A suit has been filed in Lancaster District Court asking that the court declare void the license of the National Barber School at Omaha because it was "improperly" issued.

The suit, brought by the Nebraska Association of Journeymen Barbers and the Associated Master Barbers and Beauticians, names the barber school, State Health Director Dr. E. A. Rogers and the State Board of Examiners as defendants.

The plaintiffs contend that the school made application for a license to the State Health Department and Barber Examiners Fred E. Thieman, James R. Mekiney and William Lint.

After approving sanitary conditions of the school, the examiners informed Dr. Rogers that they were awaiting legal advice before officially approving the school, the petition states.

However, the plaintiffs claim that Dr. Rogers issued the license without waiting for the official approval.

The petition further asks the court to refer the school's application back to the examiners for reconsideration because the establishment of another barber school in Nebraska is not in the state's best interests.

Roofers Cancel 10-Day Strike

Denver (AP)—A 10-day strike by members of Roofers Union Local 41 ended Wednesday after striking workers approved a new contract that will provide 40-cent hourly wage hikes spread over a two-year period.

The agreement is retroactive to April 1, and extends until the same date in 1964.

About 600 members of the United Slate, Tile and Composition Roofers, Damp and Waterproof Workers Association, Local 41, were involved in the strike over wages and other issues.

Roofers previously were paid $3.55 an hour, foremen $4 an hour.

The striking union represents workers in all of Colorado, northern New Mexico, 11 Nebraska counties and parts of Utah and Wyoming.

Smallpox Toll Up

Cardiff, Wales (UPI)—The death toll rose to 6 in a smallpox outbreak in South Wales. Board of health officials said 3 of the remaining 6 smallpox victims were in serious condition.

E. Jouhaud Boldly Admits Rebelling Against French

Paris (AP) — Edmond Jouhaud, once one of France's top soldiers, stood in a prisoner's box at the Palace of Justice Wednesday and boldly admitted rebelling against the French government. He said he turned against France for the love of Algeria.

Jouhaud

On trial for his life, the former chief of the French air force declared — almost boastfully — he took up leadership of a terrorist European Secret Army group in Algeria because he feared Algeria was being abandoned and betrayed by France.

"I am an Algerian," he said, and added that during his 36 years of military service he had promised residents of Algeria that France would never abandon them.

Jouhaud qualified his admission of participating in a rebellion by saying he took a position on the Algerian problem that many another French official and political leader had espoused. He said he acted in the belief metropolitan France would come around to understanding the views of Europeans in Algeria who want to keep Algeria French.

"I never thought for a minute of modifying the government institutions of the French Republic. I am a republican by family and traditions," he said.

Jouhaud once was sentenced to death in absentia by the courty trying him now. The sentence was set aside so Jouhaud, now stripped of his general's rank, could present his own defense.

He is charged with participating in an armed rebellion against the government and being a leader of the clandestine Secret Army Organization that is carrying out a terrorist campaign in Algeria in an attempt to keep it under French rule.

Indianian Picked To Be Dean At NU

DR. G. ROBERT ROSS

Dr. G. Robert Ross, 34-year-old dean of student affairs at Ball State Teachers College (Munice, Ind.), will be recommended as new dean of the division of student affairs at the University of Nebraska, Chancellor C. M. Hardin said Wednesday.

Dr. Hardin said Dr. Ross, who holds a Ph.D. in psychology, will succeed retiring Dean J. P. Colbert effective July 1, 1962.

The recommendation of Dr. Ross will be acted upon by the Board of Regents, meeting in Lincoln next Tuesday, April 17, Dr. Hardin said.

A native of Texas, Dr. Ross earned his Bachelor of Science in agricultural economics in 1949 and his Master's in sociology in 1950, both from Texas A & M College, and his doctorate degree in 1955 from University of Denver.

Dr. Hardin said he will also recommend that Dean Colbert resume his teaching duties as professor of engineering mechanics. Dean Colbert's retirement from his administrative duties as dean is mandatory because of the 65-year age limit.

Dean Colbert joined the University in 1925 as a faculty member of the College of Engineering and Architecture. He served in the College until his appointment as director of veterans affairs in 1944. In 1952, he was named the first dean of the Division of Student Affairs.

As dean of student affairs, Dr. Ross will have supervision of all general relationships between students and the University. This will include direction of the student affairs office, the Junior Division and Counseling Service, the University Examination Service, Scholarships and Financial Aids, and liaison with student activities and organizations, such as Nebraska Union, fraternities and sororities.

He also will coordinate the activities of the University Health Service, other than the medical aspect, with the activities of other subdivisions within the student affairs office. Subdivisions of student affairs include housing, discipline, records, foreign students, and placement service.

Dr. Hardin said that in the near future, as recommended by the Glenny Report, other activities such as admissions and registrations may be recommended to the Board of Regents for inclusion under the Division of Student Affairs.

He is a member of the American Psychological Association, American Personnel and Guidance Association, American Educational Research Association, and National Association of Student Personnel Administrators.

He and his wife, Billye, have two children, Mark, 6, and Robin Laune, 5.

POSTCARD by Stan Delaplane

To dinner in Chelsea the other night with Mr. Charles Mapes of Reno whose on-again-off-again romance with "Bobo" Rockefeller is a daily column item.

"Any statement on the tender passion, Charlie?"

"Just say that Barbara and I are getting along better than ever," said Charlie with a sigh. "She's having dresses made in Paris. I got tired sitting around salons, so I decided to come over to London and audition show talent for the Mapes hotel."

"And how have you enjoyed Europe?"

☆ ☆ ☆

Charles said that for a first tripper he had done pretty well.

"I had my pocket picked in Paris. I took the subway and got 10 miles in the wrong direction. I have got the French, Italian and British money so mixed up that I either over-tip so they think I am endowing a college. Or I under-tip to where they want to fight me.

"Oh, yes, I had a bubble bath in Paris. And I had 4 suits made in 5 days in London—they tell me this is some sort of record because London tailors usually take 5 months."

"What about the money?"

"Well, in Italy the lire are all different sizes. The biggest bills are really not so much. I was trying to tip by the importance of size and didn't do too well.

"Here in London, the largest coin seemed to be the penny.

"I gave the doorman at the Savoy 4 of them. I thought it was handsome. But he looked very disappointed.

"The silver money," said Charles, "I haven't figured out yet. There is so much filigree on the design, I can't find the denomination. Also, there's the way they talk about it—a shilling is a 'bob.'

"For some time I thought a 'bob' must be something quite good.

"But I could never find a coin marked 'bob'."

☆ ☆ ☆

"Then there's the guinea. If you go into a high class shop; everything is marked in guineas.

"Now they tell me there is no such coin as a guinea. Not anymore. It is a swank way of saying they've added a shilling extra to each pound.

"Then when they say 'two and three' or 5 and 4, it means they're talking in shillings and pence. It is very confusing.

☆ ☆ ☆

Mr. Mapes left New York with the newspapers full of wedding plans with "Bobo," the coal miner's daughter who scored a jillion alimony when she divorced Winthrop Rockefeller.

A few days out on the new luxury liner SS France and her attorneys were issuing no dice statements in New York.

"I read the papers myself to know what's happening," said Charles. "But it is a fact, we are getting along better than ever. Barbara gets mad easy so be careful what you say. I don't want to get her mad at me.

"She knows everybody over on this side. I've met enough marquis and titles to start royalty all over again. I did all the big restaurants.

"My pocket got picked in Montmartre. I only had a few pocket francs and I didn't want to phone and show I'd been suckered, so I took the Metro. When I got off, I was 10 miles further away than when I started.

"I finally found a woman running a newspaper stand who spoke a little English and had a car. I got her to drive me back to the George V and let her hold my watch while I went in to get some money.

"After I got in the hotel, I told myself: 'Mapes, you really have gone for everything, for a Reno man who's supposed to be smart. You've lost your money and now, 10 to 1, you've lost your watch, too.

"But when I got out," said Charles, "she was still there. I got my watch back, paid her and gave her a good tip. At least, I think it was a good tip. I never did get the money figured out."

Formosa To Have A Big Fertilizer Plant; U.S. Capital Helps

Taipei, Formosa (AP) — A joint Chinese-American project calling for investment of a $22.5 million in a chemical fertilizer plan in Formosa was inaugurated.

It involved the largest individual investment of private foreign capital. The project is being carried out by the newly established Mobil China Allied Chemical Industries, Ltd.

The new plant will produce 145,000 tons of fertilizer a year. It will be built at Miaoli in northwest Formosa.

Cedar, Dixon School Consolidation Approved

A plan for the mass consolidation of 17 school districts in Cedar and Dixon Counties was approved Wednesday by the State Committee on the Reorganization of School Districts.

Included in the proposal is the dissolution of all of Districts 20, 22, 39, 42, 43, 44, 52, 54 (Laurel), 75, 76, 83, 86, and 114 of Cedar County and all of Districts 39 65, 72 and 86 of Dixon County and the consolidation into School District 54-R.

In addition the plan provides for the attachment of portions of Districts 16, 28, 31, 46 and 66 of Cedar County to District 41-R (Coleridge).

In other action the committee approved 6 petition proposals for consolidation, gave qualified approval to 13 petitions, and gave non-approval to 7 others.

Petitions Approved:

—Dakota County, dissolve District 1 (Dakota City) and attach to District 11 (South Sioux City).
—Nuckolls County, dissolve District 27 and attach to District 15 (Nelson).
—Saunders County, dissolve District 56 and attach to District 39 (Wahoo).
—Wayne County, dissolve District 19 and attach to District 17 (Wayne).
—Wayne County, dissolve District 43 and attach to District 17; (Wayne).
—Webster County, dissolve District 9 and attach to District 2 (Red Cloud).

Qualified Approval:

—Antelope and Holt counties, dissolve District 128 and attach to District 29 (Ewing) and 49 (Orchard).
—Buffalo and Hall counties, attach a portion of District 32, Hall County, to District 10-43, Buffalo County.
—Gage County, dissolve District 64 and attach to District 55 (Cortland).
—Nuckolls County, dissolve District 46 and attach to Districts 6 (Ruskin) and 9 (Hardy).
—Otoe County, attach a portion of District 91 (Talmage) to District 75 (Dunbar).
—Otoe County, attach a portion of District 22 to District 54.
—Perkins County, dissolve District 8 and attach to District 65 (Venango).
—Richardson County, dissolve District 16 and attach to Districts 15C (Dawson-Verdon), 102 (Shubert) and 76 (Stella).
—Rock County, dissolve Districts 14 and 39 and attach to District 1.
—Wayne County, dissolve District 3 and attach to District 9 (Hoskins).
—Wayne County, attach portions of District 15 and 48 to District 45.
—Wayne County, attach a portion of District 44 to District 76.
—Wayne County, dissolve District 41 and attach to District 77.

Non-Approved:

—Antelope County, dissolve District 41 and attach to District 18 (Elgin).
—Colfax County, dissolve Districts 35, 22 and 37 and create a new district.
—Dodge County, dissolve Districs 15, 54, and 84 and create a new district.
—Gage County, dissolve Districts 150 and 102 and create a new district.
—Harlan County, attach a portion of District 30 to District 35.
—Harlan and Furnas counties, dissolve District 10 and attach to District 22 (Stamford).
—Holt County, dissolve District 36 and attach to District 76.

Youth Killed Girl Because She Meddled

. . . Prosecutor Says

Galesburg, Ill. (AP) — A high school junior shot and killed a 16-year-old girl from ambush, a prosecutor said Wednesday, because she meddled in his teenage romance with another girl.

The victim of the shooting Tuesday night by a rifleman who fired from the street through a living room window was Phyliss Olinger, a sophomore at Galesburg High School.

She was struck in the head by a .22 caliber rifle bullet.

Gary Wixforth, a high school junior, was charged with murder.

State's Atty. Don Woolsey said Wixforth gave him a statement in which the youth said he shot Phyliss because she meddled in his romance with another girl and caused its breakup.

Woolsey said he would prosecute Wixforth for premeditated murder. He said the youth loaded the rifle several hours before the girl was shot as she sat alone in her home watching television.

Wixforth, he added, sat in front of the Olinger home for some time waiting for the street to clear before making his attempt on the girl's life.

The wounded girl was found by her mother, Mrs. Robert Olinger, when she returned home about 30 minutes after the shooting.

Phyliss' father is employed by a tire company in Galesburg.

Wixforth told police he had given a ring a week ago to a girl with whom he was going steady. She returned it Tuesday and, Woolsey said, the youth blamed Phyliss for the other girl's action.

Chase To Head Northeast Group

Concord—Harold Chase of Pilger has been elected president of the Northeast Nebraska Experiment Station Association.

Other newly-elected officers include: Honor Oschner, Madison, first vice president; Warren Patefield, Laurel, second vice president; John Kroger Jr., Rosalie, treasurer; and Dale Flowerday, superintendent of the Northeast Station, secretary.

Mrs. Morrison Will Warble At World's Fair

Mrs. Maxine Morrison, wife of Gov. Frank B. Morrison, will sing solo with the Ravenna band during a concert performance at the Seattle World's Fair on Nebraska Day May 25, the Nebraska Day committee reported Wednesday.

A coloratura soprano, Mrs. Morrison made her first solo singing appearance in Greeley, Neb., at the age of 7, and won honors while in high school. She continued voice studies in college and currently directs the choir at St. Paul's Evangelical and Reformed Church in Lincoln.

In a preview of the World's Fair concert, Mrs. Morrison will sing with the Ravenna band at its spring concert in Ravenna May 15.

Former Nebraskans now living in Seattle will operate the Nebraska information booth on the fairgrounds and participate in other activities on Nebraska Day.

Mrs. Lydia Soll, formerly of Aurora but now of Seattle, wrote Maj. Gen. Lyle A. Welch, chairman of the Nebraska Day committee, to volunteer the services of the "Nebraska Club" in Seattle, which has some 150 ex-Nebraskans as members.

Contributions to a fund drive to finance the Nebraska Day activities have reached $1,987, according to James Oliver, Ravenna banker and secretary-treasurer for the Nebraska Day committee. The goal is $10,000.

Soviet Shrugs Off Last-Ditch Appeal

. . . From Kennedy And Macmillan

By TOM OCHILTREE

Geneva (AP)—The Soviet Union Wednesday shrugged off a warning from President Kennedy and Prime Minister Macmillan to accept an enforceable test ban treaty or see new U.S. nuclear blasts in the atmosphere before the month is out.

In an appearance before the 17 nation general disarmament conference, Soviet Deputy Foreign Minister Valerian A. Zorin carefully refrained from committing his government to any positive response.

Zorin Takes Offensive

Instead Zorin went to the diplomatic offensive and assailed as unrealistic and unnecessary the American-British demand for cheat-proof international control arrangements.

"There is no justification whatsoever for the United States to resume tests in the atmosphere," he declared.

Zorin repeated that the Soviet government still believes that existing national instrument systems are adequate to check on test ban violations.

The joint statement Kennedy and Macmillan issued Tuesday was read into the disarmament conference record by American Ambassador Arthur H. Dean.

In a carefully worded speech, Dean defined the differences separating the Russians from the Americans and British. He called on the Kremlin "to show some reasonableness, flexibility and political sense."

Tries To Reassure Soviet

Dean also sought to kill off Moscow's professed fear that the Western powers plan to

VALERIAN ZORIN

pervert international control arrangements to espionage.

Proposed arrangements have been so worked out, he said, that at no time would international personnel be free to move about inside the Soviet Union "except under the most rigidly defined and restricted conditions."

Dean recalled that the Soviet Union broke the old 3-year moratorium on tests by setting off a series of massive explosions last autumn, He said the Russians might "attempt the clandestine violation of a nuclear test ban treaty."

City Hits New Snag

Sudbury, Ont. (AP)—Financial planners have hit a new snag. Girls working in the assessment department demand that the city replace wooden furniture with steel or foot the cost of nylons snagged on the wood.

Court Bars ORCB Strike For 5 Days

Chicago (UPI)—A federal court Wednesday barred for 5 days a strike by the railroad conductors union against the Pullman Company's facilities on railroads operating in the nation's rail hub.

Federal Judge Michael L. Igoe issued a temporary order restraining sleeping and parlor car conductors from walking off their jobs at 6 a.m. Thursday.

The Order of Railway Conductors and Brakemen (ORCB) had called a "progressive strike" against Pullman Co., starting in Chicago, to enforce demands for job protection.

Exhausted

The union, which said it had exhausted the processes of the Railway Labor Act, had ordered the strike extended April 19 to Pullman facilities on railroads operating in the St. Louis area and on April 26 to all other sleeping and parlor car conductors in the nation.

Igoe restrained the union from striking before 4 p.m. Monday after an attorney for the Pullman Co. warned that a walkout would result in a nationwide rail tie-up.

"If this strike is called Thursday morning," attorney Howard P. Robinson said, "not a single train will move out of Chicago and trains across the country will come to a standstill before long."

Irreparable

Robinson sought the restraining order on the grounds that the company would suffer "irreparable damages" as a result of a strike. He said the company would lose $100,000 a day in revenue and 5,000 persons would be thrown out of work.

Union counsel Burke Williamson argued against a court-ordered strike postponement. He said the company had not proved that a strike would be unlawful.

POLICE . . . lower John Leo Ward.

Catch Escaped Mental Patient After Long Siege

Orange, Calif (AP)—An escaped mental patient, brandishing a pistol, Wednesday barricaded himself in his home and withstood a 4½ hour siege by:

Virtually the entire Orange police department of 30 men; two squads of sheriff's deputies; assorted highway patrolmen; two fire companies; a platoon of newspaper reporters and photographers, and television cameramen.

John Leo Ward, 48, ignored tear gas bombs and streams of firehose water, waved his weapon menacingly when anyone approached, shouted dire threats, and finally retired to the attic.

A television cameraman climbed a ladder and chatted amiably with Ward through a thin cloud of tear gas, then shouted:

"He wants to talk to a reporter from the New York Times."

"How about somebody from the Los Angeles Times?" asked Times photographer Al Monteverde. Ward agreed.

Monteverde climbed a ladder, followed by two detectives. He reached out to shake hands with Ward—and pulled him out an attic window far enough for the detectives to grab him.

Ward was taken back to a hospital from which he walked away two weeks ago.

His pistol turned out to be a toy.

17 Pharmacy Students Join Honorary At NU

Seventeen pharmacy students at the University of Nebraska were pledged new members of Gamma Epsilon chapter of Kappa Psi, pharmacy honorary.

They are: Charles G. Adams, Imperial; Gary A. Anderson, Wausa; Gene Cunningham, Fullerton; Gary Evans, Aurora; Larry Forsberg, Kearney; Richard Haase, Dennis J. Jones, Ray Lambert, and Harlan Joe Smith, all of Lincoln; Stephen Hinrichs, Sidney; David Horejsi, Schuyler; Donald D. Hubbard, Allen; Francis Lindell, Murdock; Louis Scholz, Mitchell; Tom Sweet, Clarks; Bob Valdez, Wahoo; and W. H. Webster, Jr., Hastings.

Reds Repeat Claims U.S. Tests Detected

Moscow (UPI) — A Soviet newspaper Wednesday repeated the claim that Soviet seismographs have detected all American nuclear tests—including, apparently, the recent underground tests in Nevada.

Although the newspaper Soviet Russia did not say exactly which tests were detected here, it said that "in one way or another, not a single nuclear blast abroad, whether on ground or underground, has remained secret from Soviet seismologists."

Morris: Difficult To Handle More Inmates At York

The Women's Prison at York is overcrowded now and it would be "difficult" for Nebraska to board any Colorado women prisoners there, State Institutional Director George Morris said Wednesday.

A Colorado legislative committee Tuesday decided to ask if Nebraska could relieve overcrowding in the women's section of the Colorado Penitentiary.

If such a formal request is received here, Morris said it would be given serious consideration. But he noted the York prison is crammed now with 58 inmates. This includes women prisoners from South Dakota and Wyoming.

Morris said his department has plans to expand the capacity at York, but it won't be done for some time.

Colorado sent some women to the York institution several years ago, but then withdrew them. One committee member, Colorado State Senator Rena Mary Taylor of Palisade, had recommended they be returned. She says she understands conditions have improved at York since then.

Disaster Committee Sets Training Meet

The Lancaster County Red Cross Disaster Committee will hold a disaster training session Sunday, May 6 at the chapter house, 1701 E St.

Orientation sessions for various disaster committees are also being planned.

PAKISTAN POLITICS CLIMBING

By HENRY S. BRADSHER

Rawalpindi, Pakistan (AP) — Politics is making a tentative, watch-your-step comeback in Pakistan as the nation moves toward democracy.

Beginning in early June, this nation of more than 95 million persons will once again be governed under a constitution. President Mohammad Ayub Khan promulgated it March 1 to replace severely worded but mildly applied martial law regulations by which he has ruled for 3½ years.

Students in the eastern wing of divided Pakistan have denounced the strong presidential system in the new constitution and demanded more local autonomy. Some urban intellectuals hostilely regard the constitution only as a starting point from which to seek changes.

More Worried

Ayub Khan seems more worried about the welfare of the 85% of the population that is illiterate than he is about the wishes of students and intellectuals. In return, villagers who know little of the world beyond their fields seem generally content to let Ayub Khan do their worrying.

He and Foreign Minister Manzur Qadir, main draftsman of the constitution, say they tried to devise a system that villagers can understand. They also sought a system that could not be dragged down into the corruption of which they accuse the politicians who used to govern Pakistan.

About 100 political leaders from the old regimes have been barred from public life. A handful are in prison. Political parties have been banned by martial law but many lower-ranking former politicians are returning to public life.

Seeking Election

They and a lot of newcomers are seeking election to the 156-member national assembly that will meet in June, when the constitution will come into effect and martial law rule will end.

The assembly will be elected April 28 by 80,000 members of village councils. These councils were chosen in 1960 ostensibly for local government. Later the councils were called upon to ratify Ayub Khan's claim to the presidency. They did it gladly because no one challenges his leadership.

Critics contend the councilmen have more power than they merit. Ayub Khan says direct elections would only allow politicians to pander to the illiterate masses.

Many Rumors

There are many rumors of asembly candidates buying council votes. Ayub Khan says secret balloting will make it useless to try to buy votes.

A strong presidential system is designed to free him from much dependence on the assembly.

The constitution also contains sweeping powers for the president to rule by decree. Ayub Khan, a field marshal, has also provided in the constitution that a military man with a rank of lieutenant general or higher will be in the cabinet for 20 years. The army feels it saved the country from disintegration in 1958 and it doesn't want to take chances in the future.

Public Forum

The assembly will provide a public forum. Members are expected to group together in parties to prepare for new council elections in three years — the first step toward a popular electoral testing of the system Ayub Khan has created.

Big Tourism Meeting

United Nations (AP) — The United States, India, Denmark and Jordan have joined in proposing an international conference on travel and tourism. It is expected to be held in Rome in September, 1963.

Science Honorary Group Honors 44 NU Seniors

Forty-four University of Nebraska seniors will be honored Thursday (April 19) with associate membership to Sigma Xi, ranking national scientific honorary society.

The new associate members will be recognized at the joint Sigma Xi—Phi Beta Kappa honors banquet in the Nebraska Union.

Dr. Theodosius Dobzhansky of Columbia University will speak.

The new associate members and their fields of academic excellence are:

Richard C. Altrock, physics-mathematics, Ralston; John A. Anderson Jr., civil engineering-engineering mechanics, Fairmont; Roy G. Arnold, dairy husbandry, Tekamah; Kenneth P. Bartos, civil engineering-engineering mechanics, Omaha; Carl J. Bern, agricultural engineering—mathematics, Wahoo.

Donald M. Campbell, civil engineering—engineering mechanics, Lincoln; Robert D. Clary, civil engineering—engineering mechanics, Lewellen; Edward C. Collett, electrical engineering—engineering mechanics, York; Larry L. Dornhoff, mathematics—physics, Heartwell.

Raymond R. Eltze, civil engineering—engineering mechanics, Raymond; Jon C. Froemke, mathematics, Sioux Falls, S.D.; Steven J. Gage, mechanical engineering, Lincoln; David B. Gustavson, physics—mathematics, Clay Center, Kan.; Donald L. Hagerman, physics—mathematics, York.

Richard D. Hentzen, agricultural engineering—engineering mechanics, Seward; William E. Holland, civil engineering—engineering mechanics, Overton; Paul H. Koenig, civil engineering—engineering mechanics, Staplehurst; John J. Kucera, electrical engineering—engineering mechanics, Milligan; Ronald H. Kuss, mechanical engineering, Herman; Jerald D. Loseke, animal husbandry, Columbus.

Donald J. McGurk, chemistry—mathematics—physics, Lincoln; Thomas A. Merrick, zoology—physiology—chemistry, Fremont; Calvin M. Mitchell, chemical engineering, Green Forest, Ark.; Alvin L. Nelson, agricultural engineering—engineering mechanics, Sargent.

John E. Oeltjen, animal husbandry, Palmer; Kermit D. Paul, mechanical engineering, Byron; Alan L. Plummer, chemistry—zoology—physiology, Bayard; Frederick R. Rickers, mathematics—physics, Wayne; Karyl K. Rosenberger, zoology—physiology—chemistry, Hemingford; Timothy J. Rutz, zoology—physiology—chemistry—psychology, Kimball; Karen J. Sandstedt, home economics—chemistry, Lincoln; Donald G. Schueler, electrical engineering—mathematics, Harvard.

Lawrence C Smith, chemical engineering—chemistry, Ogallala; Steve J. Somner, zoology—physiology, Lincoln; LaVerne E. Stetson, agricultural engineering, Crawford; Edward M. Steele, agricultural engineering—engineering mechanics, Arnold; Deon D. Stuthman, technical agronomy, West Point; Dean L. Ulrichson, chemical engineering—chemistry, Alma.

James R. Vincent, civil engineering—engineering mechanics, Alvo; Michael R. Voorhies, geology—zoology—physiology, Orchard; Samuel S. Wellman, geology—zoology—physiology, North Platte; Dean A. Whited, technical science in agriculture, Lincoln; Roger G. Williams, chemistry, Johnstown.

Price For Prisoners 'Blackmail'

... Says Beermann

By the Associated Press

Rep. Ralph Beermann of Dakota City Wednesday said Fidel Castro's $62 million price tag for Cuban invasion prisoners "is another attempt at blackmail to extort money out of U.S. citizens."

The time to have best helped the 1,179 prisoners and strike a blow for freedom, Beermann said, was at the "moment of decision by our chief executive on whether to provide the air cover during the invasion."

Beermann said the $62 million would come at a time when Castro may be in a bankrupt position and could possibly save his government from collapsing.

"When we were and are equipped to preserve the way of life in the Western Hemisphere which is the free way of life under our representative republic type of government—it's difficult to understand why anyone wants to support the Communist form of government in this hemisphere.

"There was a moment of decision on Aug. 15, 1961, on whether to stop the construction of the Berlin Wall so that the Communist in East Germany could not see the virtures of freedom in West Berlin."

Beermann, in a prepared statement released in Lincoln, also commented on the $100 million United Nations bond issue.

"With the wrong actions in the Congo by the U.N. with the Berlin Wall and the Cuban situation, just add up the costs required to try to rectify or pay for blunders of the state department and the administration," Beermann said.

LANDMARK IS LOWERED

This is one of 4 state-owned houses east of the State Capitol that is being razed to provide parking space for state cars. The houses are unoccupied. (Star Photo)

REDS BEGIN BUILDUP OF NEXT 'HERO'

Moscow (UPI)—The Soviet Union began a public buildup of its next cosmonaut Wednesday but kept his identity secret as with the two previous spacemen.

Tass news agency printed an interview with a cosmonaut group leader, Col. Evgeny Petrov, in which he described "cosmonaut 3" as "a charming man who sees good in everyone."

Gherman Titov and Yuri Gagarin, the first two Soviet cosmonauts, were not identified until after their space flights, and none of Russia's space trainees have been identified by name.

Pravda, the Communist Party paper, reported the Soviet Union had unexpected trouble with Yuri Gagarin's space capsule shortly before his launching.

The paper published a lengthy article by an unnamed test engineer who said the hatch had to be unbolted after Gagarin was sealed in to fix loose radio connections.

The Soviet press has scoffed at troubles which caused delays in the American space program. This is the first time it admitted any mishap in the Soviet space program.

Crashes Claim 5

Tokyo (UPI)—Five persons were killed and two seriously injured in Japan in 3 separate crashes involving military aircraft.

Frontier Asks Rehearing Of Route Case

Frontier Airlines Wednesday filed a motion for rehering of its northern Nebraska route case before the State Railway Commission.

The commission last week ordered Frontier to resume service over its northern route within 60 days.

The airlines has not flown the segment since last December.

Frontier's two-page document for rehearing cites "errors" which it claims were active in the commission decision.

The action is a form of appeal to the commission to reconsider its order. A later step could involve appeal to the State Supreme Court.

Mayor Boss' Margin Extended To 18 Votes

Humboldt (AP) — Mayor Wilbur J. Boss' one-vote margin over Wes Stansbury in the recent municipal election was expanded to 18 by the tabulation of the absent and disabled voters' ballots.

Of the 27 votes tabulated, Boss got 22 and Stansbury, 5.

Boss will serve his 3rd term as mayor.

March Temps Below Normal

Temperatures in Nebraska during March ranged from a low of 29 degrees below zero at Niobrara to 82 degrees above zero at McCook, the Lincoln Weather Bureau reported in its monthly weather review.

The month generally was cold.

Temperatures at 15 well distributed weather stations averaged 30.6 degrees, or 5.2 degrees below normal.

Precipitation was above normal in much of the state, and the melting of a heavy snow cover in northeastern Nebraska caused flooding late in the month.

Welch Says Saving Lincoln Water Wasn't Only Guard Job

By WILLIAM A. STEPHENS
United Press International

Maj. Gen. Lyle Welch, state adjutant general, said Wednesday that saving Lincoln's water supply was a "prime consideration," but not the sole important reason for halting flood water at Fort Ashland.

In modifying an earlier statement, the general said that he had not meant to say the primary reason for halting flood waters was to protect Lincoln's 33 wells in the area, but that the well field was one of 3 major concerns.

He said these concerns were saving the camp, saving the well field, and preventing the Platte River from cutting a new channel and threatening area railroad bridges.

The general had told United Press International Tuesday that saving the camp was "secondary" and that Guard officials were deeply concerned about the wells.

Verified Danger

Governor Morrison later verified the danger, saying that the flood could have completely ruined all the wells.

He said he saw no reason why the work of the Guard in protecting the wells should not be revealed.

The general also said Wednesday that he felt all along the flood was under control and there was no reason to cause great concern to the people of Lincoln by publicizing the danger to any great extent.

He added, however, that Lincoln officials were on the scene and could evaluate the danger to the wells.

"There was no secret of the conditions," Welch said. "We just didn't publicize them so much because we didn't feel there was any great danger."

'No Pressure'

The general denied that any pressure had been placed on him to de-emphasize the danger to the wells following the flood.

The general was critical Wednesday of what he termed were many persons anxious to criticize any of the Guard's work.

He was primarily critical of questions asked by newsmen concerning why a greater effort wasn't made at Camp Ashland, why the danger to the wells was not publicized, and why certain other units weren't called in to lend support during the flood.

He said the news media had individuals covering meetings in which reports of current conditions were revealed and that they were free to make their own evaluations of the problem areas.

In his earlier statement, the general had said that officials feared the river might break the dike and meander along an entirely new channel south to Salt Creek. If this occurred, he said, most or all of Lincoln's water wells would have been destroyed.

Since the flooding has passed, Governor Morrison has asked the U.S. Corps of Engineers to build a series of piers along the river north of the camp to help cut down the danger of the bank being cut away by erosion.

★ ★ ★ ★

Erickson Says Floods Didn't Threaten City

Public Works Director D. L. Erickson flatly declared Wednesday that neither Lincoln's well field at Ashland nor its water supply was endangered by late March flooding on the Platte River.

A United Press International story that Nebraska National Guardsmen, waging their recent fight to save Camp Ashland, had the more important goal to save the water suupply for the entire city of Lincoln was labeled "completely erroneous" by Erickson.

As to a pollution danger to the city water supply from flood waters, Erickson said the city's water treatment plant at Ashland is "capable of safely treating river water, if necessary."

Erickson said 3 of the city's 33 wells in the Platte River field are located on National Guard property."

"One of these 3 wells is now approximately 12 feet from the river bank because of the erosion of some 200 feet of Guard property by the river during the past two years."

In Some Danger

Erickson said this one well, known as Well 56-4, was in some danger because river erosion of the Guard's property, but the city is constructing an erosion control structure to protect the well in the future.

Erickson said both the National Guard and the city have renewed a request to the Army Corps of Engineers for "construction of a bank stabilization project to prevent further Platte River erosion of the National Guard's Camp Ashland property and the 3 city wells located on Guard property."

He said the Corps is preparing preliminary plans and estimates and a Congressional appropriation is expected to be sought.

Qutstioned about flood danger to the Ashland field, Erickson said the well floors are two feet higher than the highest level of Platte River flooding dating back to 1900.

These two feet were described as a "sufficient safety margin" by another engineer because thousands of acres of farm land would be flooded before that point is reached.

Falls Cityan Gets Pardon From Board

A Falls City man released from the penitentiary 27 years ago after serving less than 3 years on a burglary conviction Wednesday received a full pardon from the State Board of Pardons and Paroles.

The board also commuted and released one inmate and granted immediate paroles to 9 others.

Albert Larimore, 61, was sentenced June 29, 1932, by a Lancaster County District Court to from 4 to 10 years in the State Penitentiary. He was discharged Feb. 13, 1935, and pardoned Wednesday.

Those paroled (including age, home, crime, county where convicted, term and date of sentencing):

LaVern Flood, 29; Alliance; breaking and entering and violation of bench parole; Box Butte; two to 4 years; June 28, 1960.

Carl F. Riley, 33; Ainsworth; 8 consecutive counts of breaking and entering; Cuming; 4 years; April 25, 1960.

Edward Yarber, 38; Omaha; manslaughter; Douglas; 8 years; Jan. 24, 1958.

Newton H. Jones, 46; Omaha; burglary; Douglas; 7 years; Sept. 25, 1958.

Joe Holbert, 38; Omaha; burglary; Douglas; 7 years; Sept. 25, 1958.

Charles P. Graham, 32; Omaha; burglary; Douglas; 4 years; June 9, 1960.

Robert Sherman, 34; Omaha; receiving stolen property; Douglas; 3 years; March 13, 1961.

George Tappan, 30; Lexington; breaking and entering, grand larceny and malicious destruction of property; Kearney; 2½ years; Feb. 28, 1961.

Commuted:

Robert St. Cyr, 29; Winnebago; breaking and entering; Thurston; 5 to 10 years; April 17, 1958.

Stamps Stolen

Stamps worth $10 and $22 in cash were stolen from the office of Dr. James Burlington, 1002 Sharp Building, police reported Wednesday.

Investigation showed that the office had been entered through a door with a faulty lock, police said. The stamps and money were taken from a cashbox that was pried open.

Moslems Virtually Wipe Out OAS Unit

. . . JUST LIKE CUSTER

Algiers (UPI) — Moslem guerrillas tracked down fleeing European Secret Army (OAS) commandos in the Algerian hills virtually wiped them out in a battle that smacked of Custer's last stand, a military report revealed Wednesday.

The report said the battle, the first military-style clash between the OAS and former Moslem rebel units, had been fought near Duperre, in the hills south of Algiers.

The OAS was reported to have lost about 30 men killed and 10 captured in the engagement. The Moslem guerrila casualties were unknown, but indications were they may have lost as many men as the OAS.

New Terror

Details of the clash emerged against a background of new OAS terror attacks against Moslems in Algerian cities.

Scattered violence killed at least 26 persons and wounded 52 others, raising to 3,579 dead and 7,836 injured the casualty toll for the year.

One grenade attack on Moslems in a crowded bone street wounded 22 persons. The Moslems reacted angrily and started to beat up a young European who was passing by. Police stepped in to rescue him.

In another attack revealed Wednesday, the OAS fired 8 mortar bombs into a gendarme camp on the grounds of the Algiers "summer palace," wounding 9 gendarmes.

Most Dramatic

But the most dramatic action in the desperate OAS attempt to upset the Algerian cease-fire came in the armed clash in the mountains between Duperee and Miliana, 80 miles west of Algiers.

In the action that began Monday and reached its peak around dawn Tuesday, OAS commandos were attacked by Moslem guerrillas under command of elements which had fought the French Army in the hills for more than 7 years.

The OAS men were the remnants of an armed group that had captured and briefly held 3 French army posts between Algiers and Oran March 29.

The French army previously had hunted down and captured 87 of the OAS commandos.

As the 50-odd remaining desert-soldiers and uniformed civilians headed for mountain refuge under cover of darkness, they were spotted and tracked by roaming Moslem shepherds and goatherders.

The Arab "bush telegraph" alerted Moslem guerrilla Liberation Army (ALN) units which had been hiding out peacefully in the region since the March 19 French-Moslem rebel cease-fire.

The European commandos reached the comparative safety of the 3,500-foot mountains and the first Moslem shots whined among them, pinning them down.

The OAS returned the fire and because of the sheltered positions, losses on both sides were light in the early exchanges. During the night there was nervous, sporadic firing as the commandos fired at rustling bushes or the rattle of a stone on the mountain slope.

At dawn Tuesday, the main Moslem guerrilla force attacked. From behind the rocks the trapped Europeans fired back with their carefully hoarded ammunition.

The battle was bitter. When the end became obvious a group of commandos made a run for it but apparently only 15 of them got away.

But 10 of these were captured later and anothe4 5 OAS men—one army deserter and 4 civilians in French Army camouflage uniforms—surrendered to French soldiers Wednesday near Affreville.

Police Court Can Handle Drunken Driving Offenses

A first offense drunk driving complaint may properly be filed in a police court and the case can be tried in that court, Atty. Gen. Clarence A. H. Meyer held Wednesday in a written opinion requested by Hall County Atty. Gerald B. Buechler of Grand Island.

But a city attorney of a first class city does not have authority to prosecute the case without first being appointed a deputy county attorney, the opinion said.

Law permits police court handling of cases where the punishment allowable does not exceed a fine of $100 or imprisonment more than 3 months. These are also the maximum penalties for first offense drunk driving.

The law also provides for 6 month revocation of driver licenses of first offense drunk drivers, but Meyer said the courts have held this does not constitute an additional penalty but is only incidental to the conviction, and therefore does not lift the case out of the jurisdiction of the police court.

Red Cross Fund Workers Urged To Keep Trying

Red Cross fund workers in Nebraska were urged to continue their efforts until all quotas are met.

So far, $76,000 of a $250,000 spring campaign goal has been reported.

Ernest Smith of Lincoln, state fund-raising chairman, asked workers to attack their goals in the same manner as Red Cross volunteers during the recent floods.

"Actually," Smith said, "a good portion of the money raised in March campaigns has already been committed back to Nebraska in terms of flood rehabilitation help."

Smith said 5 counties have exceeded their campaign goals. They are Douglas-Sarpy, Lancaster, Butler, Grant and Kimball.

Because of bad weather during much of March, many counties were forced to reschedule campaigns for April and May.

Campaign results to date: Southeastern Nebraska, goal $98,140, raised $24,200; Northeastern Nebraska, goal $49,041, raised $9,500; Central Nebraska, goal $77,724, raised $35,000; Western Nebraska, goal $33,714, raised $8,000.

Senate Unit Told Aid Holding Red Bloc At Bay

Washington (AP) — The Senate Foreign Relations Committee was told Wednesday that the Sino-Soviet bloc has been "held at bay" in the Middle East and South Asia with Western foreign aid as a major factor.

At the same time the U.S. Chamber of Commerce was urging the House Foreign Affairs Committee to make a $1.1 billion cut in President Kennedy's $4.9 billion aid program.

The Senate testimony came from Phillips Talbot, assistant secretary of state for the Asian and Middle East areas.

He said prevention of any notable new gains for the communists "may be attributed mainly to the resolute determination of the countries in the area to maintain their independence."

But he added that aid from this country and its Allies has provided alternatives to the Soviet bloc as a source of "much-needed assistance."

Talbot said the Sino-Soviet coalition "has maintained unrelenting pressure in the area and continues to channel more than 60% of its foreign military and economic aid efforts to countries in the near East and South Asia."

The Chamber spokesman, John O. Teeter, told the House committee the Chamber endorses the principle of foreign aid but feels the administration's program could be improved by economies.

He said $150 million should come out of the military aid request of $1.5 billion, principally through reductions in aid to Western Europe, which, he said, should assume a larger share of its defense costs.

Teeter also urged a cut of $350 million in the requested $1.25 billion for development loans and said loans should be granted only on the basis of sound planning and full justification of their need. He suggested a number of other cuts.

Roy H. Neff, 58, Ex-Omahan, Dies

Omaha (AP) — Funeral services will be held in Scottsdale, Ariz., for Roy H. Neff, 58, who died there Tuesday following a heart attack.

Mr. Neff was secretary of the Omaha School Board from 1944 until 1960 when he retired. Omaha public school officials learned of his death when they called to advise him of the death Tuesday morning of school Supt. Harry Burke.

A wife and daughter survive.

Members Of School Boards Assn. Oppose Any New Federal Ed Aid

St. Louis (AP)—Members of the National School Boards Association went on record Wednesday as flatly opposed to any new federal programs of general aid to education.

They said they want present programs continued, or even increased, but by a margin of nearly two to one they recommended that Congress reject any further proposals for assistance to public elementary and secondary schools.

The House of Representatives is considering such a bill but it has been given little chance of passage.

A nationwide poll of school board members on the question was released at a business meeting. The group's 22nd annual convention opens Thursday.

In the floor discussion that followed release of the poll, Mrs. Ruth Mancuso, school board member from Glassboro, N.J., suggested the results are unrealistic.

"Are we answering this question on the basis of facts and figures and in terms of what we must do to improve education," she asked, "or are we answering on the basis of emotion and fear of federal control?"

Hers was the only voice of dissent.

Earlier Wednesday, Sterling M. McMurrin, U.S. commissioner of education, told the school board members they need not fear that federal control would follow federal aid.

"The government is now investing just under $3 billion a year in education," he said, "and it is doing it without control. We have had some programs going for more than 100 years without control."

Spring Concert

Peru — The Campus High School concert band at Nebraska State Teachers College, Peru, will present its annual spring concert, Monday, April 16, at 8 p.m. in the college auditorium. The band is under the direction of Gilbert E. Wilson.

BOY RECEIVES MEDALS

John A. Sollars Jr., 9, receives the Distinguished Flying Cross and the Air Force Commendation Medal on behalf of his father, the late Lt. Col. John A. Sollars, who died after piloting his disabled jet away from a populated Jap area. Lt. Gen. Troup Miller Jr. presents the medals as the boy's mother and uncle look on at the ceremonies in Montgomery, Ala.

NU Med College Technologist To Receive Honors

Omaha (AP)—A University of Nebraska College of Medicine staff member will be honored Saturday as one of the first 100 registered medical technologists.

She is Mrs. Helen Reihart, research associate in medical microbiology at the university. She was certified as a technologist in 1938 the 91st person to receive certification.

The American Society of Medical Technologists will honor Mrs. Riehart at the dedication of the Board of Registry Building in Muncie, Ind., Saturday.

Dieticians From 4 States Gather

Dieticians from 4 states began arriving in Lincoln Wednesday night for a two-day nutrition conference.

Gov. Frank Morrison will welcome the more than 100 persons from Nebraska, Iowa, Missouri and Kansas. His 9 a.m. speech will be at the Nebraska Center for Continuing Education.

Dr. Frederick J. Stare, director of the school of public health at Harvard University, will be the speaker Thursday at 8 p.m.

Meter Check Slated

The annual inspection of Lincoln taxicab meters will take place April 30, the Nebraska Railway Commission reported Wednesday.

Consumer Hopes Of Buying Cheaper Automobile Next Year Are Dashed

By Ben Phlegar

Detroit (AP)—Consumer hopes of buying a cheaper car next year received a double blow in the last 24 hours.

First, and most far reaching, was the decision by United States Steel, leader of the industry, to raise the price of steel.

Second was the announcement by Ford Motor Co. that it has shelved plans to build a $1,600 car in the United States.

None of the auto companies is commenting officially on the steel move. But it appeared a virtual certainty to industry observers that if steel costs more, cars will cost more.

A standard size car in the popular price class weighs about 3,340 pounds. Slightly more than 60% of this weight is steel, or a little more than one ton per car.

However the auto industry no longer settles for just plain carbon steel. More and more of the specialty steels go into the modern automobile, and these are considerably more costly, up to twice as much as carbon steel.

Included in a 1962 Plymouth V8 for example are 51 pounds of galvanized steel, 23.9 pounds of aluminized steel, 114.7 pounds of various alloy steels and 8.4 pounds of stainless steel.

Automobile manufactures have held their suggested list prices relatively firm for the past 3 model years. The last time there was a steel price boost, an average of $4.25 a ton in 1958, car prices jumped about 2%, or $50, on a $2,500 car.

Even without a steel increase there was no guarantee auto prices would remain unchanged another year. The industry has experienced other rising costs, including its own labor contracts which came at the start of the 1962 model year last fall.

While 1963 model prices may go up, there is no indication of change on the remaining 1962 cars. One reason is that some one million are already built and in inventory. Another is that the auto-makers hedged against a possible summer steel strike by stockpiling much heavier than normal supplies.

Henry Ford II announced his company has decided not to build the subcompact Cardinal in the United States. This is a car of Volkswagen size and was to be priced in the $1,600 range.

Presently the least expensive car built in this country is the Rambler American which carries a suggested price, including federal tax, of $1,846 for a two-door sedan.

Ford said market conditions did not warrant domestic manufacture of a small car. It will be built in Ford plants abroad but there has been no word on import plans, or price.

W.T. GRANT CO. Your Friendly Family Store — 1005 'O' STREET

For The Young Cooks

A statistician tells us that one out of every three brides this season will be a teenager. That means that the majority of brides haven't as yet tried their hand at baking—one of the prerequisites of good homemaking.

This morning we give these young brides an easy recipe for "yeast mix," which may be stored in a cool place, that will be ready when you need it. Also we offer two recipes that will make the young bridegroom certain he has married an angel.

PRUNES AND APRICOTS top a sweet yeast-raised kuchen that can be served the year around.

ONE BATCH OF YEAST-EASY MIX makes 6 dozen rolls, and every dozen can have a different flavor if you use a different filling.

YEAST-EASY MIX

18 cups sifted flour or 14½ cups unsifted flour
½ cup sugar
2 tablespoons salt
1 cup dry milk solids
⅔ cup shortening

Combine flour with sugar, salt and dry milk solids in large container. Stir to mix very well. Cut shortening into about 4 cups of the mixture until like fine meal; add to rest of mixture and mix very well. Store in cool place in tightly covered container. Makes enough for 6 loaves of bread or 6 dozen rolls. For 1 loaf or 1 dozen rolls, use about 3 cups of the mix.

Here is a glamorous fruit-topped kuchen that can be served the year round, because dried or canned fruits are used for the topping. Jam provides additional flavor and sweetness, and makes a beautiful glaze as well.

GLAZED PRUNE-COT KUCHEN

⅓ cup milk
2 tablespoons sugar
½ teaspoon salt
¼ cup (½ stick) butter or margarine
¼ cup very warm water
1 package or cake yeast, active dry or compressed
2 eggs, beaten
2⅓ cups unsifted flour or 3 cups sifted flour (about)
1½ cups cooked or canned apricots (1 No. 14 oz. can)
1½ cups pitted cooked or canned prunes
¼ cup apricot jam
¼ cup water

Scald milk; stir in sugar, salt and margarine; cool to lukewarm. Measure very warm water into large bowl. Sprinkle or crumble in yeast; stir until dissolved. Stir in lukewarm milk mixture, eggs and half the flour; beat 2 minutes at medium speed of electric mixer or 300 vigorous strokes with spoon. Add remaining flour to make soft dough. Turn out onto floured board; knead until smooth and elastic, about 8 minutes. Place in greased bowl, turning to grease all sides. Cover; let rise in warm place, free from draft, until doubled in bulk, about 1 hour.

Meanwhile, drain fruit on paper towels.

Punch dough down; divide in half. Pat out half evenly in greased 9-inch round cake pan. Top with half of fruit arranged in attractive design. eRpeat with second half of dough and fruit, using second pan.

Cover; let rise in warm place, free from draft, until doubled in bulk, about ½ hour. Beat apricot jam and water with fork; brush half over cakes. Bake in moderate oven (350 F.) 35 to 40 minutes, or until done. Remove from oven and brush remaining jam mixture over fruit. Cool in pans on wire racks. Serve warm, with ice cream or whipped cream, custard sauce or old-fashioned vanilla or lemon sauces, if desired; or serve without sauce. Makes 2 cakes, about 8 servings each.

ONE RECIPE, SIX DIFFERENT ROLLS

Tasty Twirl Rolls can have a variety of flavors simply by using different fillings with the basic plain dough. Yeast-Easy Mix, a homemade mix that keeps well in a covered container on a cool pantry shelf, is the basic ingredient. The mix makes enough for 6 dozen rolls, so you can make rolls with a different flavor every time you make up a batch.

TASTY TWIST ROLLS

½ cup very warm water
1 package or cake yeast, active dry or compressed
½ cup lukewarm water
3 cups Yeast-Easy Mix.
1 tablespoon melted butter or margarine
Fillings, below

Measure very warm water into bowl. Sprinkle or crumble in yeast; stir until dissolved. Stir in lukewarm water and half of mix; beat 2 minutes at medium speed of electric mixer, or 300 vigorous strokes with spoon. Stir in remaining mix. Turn out on lightly floured board; knead until smooth and elastic, about 5 minutes. Place in greased bowl, turning to grease all sides. Cover; let rise in warm place, free from draft, until doubled in bulk, about ½ hour.

Punch down dough; turn out on lightly floured board and roll out to rectangle about 12 inches wide and ⅛ inch thick.

To fill, brush with 1 tablespoon melted margarine or butter and sprinkle or spread with any of Fillings below.

Roll up tightly from 12-inch side. Cut into 1-inch slices. Place, cut side down, in greased muffin pans. Cover; let rise in warm place, free from draft, until doubled in bulk, about 30 minutes. Bake in hot oven (400 F.) about 15 to 20 minutes, or until done. Makes 1 dozen rolls.

FILLINGS:

1 cup marmalade or peach preserves
⅔ cup drained canned crushed pineapple combined with ⅓ cup brown sugar and 3 tablespoons softened butter or margarine
1 cup grated sharp Cheddar cheese or Swiss cheese
¼ cup minced parsley and a light sprinkling of garlic salt
2 teaspoons favorite herb: carway seeds, leaf thyme, oregano, mixed fines herbes
¾ cup sugar combined with 1 teaspoon cinnamon and ⅓ cup seedless raisins

Soup And Sandwich Glamour

ASPARAGUS-MIXED NUTS SOUP

In a large saucepan, combine 5 cans (10½ ounces each) condensed cream of asparagus soup, and 5 soup cans milk; stir in 1¼ cups finely chopped mixed nuts (almonds, English walnuts, pecans, peanuts, cashew nuts, etc.) Heat, stirring often, **but do not boil.** Makes 12 servings. Serve with:

EDAM SAGE SPREAD FOR CRACKERS

Cut top from a whole Edam cheese, making design, if desired. Scoop out cheese, leaving a thin shell. Chop finely and mix with 3 ounces cream cheese, 1 teaspoon onion salt, 1 teaspoon ground sage, and ½ cup milk. Pack into Edam shell and chill thoroughly. Arrange on tray with assorted snack crackers. Makes about 2 cups.

Shrimp Salad, Burmese Style

2 pounds raw shrimp
2 cups water
2 teaspoons salt
2 tablespoons instant minced green onion
2 tablespoons water
1 cup diced celery
2 tablespoons fresh lemon or lime juice
¼ teaspoon crushed red pepper
½ teaspoon salt or salt to taste
¼ cup mayonnaise

Shell and devein shrimp. Bring water and salt to boiling point. Add shrimp, cover and cook 5 minutes or until shrimp turns deep pink. Drain, cool and dice. Rehydrate instant minced green onion in the 2 tablespoons water and add along with celery, lemon or lime juice, red pepper, salt and mayonnaise. Toss lightly. Serve on lettuce.

YIELD: 6 servings.

HOT BLACK BEAN CONSOMME

In a large saucepan, blend 3 cans (10½ ounces each) condensed black bean soup, and 3 cans (10½ ounces each) condensed consomme until smooth; gradually add 3 soup cans water and heat thoroughly; add ½ cup orange juice; serve garnished with grated orange rind. Makes 12 servings. With—

PINEAPPLE-CHEESE CRACKERWICHES

Combine 1 cup cottage cheese and ¼ cup pineapple preserves blending well with fork; add ¼ cup chopped nuts and spread on crackers. Makes enough filling for 24 crackerwiches.

CREME OF CHICKEN-AVOCADO SOUP

Cook 1 cup finely chopped celery and ¼ cup finely chopped onion in ¼ cup butter until tender but not browned. Add 4 cans (10½ ounces each) condensed cream of chicken soup. Peel two small ripe avocados; reserve a few slices for garnishing, and mash remaining avocado; blend into soup mixture. Gradually add 4 soup cans milk. Beat with rotary beater until smooth. Heat, but do not boil, stirring occasionally. Garnish with avocado slices. Makes 12 servings. Serve with:

SPICY PEANUT BUTTER CRACK-SNACKS

Gradually add ¾ cup apple butter to ¾ cup peanut butter, blending well with fork. Spread on crackers. Makes enough filling for 24 cracker sandwiches.

CRAB BISQUE

In a large saucepan, blend 4 cans (10½ ounces each) condensed cream of celery soup and 4 soup cans milk; add 2 cans (7 ounces each) crab, drained and flaked. Heat, **but do not boil,** stirring occasionally. Garnish each serving with a pat of butter and a sprinkle of paprika. Makes 12 servings. With it serve:

MIMOSA CRACKER SPREAD

Saute 1 small onion, chopped, and 1 pound chicken livers in ½ cup melted butter or margarine. Cool slightly and grind or chop livers very fine. Mix with drippings. Shape into about 24 small balls and roll in 2 finely chopped, hard-cooked eggs. Chill and serve on bacon flavored crackers.

Happy Talk For Easter Parties

There is bound to be plenty of happy talk at your Easter dinner table if you have ice cream bunnies for dessert. So easy, too—The recipe calls for just a few items — ice cream (two kinds) meringues or sponge shortcakes, and coconut and such—But here is how the bunnies are put together:

CHOCOLATE MARSHMALLOW BUNNY

1 quart chocolate marshmallow nut sundae ice cream
8 sponge shortcakes or meringue shells
1 cup or more green tinted shredded coconut
16 chocolate chips
½ cup (48 count) miniature marshmallows
8 red heart-shaped cinnamon candies

Center shortcake on plate. Put large scoop of ice cream in center of shortcake. If possible, white marshmallow revel should come down center of scoop to form white nose of bunny. Use chocolate chips for eyes, cinnamon candy for nose and pieces of white shredded coconut for whiskers. To make ears, spear three miniature marshmallows on toothpick. Insert ears in place on ice cream. Tint shredded coconut with green food coloring, or purchase colored coconut. Scatter coconut around shortcake to make bunny's nest. Serve immediately.

Officers Wives' Easter Parade

The big attraction on Wednesday at the annual spring luncheon of the Lincoln Air Force Base Officers Wives Club was the modeling of milady's fashions for the coming spring and summer months.

According to feminine logic — as all males should realize — the next best thing to actually buying a new dress or hat, is to look at them, and this harmless hobby was pursued enthusiastically by all present.

Club members modeling the perfect costumes for every occasion are (from the left) Mrs. Louis W. Rase in a silk afternoon frock with a huge fabric rose atop her straw bonnet; Mrs. Ronald L. Harmon, wearing a bright, printed party frock; Mrs. John H. Miller in jeans and a striped shirt — but designed with a flair; Mrs. Hal Bowman in a lace-trimmed peignoir; and Mrs. Donald Luenenberg, ready for the Easter Parade in a cape-jacketed suit and wide-brimmed Breton sailor.

Dear Abby

He'll Ask Who Educated You

Abigail Van Buren

DEAR ABBY: I am a college sophomore and have recently started dating (steady) a college senior. He is a little on the shy side, and when he kissed me for the first time I thought he was kidding. Abby, he doesn't know the first thing about how to kiss a girl. Do you think I should try to teach him, or should I just wait and let him learn by himself?

EXPERIENCED

DEAR EXPERIENCED: Let him learn by himself, unless you are willing to tell him where you became an expert.

DEAR ABBY: I'd like to hire an "unattached" father to watch TV with, and to be a father to my three active children under 15. We have everything money can buy. My husband is his own boss and doesn't work more than two hours a day. He leaves the house at 9 a.m. and never gets home before midnight. He says he loves us, but the makeup on his shirts is not mine.

I've tried everything to bring us closer together. I've seen our minister, a marriage counselor, and even a psychiatrist. They have helped me to bear it, but the situation hasn't improved. My husband just keeps telling me how "wonderful" I am to put up with him. I suppose I should be ashamed to complain because there are worse problems than mine, but I'm feeling blue tonight.

LAST HOPE

DEAR LAST HOPE: Maybe you're too "wonderful." Just "bearing" a situation does not improve it. Something vital is missing at home or your husband wouldn't behave as he does. You can get the facts from your husband. Go after them and try to rebuild your marriage instead of learning how to live with loneliness.

DEAR ABBY: My girl friend (18) and I (19) went to visit her grandmother. It was a 7-hour bus ride. The bus was packed, but we got two seats together. At the first stop a little, silver-haired lady got on. Nobody offered her a seat, so I got up and gave her mine. She was very grateful. She got off when we did, but my girl friend was so mad she gave me my class ring back. She said I was a sap and should have sat there and kept her company. Now my mother isn't as old as this silver-haired lady, but I've had it drilled into me since I was a child to respect age. Do you think my girl should have broken off with me over something like that?

LOST MY GIRL

Dear Lost: I think you are lucky to be rid of her. A girl who would give you the gate for showing courtesy and consideration to an elderly person is not worth worrying about.

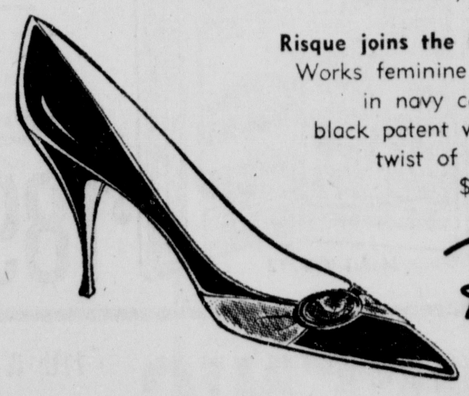
Navy Blooms Anew

Navy's grown up now. It's sophisticated . . . smarter . . . newer every Easter. But its heart is young and gay! That's why we love it. And that's why women of taste wear it. Classic examples: **a.** Franklin's Navy Crepe, 14 to 20, $35.95. **b.** Friedmont Suit, 12 to 20, $65. **c.** Sycamore Coat, 6 to 16, $49.95. All exclusively ours.

Risque joins the Navy! Works feminine wiles in navy calf or black patent with a twist of faille. $13.99



Risqué. Exclusively at Magee's, First Floor

David: Boy, have you got the look!
Doug: What look?
David: The Easter Look!
Doug: I'm projecting my image. Mom says I have a lot of Napoleon in me.
David: Who's Napoleon?
Doug: A konkering hero.
David: How do you get this hero look?
Doug: Easy. Stick your hand inside your coat an swell up your chest.
David: Will it work in a bathing suit?
Doug: Nope. Gotta have Magee's suits and stuff.
David: How's this?
Doug: Real Napoleon!

Will Do 'Til A Better One Comes Along

Maybe it isn't the busiest season Lincoln ever has had, but it will do until a better one comes along. The word is around that it won't be too long until activity really breaks loose, and there are encouraging signs that this rumor might be true — such as the return home of some of the citizenry.

* * *

It would seem that Arizona has been the popular spot for winter relaxing as far as Lincoln vacationists are concerned.

Just home from six weeks in Arizona are Mr. and Mrs. C. Myron Loomis, Mr. and Mrs. C. C. Kimball and Mrs. Floyd Rogers who returned to Lincoln on Tuesday.

The fivesome left on Feb. 28, as did Mr. and Mrs. Walker Battey, for Tucson, Phoenix, and points Arizonian, and after a week or two — or three, in Arizona Mr. and Mrs. Loomis and Mr. and Mrs. Battey went on to La Jolla, Calif. Mr. and Mrs. Battey flew directly back to Lincoln from the west coast, but Mr. and Mrs. Loomis went to Lakewood, Calif., for a visit with their son and daughter-in-law, Mr. and Mrs. Richard Loomis and their children, Julie, Ricky and Linda.

From Lakewood Mr. and Mrs. Loomis retraced their steps to Phoenix and Scottsdale where they again joined Mr. and Mrs. Kimball and Mrs. Rogers for more days in Arizona — and the trip home.

* * *

Speaking of California, as we were a moment ago, brings to mind that Lincoln is to have a guest from San Diego. He is C. Bruce Russell who is arriving on Saturday to spend a week as the guest of Mr. and Mrs. Walton Ferris and Miss Betty Zajicek.

On Sunday evening Miss Zajicek will compliment the visitor when she is an open house hostess at the home of Mr. and Mrs. Ferris. The guests have been invited for between the hours of 6 o'clock and 9 o'clock.

* * *

There is more news in the "honors" department. We hear that at the end of classes on the University of Nebraska campus Mrs. M. C. Minier — known to all Nebraska Phi Gamma Deltas during the past 25 years as "Mom", will be retiring as the Phi Gam house mother.

On May 12 the Phi Gam actives and the alumni will honor Mrs. Minier at their traditional Pig Dinner which will be held at the Nebraska Center for Continuing Education.

* * *

Saturday night is party night for the members of the Merrimyx Club who will be dancing at Hotel Cornhusker. It goes without saying that since this is the pre-Easter season the Easter motif will be much in evidence, but we can tell you that the Merrimyxers have borrowed a shred of a page from the Roaring Twenties — those gay days of the "Bunny Hug." It was a dance, in case you didn't know. But this is 1962 and instead of the Bunny Hug, the Merrimyx Club is having a Bunny Hop.

Incidentally, something new has been added. Breakfast will be served at 12:30 a.m.

Planning the affair is a committee composed of Dr. and Mrs. Kenneth Fijan, chairmen; Mr. and Mrs. Barry Jackman, Mr. and Mrs. Robert Carter, Mr. and Mrs. Luke Bartek, Mr. and Mrs. Len Adams and Mr. and Mrs. Phil Navin.

Guest couples will include Dr. and Mrs. E. F. Mathers, Mr. and Mrs. Russell Eichelberger, Mr. and Mrs. Roland Andersen, Mr. and Mrs. Andy Andros, Mr. and Mrs. Van Ashmun, Mr. and Mrs. Conway Thompson, Mr. and Mrs. Norman Hoelk, Mr. and Mrs. Gerald Schmid and Mr. and Mrs. Lyle Altman of Wilber.

Head Faculty Wives

New fashions and new officers took top billing Wednesday afternoon when the University of Nebraska Faculty Wives and Faculty Wives Newcomers met for luncheon and a style show at the Student Union.

New officiers include (seated, from the left) Mrs. Carl Donaldson, president, and Mrs. Oliver Grace, first vice president; and (standing) Mrs. Robert Stake, treasurer; Mrs. Adrian Legault, third vice president; Mrs. Earl Jenkins, second vice president; and Mrs. Neale Copple, secretary.

FUN NEWS IN SUBURBIA

News from suburbia this morning is filled with birthday celebrations, parties, and newcomers, so without further ado, lets proceed to South Hills and the birthday celebrations—

SOUTH HILLS

South Hills really has been buzzing lately and the news from there seems to be dominated by birthdays. First on the list, is Ruth Larson, daughter of Mr. and Mrs. LeRoy T. Larson who will be five years old on Saturday, but has chosen tomorrow for the celebrating.

Invited for the afternoon of anniversary festivities are Kevin Powell, Joy Stephens, Diane Cottingham, Susan Weber, Mary Bomberger, Jimmy Jensen, Mary Kay and Elizabeth Barager, and Cheryl Keller.

More news from the Larson home brings word that Mrs. Larson's sister, Miss Elvia Werne of Des Moines, Iowa, is expected in Lincoln tomorrow for a visit She will return to Des Moines Monday evening.

Back to the birthday news and we learned of a double birthday celebration yesterday afternoon—that of David and Mary Louise Bomberger, children of Mr. and Mrs. Don L. Bomberger. David marked his seventh birthday on Sunday and Mary Louise observed her fifth anniversary yesterday.

Attending Mary Louise's party yesterday were Mary Kay and Elizabeth Barager, Scott and Jim Jensen, Ruth Larson, Susan Weber, and Cheryl Keller.

Later in the afternoon, David's friends, John Becker, Brad Grell, David Newton, Craig Jensen, Thomas Cleaver, and David Taft, were invited to join the group for a trip to the television studio and the Wayne West Cartoon show.

After the cartoon party, David and his friends returned to the Bomberger home for a picnic supper.

And in the newcomer department we learned that Mr. and Mrs. David P. Weber have a very young newcomer at their house—Master Charles David Weber, who was born at Lincoln General Hospital on Tuesday, April 3. Charles has two older sisters, Susan, who is five and Linda, who will be two in July.

The young gentleman's maternal grandparents are Mr. and Mrs. George Healey, and his paternal grandmother is Mrs. David Weber.

Also new to South Hills are Lt. and Mrs. Douglas Cook who moved to 1730 Connie Road on Thursday, April 5. They formerly resided at 2627 So. 35th. Lt. and Mrs. Cook have a son, John, who is one year old.

And more news this morning from the moving department tells us that the new neighbors at 1755 Burnham are Mr. and Mrs. Donald E. Gould and their four children, who formerly resided at 1444 Nemaha in Indian Village. They moved to South Hills on Monday, April 2.

The four children are Ricky, who is 12 and attends Irving Junior High School; Robby, who is 10 and attends Merle Beattie School, Kathy, 3, and nine month old Susan.

On the social calendar for next week is a pink-and-blue shower at the home of Mrs. Dale R. Stephens, Monday evening, honoring Mrs. Robert J. Cottingham. Co-hostesses will be Mrs. Homer Powell, Mrs. LeRoy Larson, Mrs. Norman Jensen, Mrs. David Barager, and Mrs. Frank D. Sorenson.

Included among the guests at the shower and dessert supper will be Mrs. Carl Phillips, Mrs. Edgar Gates, Mrs. Edward Valenta, Mrs. Richard Wolff, Mrs. Marvin Wulf, Mrs. Walter Wicks, Mrs. Don Leonard, and Mrs. Herbert Wallace.

Wins Annual Award

The Mrs. JayCees, wives of Junior Chamber of Commerce members, honored one of their members Wednesday evening with its annual "Service Award", presented for outstanding service to the club and the community.

The award was presented to Mrs. Herman Hempel (right) by Mrs. Charles Casper, last year's winner.

Plan Spring Breakfast

The spring breakfast of the Nebraska Women's Educational Club will be held at 9 o'clock, Saturday morning, at the Hotel Cornhusker.

Mrs. C. U. Bitner, club president, will conduct the meeting, and guest speaker will be Mrs. T. J. Thompson.

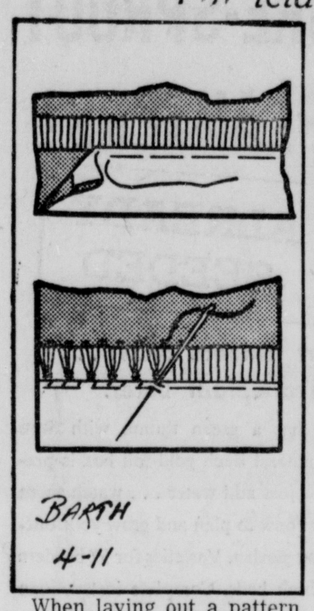
It Seams To Me

Be Slow Careful

Patricia Scott



When laying out a pattern DO IT SLOWLY AND CAREFULLY. This is a time when haste really makes waste. Once you've cut into your fabric, there's no going back, even though you've made an error.

Q. There are two things I'd like to know about laying out a pattern. One, why do some of my pieces turn out off grain even though I've measured each from the center of the grain line marking to the selvage and it looks straight? Second, if it saves yardage, why can't I place pieces along the crosswise grain, instead of with the lengthwise grain as the cutting diagram indicates?—Mrs. B. D.

A. Your pieces are off grain because you're not measuring properly. Measuring from just one point of the grain marking will accomplish nothing. Measure from one end of the line to the selvage. Pin that end in place. Then measure from the other end of the grain line to the selvage and shift the pattern piece until both measurements are the same, and pin the second end in place. Do it this way and you will know your pattern piece is placed properly. For your second question: Don't change cutting diagrams. Patterns have been tested and the companies producing them have decided which way each piece should be cut. The lengthwise grain is stronger and stiffer, and a garment falls more gracefully when the lengthwise grain runs vertically on the body. The material also wears better. You'll find too, that the crosswise grain stretches more than does the lengthwise. However, gathers fall more gracefully when the gathering threads run along the crosswise grain. So do stick to the lay-out on your pattern.

Q. How can I do plain hemstitching? I think it's also called single hemstitching.—Mrs. F. F.

A. First draw out the necessary threads. Turn up the fabric forming a hem and baste it along the line where the thread was drawn (see top illustration). Then, working from left to right on the wrong side of the fabric, put the needle through the hem and take up about four threads on the needle. Pass the needle around the threads, and then through the hem fold again (see bottom illustration).

Q. How much ease is allowed in a pattern? I mean, actual measurements and the finished dress. — Miss S. T.

A. Most pattern companies use 3 to 5 inches at the bust, depending on the garment. For instance, a kimono sleeved bodice often has a 5 inch ease, whereas a sleeveless bodice has about 3 inches. The ease at the hip is usually about 3 inches and the back waist length ¼ to ⅜ of an inch.

New Officers

Mrs. Peggy Walton was elected chairman of the Lincoln Home Economists In Business at the group's breakfast meeting Wednesday morning.

Others named were Mrs. Ross Greenawalt, chairman-elect; Mrs. Jackie Kegley, secretary; Mrs. Fred Guggenmos, III, treasurer; and Miss Bernice Krieger, nominating committee chairman.

The bidding:

South	West	North	East
1 ♠	Pass	1 NT	2 ♦
2 ♥	Pass	Pass	3 ♦
3 ♥	Pass	4 ♥	Pass
Pass	Dble.		

Opening lead—five of hearts.

Call it instinct, or feel, or logic, or what have you, but the fact is that a first-rate declarer usually works out the best line of play even though he lacks the advantage of seeing the opposing hands.

For example, look at this hand where South wound up in four hearts doubled and made it. West made a good choice when he led a trump; otherwise, South would have made the contract easily. East took the ace and returned a trump, taken in dummy.

Declarer led a club to the queen and West made a good play again when he ducked. If he would have taken the ace, South would have made ten tricks without much effort (a spade, a spade ruff, five hearts, a diamond and two clubs).

South was now at the critical point in the play. He realized that if he cashed the ace of spades and then ruffed a spade in dummy, he would inevitably come to a dead end and go down one. He would eventually lose three spade tricks by playing in this fashion.

He also knew by this time approximately how the opponents' cards were divided. East had shown up with the ace of hearts and was marked by the bidding with a long string of diamonds. West had to have the ace of clubs and the missing spade strength for his double. All there remained for South to do was to take advantage of this knowledge.

He first led the ace of diamonds and then the queen of spades. West took the king and returned a diamond.

Declarer ruffed the diamond and then trumped a spade in dummy. Next he led the king of clubs and discarded a spade on it.

West had to take the ace, but was now reduced to an unpleasant choice of returns. He was forced to lead either a club to dummy's jack or a spade to declarer's A-10, and either play was bound to give South his tenth trick.

Win Annual Scholarships

The Delta Delta Delta sorority at the University of Nebraska has announced the winners of the two scholarships presented annually by the sorority to coeds at the university.

Miss Karen Werner of Creston, Iowa, chapter president, has announced that the recipients are Miss Sharon Poppe of Scribner, and Miss Suzanne Moffitt, Lincoln, both Teachers College students.

Argentine Laborites Ready To Strike

Buenos Aires (AP) — Argentina's powerful general confederation of labor called its 3 million members into a state of alert Wednesday night for a possible strike against a government tax and price rise program.

The union leadership warned that drastic economic decrees issued by the government of President Jose Maria Guido "may result in grave social disturbances."

A state of alert, in union language here, means a strike or protest demonstrations could take place at any moment.

Cancellation

Guido, who earlier asked Congress for authority to remain in office until next October, cancelled a full cabinet session to discuss the tax and price measures.

Some military leaders said they were not in complete agreement with the government program that is expected to boost living costs by 10%.

Finance Minister Federico Pinedo hinted that a rise in railway fares would come next in expanding an old austerity program intended to repair damage done to Argentina during the 10-year dictatorship of Juan D. Peron.

Ponder When

Labor leaders discussed when to stage a general strike.

Importers and businessmen were dismayed at Pinedo's orders raising import duties by 20%, increasing the sales tax from 8 to 13%, boosting gasoline prices and suspending imports of automobile parts for Argentine assembly plants.

The Argentine peso was on the skids. Worth 86 to the dollar Thursday, it was quoted at 94.3 pesos to the dollar Wednesday.

It was in this atmosphere that Guido summoned congress to meet Thursday to consider a bill on the presidential succession.

Under present law the somber little lawyer-statesman would have just 30 days to issue a call for a new election and the voting then would have to be held within 90 days.

Guido wants the law amended to give him 180 days to issue the call — and set no period for the actual vote. Congressional approval would mean no election before October, at least.

But the fate of the bill seemed dubious.

The Intransigent Radicals of deposed President Arturo Frondizi still dominate congress. They will remain in command until new opposition deputies — chosen in the March 18 election that showed surprising Peronist strength — are seated May 1.

The Intransigent Radicals have been pressing for Frondizi's release and reinstatement ever since his arrest by the armed forces March 25. It was as president of the senate that Guido, with representatives of the armed forces at his elbow, took the oath as Frondizi's successor two weeks ago.

Mediocrity Plagues German Films

Munich, Germany (AP)—Four European film stars feel that mediocrity lies at the roots of what is generally known as the "German movie crisis". They think they have a way out.

Britain's German-born Lilli Palmer, Austria's O. W. Fischer, and Switzerland's sister-and-brother pair, Maria and Maximilian Schell, have set up a movie company of their own, pledged to use German classical dramas.

The company, similar to Hollywood's original United Artists, has been named Star Allianz. Blonde, blue-eyed Maria Schell initiated the project.

She has picked Friedrich Schiller's "Mary Stuart" as the first undertaking once the company gets down to business. She is slated to play the Scottish queen. Lilli Palmer is to be Queen Elizabeth I of England.

Fischer says Star Allianz is an attempt to escape from the infamy "of modern German movie-making".

"We have to return to the times of the German genius, the classical literature", he states.

Fischer will take the role of Wallenstein in another Schiller drama depicting the life and death of a famed field marshal in Europe's 30 years war, 1618-1648.

Maximilian Schell, winner of the best actor award of the motion picture academy Monday night, has picked Kleist's "The Prince of Homburg" for himself.

"I don't care about money as long as I find an interesting part," Schell says. The German television network got him for a song to play Hamlet. For 8 weeks of work Schell received $1,750.

The first movie is not to be started before early next year. The Star Allianz seeks government subsidies to help "acquaint the interested foreign public with the most valued assets of German culture".

Youth Injured In Knife Attack At Malone Center

Wardell Moore, 17, of 870 No. 26th, was listed in good condition in St. Elizabeth Hospital Wednesday with injuries suffered in an attack with a knife.

Police reported that Moore was assaulted in Malone Community Center by another 17-year-old boy with a 9-inch paring knife. Moore was playing badminton at the time.

Moore received a cut on his forehead and a puncture wound in his abdomen. Seven stitches were required to close the head wound, and two to close the puncture.

Hospital officials said no internal organs seemed to have been harmed.

Moore's assailant pleaded guilty to a charge of assault and battery in County Court Wednesday. Sentencing was deferred pending investigation of the circumstances.

Dr. Cameron Named

Cezanne Paintings Valued At $2 Million Are Recovered From Abandoned Auto

Marseille (AP) — The entire thieves' haul of 8 Paul Cezanne paintings, valued at $2 million, has been recovered from the back seat of an abandoned automobile, police announced Wednesday.

Police had been watching the car — stolen and left in the street with a broken window and false license plates —since Monday night in the hope the thieves would show up.

The paintings had been detached from their frames and rolled up, but were in perfect condition, art experts said.

Presumably the pictures were abandoned because they were too valuable and well known for the thieves to dispose of them.

All 8 were taken in the last and biggest of the thefts in an 18-month series of art robberies in western Europe, especially the Riviera, in which about $7 million worth of treasures disappeared.

Only a small part of the other loot has been recovered.

Because of the series of thefts in 1960-61, museums and collectors the world over took extra measures to tighten security. British author Somerset Maugham sold his entire collection of 35 impressionalist paintings at auction in London Tuesday because of worry over thieves. His collection brought a total of $1,466,640.

Although no arrests were made in connection with the Cezanne case, police said they hoped to identify the burglars soon. There were reports that two men already under arrest in another country were under suspicion.

The Cezannes were taken from the Aix-en-Provence Museum last August by burglars who cut through a window.

HE DID JUST THAT

Dunoon, Scotland (AP)—Laborer Thomas Gow always knew what he was going to do if he won a major prize on the football pools. He would drive to work in a chauffeur-driven limousine and throw up his job.

After winning 2,348 pounds ($6,574) by picking 8 soccer matches that ended in a tie, the 47-year-old Gow did just that.

The limousine, with as many extras as the dealer could put in, cost 1,025 pounds ($2,870). He hired a chauffeur for the day and was driven to work where he told the boss, "I quit."

He is hunting for a new job in his limousine.

PRINCE PHILIP STILL GETS ALONG WITHOUT HORSES

London (AP)—His royal highness, Prince Philip, seems to be a royal fugitive from the horses again.

Prince Philip flew off to Frankfurt, Germany, Wednesday to visit his German relatives, taking along his son, 13-year-old Prince Charles.

His wife, Queen Elizabeth II, packed for a horsey weekend.

As one of his friends once said: "Horses do not enchant Prince Philip."

Horses most definitely do enchant the queen.

Buckingham Palace said the queen would leave Windsor Castle Thursday morning for the annual badminton horse trials.

The spectators talk horse, wear tweeds, ride horses.

Republicans Crank Up Late Show Aimed At 'Pro-Kennedy Propaganda'

Washington (AP) — Republicans cranked up a late, late show in the House Wednesday night — a 10-hour or more talkfest aimed at what they called a blizzard of pro-Kennedy propaganda.

One of the sharpest charges came from Rep. James B. Utt, R-Calif. He said he had evidence of "pro-communist bias" exhibited by Dr. Ralph Bunche, undersecretary of the United States.

The program featured 16 speakers, most of them identified with the most conservative wing of the party.

One, Rep. John Rousselot of California, says he is a member of the John Birch Society. Another John Birch member, Rep. Edgar Hiestand of California, said he intended to speak but was not listed on the program.

Delayed Start

The session got off to a delayed start before about 125 spectators after Democrat Wayne Hays of Ohio demanded a quorum call. This forced House members to troop into the chamber long past usual quitting time.

Utt and other leaders of the project said the Democratic leadership had assured them they planned no harrassment.

But there was nothing to prevent individual Democrats from forcing quorum calls. Indeed, Hays did it again half an hour after the talking started. Again, a quorum straggled in.

The second call came after Rep. W. Pat Jennings, D-Va., unsuccessfully tried to get Utt to yield. After Jennings was rebuffed the fourth times Hays seized the microphone.

Get Consent

Jennings said later he only wanted to get House consent to let all but two of the more than 40 House pages go home.

Hays told newsmen he would keep calling for quorums if the Republicans declined to let the Democrats ask questions.

House Republican leader Charles A. Halleck of Indiana emphasized to reporters that the 16 listed speakers were "a group of individual Republicans speaking for themselves." He said they were not laying down party policy.

Utt also disclaimed any idea of speaking for the party. He said Rep. John W. Byrnes, R-Wis., chairman of the House Republican policy committee, had been listed as a speaker but withdrew because his remarks might be construed as setting policy.

Rep. Bruce Alger, Texas' only Republican, took over for Byrnes. In prepared notes, Alger called the administration's trade program a "real shocker." He said the President was asking Congress for unconstitutional tariff-cutting powers.

DR. RALPH BUNCHE

Utt's speech questioned foreign policy ideas he said have been advanced by administration consultants Walt Rostow and Paul Nitze.

Utt also said United Nations Secretary-General U Thant of Burma "has a strong pro-communist bias," and that Undersecretary Eugeny Kiselev "is a well-known hard-core communist."

He called Bunche the main force in organizing the National Negro Congress in 1936, and said the organization had been cited as subversive and communist.

5 Citations

He listed 5 catations of the organization, no longer active, which he said "are certainly evidence of the pro-communist bias exhibited by Dr. Bunche."

As the evening wore on, the exchanges became more polite. The Republican speakers readily yielded time to Democrats for questions.

NAVY DENIES U.S. SUB SUNK

Washington (AP) — A Navy spokesman denied a rumor that a U.S. submarine had been sunk by a Soviet submarine and that American survivors were in a Tokyo hospital.

Rear Adm. Daniel F. Smith, Navy chief of information, said he had been informed the rumor was current in the area of Santa Barbara, Calif.

"It is not true," Smith told a reporter. "We have all of our submarines. Nobody is being treated in any hospital for injuries in any such attack."

Spies Shift

Vienna (AP) — The Austrian press reports Vienna's spy population has increased considerably since the communists put up the Berlin wall last August. Reason? The wall made East-West movement difficult so spies from both sides were shifted here.

East German Defector Testifies He Got Facts From U.S. Officer

Wiesbaden, Germany (AP) — Wearing a wig and thick glasses for disguise, an East German defector testified Wednesday he received intelligence on Greenland's defenses from an American Air Force officer and that the information was turned over to the Russians.

The witness, a former East German intelligence lieutenant, Guenther Maennel, told the story on the second day of the court martial of Capt. Joseph H. Kauffman. The 43-year-old officer, charged with betraying U.S. defense secrets to the communists, entered a plea of innocent.

Kauffman, a veteran of World War II and Korea, wore 4 rows of service medals, including the Bronze Star, on his uniform as he sat calmly through Maennel's testimony.

Occasionally he smiled as Maennel told of meeting in East Berlin, of secret rendezvous, interrogation by a Soviet intelligence chief and of a song-singing drinking bout with East German undercover agents.

Maennel, who defected to the West in June 1961, said he now was working for the United States. When his present residence, Camp King, was mentioned, he waved his arm and shouted, "I feel threatened." He said he wore his disguise to protect his identity.

Camp King, outside Frankfurt, is a U.S. intelligence center where refugees from the East are housed and fed while they give intelligence officers whatever information they have.

Account

Testifying as the prosecution witness, Maennel gave this account:

He first met Kauffman in an East Berlin elevated train station Sept. 29. Kauffman was taken to a secret villa for questioning by Maennel and a Soviet intelligence officer and gave information on the U.S. radar warning system in Greenland, and on the tactical and personnel strength of the U.S. Air Force base there.

Maennel relayed a report on this to Soviet Col. Vasilij Magachov, described as the liaison officer between the East German political Secret Service and Soviet intelligence. Magachov's task was to step up East German spying in foreign countries—particularly the United States.

Kauffman was kept at the villa for about a day, then told to go back to West Berlin. At a final meeting in a secret East Berlin apartment Kauffman agreed with a handshake to a written statement threatening punishment if he failed to furnish East Germany with secret data on U.S. military bases, military strength and information on air force officers.

Maennel testified that in a drinking bout at an East Berlin bar Kauffman joined in with East German agents and sang "The International," the communist anthem.

The witness added that Kauffman agreed to return to East Berlin next year for instruction in espionage and was told he should try to escape to the East should he ever feel threatened.

Sir Wallington Liked His Wife

London (AP)— Sir Hubert L. Wallington, in his will made public here described his wife as "darling, charming, wise, loving, tender, kind, sweet, helpful, patient, considerate, unselfish, joyfully self-sacrificing, devoted and loyal."

Sir Hubert, a former high court judge who sat in the divorce division, died in January at age 86. He left his beloved lady his entire estate of 12,000 pounds ($33,600.)

Cholera Toll 130

Dacca, East Pakistan (UPI)—At least 130 persons have died of cholera in the Khulna district of East Pakistan, press reports said.

Dr. Paul Schach Named To Association Post

Dr. Paul Schach of the University of Nebraska's Germanic department has been elected chairman of the Medieval Section of the Modern Languagt Association of America for 1962.

Professor Schach is the co-author of a translation of one of the most distinguished of the old Icelandic family sagas. The book, titled Eyrbyggja, was published in 1959 by the University of Nebraska Press.

He has written more than 10 papers which have been read before learned and professional societies and is the author of almost 20 publications.

JFK To Ireland

Dublin (UPI)—Dublin Lord Mayor Robert Briscoe was quoted as saying that President Kennedy has "definitely promised" to visit Ireland at the earliest opportunity.

President Welcomes Shah To Washington

Washington (AP) —President Kennedy welcomed the Shah of Iran to Washington Wednesday with praise for Iran's ability to maintain its national independence "under great challenges."

He said the monarch bears heavy burdens and responsibilities and hailed his 3-day state visit here as "most valuable to the cause of freedom and peace."

The Shah, Mohammed Reza Pahlavi, and the Iranian empress, Farah, were greeted by the President and Mrs. Kennedy at National Airport after a flight from New York, then rode through cheering, flagwaving croweds to Blair House, the nation's official guest residence.

Later the Shah visited Washington's mosque and Islamic center, and accompanied by the empress, placed a wreath on the tomb of the unknowns.

Wednesday night, they attended a state dinner at the White House featuring excerpt dances from Jerome Robbins' Ballets: U.S.A.

The Shah wore a double breasted dark blue suit and coat, matching dress and diamond jewelry at the airport arrival ceremony. It was arrival ceremony. It was held inside a hangar because of rain.

After hearing Kennedy's praise for his nation, the Shah in turn told the President "we are aware that you have assumed responsibilities introducing new ideas which will be of utmost importance for the world."

They inspected an honor guard together, then rode together to the guest house in the President's bubbletop car. The empress and Mrs. Kennedy, conversing in French, followed in a second auto.

WESLEY TANN . . . works on dummy.

Improbable Road; From Farm Boy To Designer

By RALEIGH ALLSBROOK

New York (AP) —Even Horatio Alger would have hesitated to send one of his fictional heroes down the rough and improbable road Wesley Tann has traveled.

From a Negro farm boy in North Carolina, Tann has risen to become a nationally recognized dress designer and manufacturer.

And he has accomplished this at an age when most men are just getting settled in their occupations.

Own Company

The 33-year-old native of Rich Square, N.C., opened his own company only 14 months ago, but already has dresses being sold in some of the nation's leading stores.

A few of these are Neiman-Marcus (Dallas), Evelyn Byrnes (Manhattan), Lord & Taylor (Nationwide), Henri Bendel (Manhattan), Walton Pierce (Grosse Point, Mich) and I. Magnin and Joseph Magnin (California).

Women' Wear Daily, the journal of the garment industry, recently hailed him with a full page layout.

The New York Times also devoted considerable attention to his designs and climb to success. Top stores in New York have displayed his dresses in large advertisements.

Didn't Appeal

Tann's father, John Wesley Tann, Sr., was a farmer on his own plot of ground near Rich Square. Farming, however, did not appeal to young Tann and at 13 he left home and went to Washington.

He tried the YMCA, but became homesick and appealed to Rep. Adam Clayton Powell, New York Negro Congressman, to help him find a place with a more homelike atmosphere.

The Congressman put him in touch with Mr. and Mrs. Bedford Lawson, a husband and wife legal team. The sympathetic Negro couple gave the boy a home and helped him get his education at a Washington High School and Howard University.

Tann finished his studies at Howard at 19 and went to Hartford, Conn. He worked in an aircraft factory and later several dressmaking companies, attending a fashion school at night.

Menial Tasks

His jobs in the dress concerns were menial in the beginning, but, as he recalls, "just enough to whet my appetite and make me know what I wanted to do."

He came to New York in 1953 and worked in numerous dress manufacturing companies. He continued to climb in the business, doing a variety of skilled jobs, but always as the assistant.

"I never could get to be the top man on any of the jobs," he explains. "I was always the assistant to somebody."

But finally he got what he considers his first break and in 1960 became a designer for a firm that made clothes for its own specialty shops.

Sold To Others

The firm allowed him to sell to other companies some of the designs they did not use and this gave him the confidence that led to his establishing his own dressmaking company in February, 1961.

Tann has a small shop with a staff of only 5 employes, but his dresses are expensive and exclusive.

Cottons range from $75 to $450 and evening gowns from $145 up. He emphasizes the "up" in discussing prices.

A bespectacled, easy-going person with a friendly, humorous manner, he finds no particular lesson in his success story.

Too Tired

"All of the offers I've received should have made me very excited," he says, "but I've worked so hard I'm just too darned tired to think much about it."

One Name...One Quality

One flavor . . . unique and memorable. The mellow goodness of OLD FITZGERALD is unvarying. Its prestige unquestioned! In its strength of character you find your Key to Hospitality.

Ambassador Will Speak At NU Alumni College

His excellency Antonio Carrillo-Flores, Mexico's ambassador to the United States, will speak on "International Relations" at the University of Nebraska Alumni College.

The Alumni College, sponsored by the Nebraska Alumni Assn., will be held June 7 and 8 at the Nebraska Center for Continuing Education.

The Mexican ambassador has a long history of government service. He was director general of credit for the Mexican Department of the Treasury from 1941-45; secretary of the treasury, 1952-58; and Mexican delegate to the economic committee of the United Nations General Assembly.

In 1956 he was chairman of the joint meeting of the board of governors of the International Bank for Reconstruction and Development and International Monetary Fund.

He was a speaker on the University of Nebraska campus during the 1960 summer session.

Former Nebraska Governor Robert Crosby and Dr. A. C. Breckenridge, dean of faculties and professor of political science, will discuss "A Citizen's Place in Political Affairs."

"Taxes, Estate Planning and Investments" will be discussed by a panel moderated by Clifford Hicks, chairman of the department of Business Organization. Participants will be Lincoln attorney Thomas M. Davies; Eugene Smith of Omaha, and Howard Chapin III of Lincoln.

Liebsack Selected

Norfolk — Henry Liebsack was named president of a revamped Norfolk City Council. He was elected to another two-year term on the council earlier this month.

NU Dental Students To Be Honored

Senior students in the University of Nebraska College of Dentistry will be honored Monday at the annual honors luncheon sponsored by the Alpha Alpha Chapter of Omicron Kappa Upsilon, National Society for Dentistry.

Awards will be given to those members of the class who have distinguished themselves in some phase of dentistry. The awards will be given by the American Academy of Dental Medicine, the American Society of Dentistry for Children, the American Academy of Oral Roentgenology, and the C. V. Mosby Publishing Co.

The luncheon speaker will be Charles E. Stenicka, Lincoln attorney, who will speak on "Personal Progress."

The luncheon will be held in the Nebraska Union.

Despite Cold March, Job Placements On Rise

Labor market conditions improved in Nebraska during March despite erratic weather, the State Labor Department's division of employment reported Wednesday.

Division employment offices over the state recorded 5,675 placements during the month, 35% more than in February and 20% more than in March of last year.

Placement gains were concentrated for the most part in non-farm work, notably in manufacturing and trade, the division said.

Construction job placements in March, although greater than in February, fell 6% below March volume last year as unsettled weather impeded large scale construction starts.

New, first-time job applications totaled 4,075 in March, compared with 4,138 in February and 4,464 in March of 1961.

Registered job seekers totaled 13,065 persons as of April 1, compared with 13,998 a month earlier and 15,709 a year earlier.

Thirty per cent of the March placements were in temporary jobs, and 75% of the placements involved males.

Unemployment insurance payments from state funds totaled $1,668,075 in March, $1,467,267 in February, and $1,719,667 in March of 1961.

Dr. Calvert Wins

Plainview—Dr. Tom Calvert is on the Board of Education after 3 absentee ballots counted by the canvassing board broke a tie and gave Dr. Calvert a 233 to 230 victory over Norman Fallesen.

York Farm Bureau May Take Lead In Seeking More Commissioners

By TED TURPIN
Outstate Nebraska Bureau

York — Members of the York County Farm Bureau may take the lead in pushing for an increase in the number of York County commissioners.

Dwight Walkup, Farm Bureau spokesman, said his organization hopes to get the issue put on the general election ballot this fall.

York County at present has 3 commissioners. Walkup said the Farm Bureau would like to increase the number to 5, to provide better representation from throughout the county.

"We regret that the number can't be 7," he said, "but 5 would be better than 3."

One result of the change possibly would be election of two commissioners from York. The county seat has more than 6,000 population, about half of the county's total.

The Farm Bureau group reportedly does not advocate a return to the supervisor form of county government, under which each township may have a representative on the county executive board.

At one time York County had such a board—with 20 members.

"You can be sure of one thing," said a former supervisor: "When we took up something, it was well discussed."

Walkup, a former candidate for the state Legislature, said state laws on reorganization of county boards "is pretty vague." He noted that only Sarpy County has taken advantage of the statute allowing an increase from 3 to 5 commissioners.

One York County commissioner continues in office through this fall's election, and two others—Republicans M. J. Ekart and Roscoe Stevens—are seeking re-election.

Walkup said if the 5-member board is approved, the two additions could by law be appointed until the next election.

Band Concert

Omaha (AP)—The U.S. Army Field Band of Washington, D.C., will play a free public concert at Ak-Sar-Ben starting at 3 p.m. Sunday, April 29.

Fine Against Risk Suspended

Dayton, Ohio (AP)—A federal judge has described George Risk of Columbus, Neb., as the "Horatio Alger of his home town" and suspended a $1,500 fine against Risk.

Risk, president of the now-defunct Dale Products Co. of Columbus, was among the defendants in a price-fixing case.

District Judge Carl A. Weinman said that Risk is "a remarkable man who was forced into the price-fixing agreement to keep his company and employment in his community alive."

A $1,500 fine against D. P. Geeding of Dale Products also was suspended but the firm was fined $3,000.

Judge Weinman imposed fines totaling $134,000 against nine individuals and 10 companies. They had been indicted in January by a federal grand jury on 22 counts of violating the Sherman Anti-Trust and Clayton acts.

Senators Told WE Co. Hit Pyramiding Attack

Washington (AP)— Senators were told Wednesday that efforts to eliminate millions of dollars of alleged profit pyramiding on the purchase of Nike missile launcher-loaders ran into a virtual veto by Western Electric Co. in 1954.

Western Electric is the prime contractor responsible for successful development and production of Nikes and their ground support equipment, with Douglas Aircraft Co. as its chief subcontractor.

Retired Lt. Gen. Emerson L. Cummings, former chief of army ordnance, told the Senate investigations subcommittee he had requested authority to buy hundreds of launcher loaders directly from a subcontracting firm which built them. He said this would have avoided the payment of millions of dollars of fees to Western Electric and Douglas, through which the contracts had been awarded.

He never got the authority, Cummings said.

Warned Superiors

Col. John W. Graham, commanding the New York Military Ordnance District which supervises Nike contracts, testified his files reflect that Western Electric warned his superiors that the company would not continue to accept responsibility for the system's success or failure unless it could determine who did the actual production work.

The subcommittee placed in evidence documents from military files declaring that Cummings' proposal was "disapproved by the deputy under-secretary of the army" on March 12, 1954. Subcommittee aides said F. H. Higgins was deputy undersecretary at that time.

Cummings estimated that the rejected procedure could have saved the taxpayers between 20 and 30% of the cost of producing launcher-loaders. He said this would have amounted to something between $6 million and $9 million the first year, plus further savings in subsequent years which he could not estimate.

He said this was because Western Electric and Douglas are "good companies" and it could be expected that, as production of the launcher-loaders increased, their unit price would be reduced.

He said he figured economies would have been possible by competitive negotiation of contracts for actual fabrication of the Nike launcher-loaders. He said the design had been sufficiently stabilized at that time to permit competitive negotiation.

Sen. Edmund S. Muskie, D-Maine, a subcommittee member, said Western Electric apparently had "virtual veto powers."

Finally

The Cummings proposal finally brought authority to negotiate contracts directly—only when this was mutually agreeable to Western Electric and army ordnance, Cummings said.

The subcommittee is investigating what Chairman John L. McCelllan, D-Ark. calls the pyramiding of profits on top of profits as government contracts are passed from contractor to subcontractor.

Donald W. Douglas Jr., president of the Douglas Aircraft Co., disclaimed any implication that the subcommittee staff was trying to do "a hatchet job" on his company.

Couldn't Accept

Douglas said he could not accept the subcommittee's method of figuring Douglas aircraft profits, but he said he did not mean to question the staff's integrity or motives.

He insisted it was a "gross distortion" to say his company made a 44.3% profit on Nike missile work performed mostly by other firms.

Iowa Youth, 19, Killed In Crash

Council Bluffs, Iowa (UPI) —Ronald Ferryman, 19, Carter Lake, Iowa, was killed when his car struck a steel sign post.

Investigating officers said young Ferryman apparently lost control of the car. They said the vehicle skidded 93 feet before striking the sign.

Three other youths in the car were hurt, but none seriously.

Lincoln Foundation Grants Total $16,800

The Lincoln Foundation has approved grants of $16,800 so far this year, according to the foundation's annual report Wednesday.

These included $10,000 for a survey of all rehabilitation services—medical, mental and physical—in Lancaster County to be made by a special team and $5,300 to the Lincoln Community Council to initiate a study of the problem of alcoholism.

Also approved was $7,500 to Malone Community Center for employment of an outside youth worker.

At its annual meeting, the foundation re-elected Al DuTeau president; Robert Guenzel and Harry Simon, vice presidents, Herbert Potter, treasurer, and Mrs. Roscoe Hill, secretary. Other members of the executive committee are John Lawlor, John F. Wells and Wheaton Battey.

Seven directors, whose terms were expiring, were elected to new 3-year terms. They are Frank Williams, Nathan Gold, Harry Simon, John Lawlor, William Aitken, Robert C. Guenzel and R. E. Campbell.

The Lincoln Foundation reported $109,272 in grants or gifts have been made by or through the organization during its 7 years of existence. The foundation's assets now total $147,055.

This 22-foot press permits printing full-size paper.

Wymore Newspaper Moves Step Forward

. . . Joins Offset Publication List

By DEAN TERRILL
Southeast Nebraska Bureau

Wymore — To the average reader, the Wymore Arbor State's issue No. 30, Vol. 81, probably looked little different from some 4,200 other editions published since 1881.

If that assumption is so, editor-publisher Bob Morris can consider it quite a compliment—for his April 5 issue represented a real printing innovation. The weekly thus became Nebraska's first full-size newspaper printed by the offset process.

As the venturesome young newsman explained in his own columns, the new method replaces conventional letterpress printing which depends upon raised type to leave an ink impression on paper. Offset (or lithography) instead imprints through a chemical process causing ink to adhere to "black area" portions of a flat metal plate made from photographing each page layout.

Previous to this step, however, the paper's content is put in column form by machines much like electric typewriters, except they automatically space each line so the margins are even. These are then pasted onto page layouts, along with headlines and advertising, and photographed for chemical transfer to the plates.

"The offset name comes from the fact the plate then 'offsets' its image onto a blanket of rubber," Morris continued. "This in turn prints onto the paper sheets fed through the press."

Two other Nebraska weeklies, The Henderson News and Lincolnland Sun, have also pioneered the process. Both are tabloid size, however, making publication possible with presses considerably smaller than Wymore's 22-foot, automatic-fed Harris machine.

The method is common in job-printing shops in this state and others, where smaller presses are prevalent. Despite a high initial investment, lower production costs have prompted many newspapers in other states to change over.

STAR STAFF PHOTOS
MORRIS . . . with page paste-up.

Beatrice Native

Morris, a Beatrice native with experience on the merged Beatrice Times and

Nebraska News

on Omaha suburban weeklies, is in his 5th year as publisher. His father, Harry, acts as circulation manager.

The Arbor State acquired its name through the admiration of its founder, Col. J. R. Dodd for J. Sterling Morton. The title was changed from The Wymore Democrat, Morris explained after the famous Nebraska Citian established Arbor Day.

Timed with the change in printing, the newspaper is in the process of occupying completely remodeled quarters two doors from its previous location. An open house is being planned, probably in June or July.

"After that first hectic issue," Morris jested, "it may take us that long to get things back in order!"

$1,200 Taken From Clinics

Hastings (AP) — Two medical clinics in Hastings were entered by thieves Tuesday night or early Wednesday and more than $1,200 taken.

Police Chief George Maul said apparently the same persons — and there were indications of more than one person — committed both breakins.

At the Rutt clinic, 4 offices were entered, about $725 taken and some damage done to file cabinets. Maul said this breakin was sometime after midnight since there were persons in the office until that time.

At the Webber Clinic, 5 doctors' offices were entered and $485 taken. The safe in Dr. C. R. Webber's office was forced open, and there was damage to filing cabinets.

Cunningham Asks If U.N. Is Worth While

Washington — Rep. Glenn Cunningham Wednesday questioned the future of the United Nations and U.S. participation in the world organization.

"Too often we vote with the mass of new nations rather than with our reliable and trusted old friends such as Portugal and Belgium," the Second District Republican said.

"But our own interests are not necessarily served by what the majority in the General Assembly wants.

"And the day may come sooner than we think when a decision is made in the General Assembly which we cannot accept. What then? Do we swallow it, or if we cannot, do we pull out?"

CARMICHAEL

Martin Predicts Feed Grains Law Will Be Retained

Washington — Rep. Dave Martin Wednesday predicted that continuation of the present feed grains law "will be the main feature left after the smoke clears away" on farm policy debate.

The new agricultural bill should reach the floor of the House for action within the next few weeks, the Fourth District Republican said.

Martin said he believes the administration's tax revision bill—passed by the House—is "fiscally irresponsible."

"Unless federal spending is curtailed sharply, the debt limit will have to be raised twice more within the next 15 months," he declared.

Commercial Outlet For Corn Checked

The State Department of Agriculture has been asked to investigate 5 means of uncovering large commercial outlets for industrial products manufactured from corn.

The Bjorksten Research Laboratories suggested investigation in these fields:

—Chemical separation of carbohydrate and proteins without milling.

—Processes to obtain products for use as chemical intermediates from the Linn compounds developed by former Nebraskan Dr. Carl B. Linn. These compounds are a combination of carbohydrates such as starch from corn and petroleum derivatives.

—The development of resin forming reactions.

—The possibility of making polymers which could lead to plastic materials.

—The development of products useful in putties, bottle cap linings and similar products.

Water Release Not Necessary For Two Weeks

Omaha (AP) — It will not be necessary to release stored Missouri River water for navigation purposes until late in the month, the Corps of Engineers said.

The monthly report of the Missouri River reservoir control center in the engineers' division office, said the natural flow of receding flood waters will provide adequate navigation depths until that time. As the downstream tributaries subside, Gavins Point reservoir on the Nebraska-South Dakota line will be lowered between 4 and 5 feet to its normal seasonal level to provide a flood control reserve. Gavins Point had been drawn down an additional 2½ feet in anticipation of the snow melt flooding, which raised the pool level 4.6 feet.

The reservoir system gained 1,755,000 acre feet of storage during the month, most of it impounded at Oahe Dam near Pierre, S.D., which still is being filled.

During the flooding no water at all was released from Fort Randall Dam, just below Oahe, for a period of 70 hours and Gavins Point releases, still lower down, were drastically reduced.

The reservoir control center said that through this teamed-up operation of the reservoir the Missouri flows during the flood were completely controlled downstream to Omaha and held to levels only moderately above flood stage on down to Kansas City.

During the first two weeks of the navigation season, operating on so-called free water, commercial freight moved on the Missouri reached an estimated 54,000 tons.

Rural Lancaster Voters Reminded On Registration

The Lincoln League of Women Voters Wednesday reminded rural Lancaster County residents they must be registered in order to vote.

Under a law passed by the 1961 legislature, residents of the county outside of Lincoln must register at the election commissioner's office in Lincoln. This is a pre-requisite for any type of election, the league pointed out.

The registration deadline for the April 24 school district reorganization vote affecting the southern two-thirds of Lancaster County is Friday, April 13. For the May 15 primary election, voters must be registered by 5 p.m. on May 4.

Training School Escapees Caught

North Platte (AP) — Three youths who stole a car and escaped from the Kearney Boys Industrial Training School Wednesday afternoon were arrested by a state safety patrolman near Brady two hours after their escape.

Trooper Bob Holcomb of North Platte identified them as John Almagreer, 17, Omaha; Jessie Galegos, 17, Scottsbluff, and Cecil Jurae, 16, North Platte.

Holcomb said they took a car parked at the school, drove via back roads to Lexington and then headed west on U.S. 30. The trooper stopped the car which had been reported stolen.

The youths were being held at Lincoln County jail for training school authorities.

Here is a practical little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add three. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers left to right. Then read the message the letters under the checked figures gives you. Yesterday's Answer

Sandy Koufax Lifts Dodgers

Los Angeles (AP)—Lefthander Sandy Koufax, usually a bust in April, pitched a 4-hitter and scored his earliest victory ever as the Los Angeles Dodgers defeated Cincinnati, 6-2, Wednesday night.

Koufax who had only one previous April victory in his entire career, was touched for a bloop double by leadoff man Eddie Kasko in the first inning.

After that, Koufax didn't allow a hit until the 9th, when the Reds got both their runs on singles by Vada Pinson and Wally Post, a double by Frank Robinson, and an infield out.

Jim Gilliam, who hit only 4 home runs all last season, drove in the first two Los Angeles runs with a 375-foot homer into the Cincinnati bullpen behind right field in the 3rd inning.

Maury Wills was aboard with a triple.

The Dodgers got two more runs off starter Moe Drabowsky in the same inning, and Duke Snider drove in one of them with a double.

It was the 1,242nd run batted in of Snider's major league career, and it tied him for 9th place with Frank Frisch on the list of all time National League RBI leaders.

Cincinnati	000 000 002	2 4 0
Los Angeles	004 110 00x	6 6 1

Drabowsky, Sisler (5), Miller (8) and Johnson; Koufax and Roseboro. W—Koufax (1-0). L—Drabowsky (0-1).
Home run—Los Angeles, Gilliam (1).

Dead Heat For Second At Fonner

Grand Island—Jockey Ray Correa booted Recommended to victory in the featured 7th race at Fonner Park Wednesday.

Recommended finished two lengths up on Foolem and Circle Bar, who ran a dead heat for the place money.

A heavy rain which began just before the 4th race and didn't let up until after the 6th, made the track sloppy for the feature.

The daily double, coupling odds-on favorite Blue Yield in the first with longshot Dan Common in the second, was worth $55.20.

Wednesday's Results

RUSSELL 7TH

Tom Russell, center on the University of Nebraska basketball team, finished 7th in the nation in field goal percentage, the NCAA basketball statistics bureau said Wednesday.

Russell, a senior, hit 136 of 243 field goal attempts for a .560 average. Ohio State's Jerry Lucas tallied 236 of 388 from the field to lead the nation with a .611 mark.

Bill, Willie Pep Giants By Braves

San Francisco (AP) — Billy O'Dell's 4-hit pitching and Willie Mays' two-run homer carried San Francisco past Milwaukee Wednesday night 3-1 for the Giants' second straight win over the Braves.

The Giants' left-hander gave up a 4th inning home run to Eddie Matthews but never allowed more than one Brave on base in any inning. O'Dell struck out 9.

Mays' first inning blast off starter and loser Carl Willey duplicated Willie's homer Tuesday in the season's opener off Warren Spahn. Each came on the first pitch and carried about 380 feet to left field.

Charlie Hiller was on second base this time after Milwaukee left fielder Howie Bedell dropped his long fly near the foul line.

Jose Pagan gave O'Dell early insurance with a 360-foot homer to left in the second inning, also on a first pitch.

The victory put the Giants in a first place National League tie with newcomer Houston. Each is 2-0.

A crowd of 16,721 watched in warm, windless weather at Candlestick Park as the Giants made the most of 7 hits.

Milwaukee southpaw reliever Bob Hendley walked a man when he came to Willey's rescue in the second, then retired 13 in a row.

Harvey Kuenn finally got a single in the 7th, the first San Francisco safety in 9 and two-thirds innings against Braves' relief pitching

O'Dell was 1-0 against Milwaukee last year. Matthews' 390-foot homer to right was the first hit off O'Dell and was followed one out later by Mack Jones' double off the pitcher's bare hand.

The Braves got only two harmless singles the rest of the way.

Milwaukee	000 100 000	1 4 1
San Francisco	210 000 00x	3 7 1

Willey, Hendley (2), Cloninger (8) and Torre; O'Dell and Bailey. W—O'Dell (1-0). L—Willey (0-1)
Home runs—Milwaukee, Mathews (1). San Francisco, Mays (2), Pagan (1).

GARY THOMPSON QUITS OILERS

Bartlesville, Okla. (AP)—Three members of the Bartlesville AAU basketball team and assistant coach Bob Plump have retired from the squad.

Retiring at the end of the season were Gary Thompson, former Iowa State University basketball player; Tom Robitaille, former Rice institute star, and Al Bunge, ex-University of Maryland player. All 4 men will remain with the Phillips Petroleum Co., sponsor of the team.

Thompson capped his 5-year career with the Bartlesville team by being named the most valuable player in the 1962 National AAU tournament in Denver, which Bartlesville won.

Gridders Butt Heads

Nebraska's gridders returned to heavy contact work Wednesday as coach Bob Devaney sent his charges through the 6th practice session of spring drills.

Devaney also gave his squad a couple of new plays as the new offense continues to take shape. The Huskers continued to work in split shifts.

Missing from Wednesday's workout were Dennis Stuewe and Larry Donovan. Stuewe, a halfback, has been sidelined since the opening day with a pulled leg muscle.

Donovan, a senior end from Scottsbluff, was admitted to Student Health Wednesday with what was believed to be an attack of appendicitis.

Devaney is planning another scrimmage session for Saturday. All practice sessions are open to the public.

NIOBRARA TO OPEN MAY 15

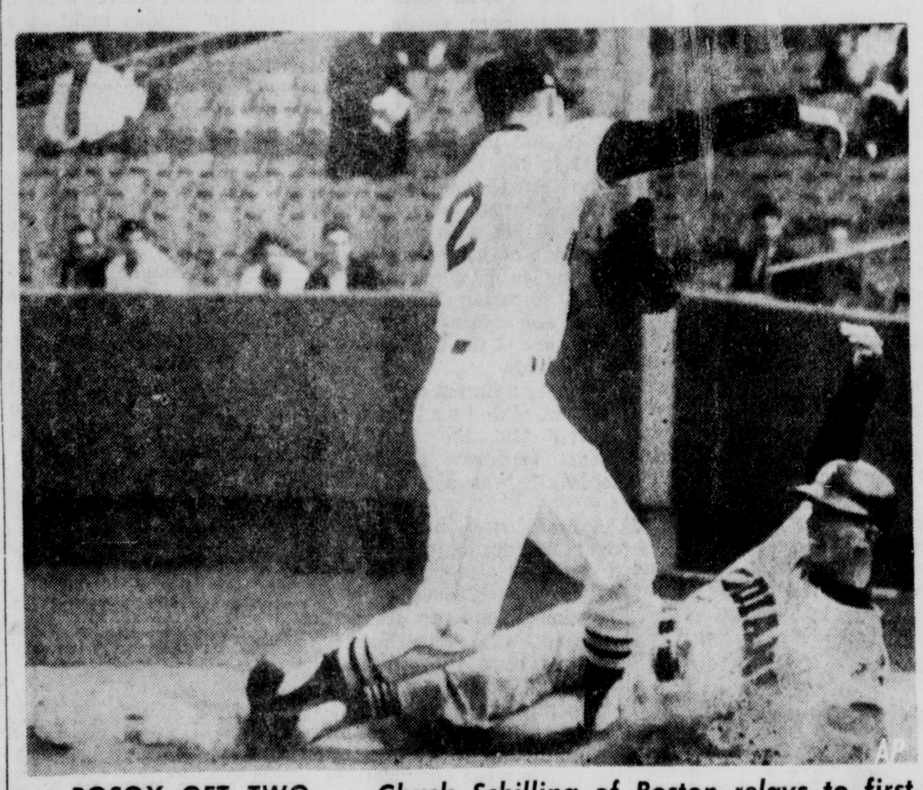
Despite flood damage, Niobrara State park will open as scheduled May 15 barring unforeseen difficulties, the State Game Commission said Wednesday.

All the park area north of Highway 12 was completely flooded and much of the southern area was also under water, Jack Strain, chief of the commission's parks division, said. All buildings in the administrative area were inundated, except the superintendent's residence which was protected by dikes and sandbags.

Extensive water damage occurred to the roads and guest cabins. Because of previous preparations, the equipment in the cabins such as beds, refrigerators and stoves was not damaged.

In the Two Rivers recreation area damage was confined to the loss of the two access bridges on roads to the park. One of these bridges was temporarily repaired by Douglas County officials and entry is possible into the Two Rivers area.

Hardy Breaks Up Game With Grand Slam Homer



BOSOX GET TWO . . . Chuck Schilling of Boston relays to first ahead of slide by Ty Cline of Cleveland as the Red Sox work double play.

Red Sox Take 4-0 Win In 12

. . . MONBOUQUETTE WINS

Boston (AP) —Carroll Hardy broke up a magnificent pitching duel with a grand slam home run in the 12th inning Wednesday for a 4-0 Boston Red Sox victory over the Cleveland Indians.

Hardy, who battled his way into a starting outfield berth this spring, hit rookie Ron Taylor's first pitch into the left field screen with none out in the 3rd extra inning.

Carl Yastrzemski had tripled to open the 12th and Indian manager Mel McGaha chose to have Taylor walk Frank Malzone and Russ Nixon intentionally, filling the bases.

It was the 3rd hit of the game for Hardy, who took over the retired Jackie Jensen's vacated right field post.

And the homer gave Boston its first runs of the season. Cleveland blanked the Sox by the same score in their opener Tuesday.

Right hander Bill Monbouquette went all the way while hurling one of his finest games ever. The 25-year-old Medford, Mass., pitcher allowed only one hit over the first 9 innings and gave up only 4 in all, two of them off the bat of opposing pitcher Taylor.

The 24-year-old Taylor pitched nearly as brilliantly as Monbouquette. Promoted from the Salt Lake City roster only 5 days ago, the University of Toronto student issued 5 hits over the regulation 9 innings and a total of 10.

All 3 of Taylor's bases on balls were intentional.

Neither team managed to get a runner as far as second base until Yastrzemski doubled off the left field wall with one out in the bottom of the 7th.

The Indians didn't see second base until the 12th inning when Chuck Essegian led off with a single, was forced by Willie Kirkland and John Romano drew a walk.

Kirkland moved to 3rd on Woody Held's fielders choice but Monbouquette got out of trouble by getting Bubba Phillips on a fly to center.

Pascual's Curves Stop Athletics For Shutout

Kansas City (AP) — Camilo Pascual baffled the Kansas City Athletics with his curve ball Wednesday night and the Minnesota Twins won their first game of the season with an 8-0 shutout.

The Cuban righthander gave up only 4 hits, 3 of which were stroked by Manny Jimenez, the A's rookie left fielder.

Pascual demonstrated the proper use of the darting curve so well that only 3 balls were hit out of the infield in the first 6 innings. Two of those were Jimenez singles.

The Twins hurler struck out 7, walked one, and nicked one —Haywood Sullivan—with a pitch.

Bob Allison, Dick Rollins and Earl Battey hit home runs for the Twins. Battey's was a two-run shot in the 9th when the Minnesotans scored 4 times off rookie Dan Osinski. Allison and Rollins hit solo shots off Bill Kunkel in the 7th and 8th innings. Kunkel had relieved starter John Wyatt, who pitched 6 innings and was saddled with the loss.

The Twins got single runs in the 3rd, when Lenny Green doubled and eventually scored on Harmon Killebrew's sacrifice fly, and in the 4th on Battey's single and Rollins' triple. The latter tried for an inside the park home run but was thrown out.

The only time the A's hit the ball with any authority was in the 7th inning. Norm Siebern and Jimenez singled with one out. But Pascual struck out Wayne Causey and got Gino Cimoli, who won Tuesday's game with a home run, to ground harmlessly to 3rd.

Colt Pitchers Still Firing Bullets; Cubs Blanked, 2-0

Houston, Tex. (AP) — Hal Smith's two-run single in the first inning made the difference Wednesday night as the Houston Colts blanked the Chicago Cubs 2-0 behind the pitching of Hal Woodeshick and Dick Farrell.

Farrell came in to get the last 3 outs after the Cubs, beaten in Houston's National League debut 11-2, had put two on base in the 9th with none out.

Farrell got pinch batter Bob Will to rap into a doubleplay, then fanned another pinchbatter, Danny Murphy, after Sammy Taylor had walked.

A crowd of 20,336 watched the first major league night game in Texas despite rains that caused a delay of more than an hour while the Cubs were batting in the 4th inning.

Al Spangler singled, and Norm Larker and Jim Pendleton walked, loading the bases in the first, before Smith rapped a single to left for both Houston runs.

Smith, another of the Colts' Pittsburgh castoffs, had homered in Tuesday's opener when two other ex-Pirates, Bobby Shantz, and Roman Mejias, were the stars.

The doubleplay that cut off the Cubs' 9th-inning threat was the 4th of the game for the Colt infield. They also stopped threats in the 4th, 5th and 6th inning.

The loser was Cub ace Glenn Hobbie, who went all the way and allowed but 6 hits. The Cubs got 9 off Woodshick, 3 by Ernie Banks.

George Altman walked leading off the Chicago 9th and took second on a single by Ron Santo. Farrell relieved Woodeshick at that point and put it away for the Colts.

Cards Ruin Mets' Major Loop Debut

St. Louis (AP)—Stan Musial paced a heavy-hitting Cardinal attack with 3 hits and tied Mel Ott's National League record for runs scored Wednesday night as the Redbirds made a disaster of the New York Mets' National League debut, defeating them 11-4.

Righthander Larry Jackson went all the way for the Redbirds giving up 8 hits, including home runs to Gil Hodges, who moved into 11th place in the all-time homer lists with his 362nd, and Charley Neal.

Jackson got more than adequate support from Cardinal batsmen, who hit 4 doubles and 12 singles in chasing across the 11 runs.

One of the 11 runs was Musial's 1,859th, tying Ott's record.

The Redbirds got right down to business scoring two runs in the first inning. Musial got the first RBI of the season, scoring Julian Javier with a bloop single to center. Bill White crossed the plate with the second run as Don Zimmer threw out Ken Boyer.

The Mets tied it up momentarily in the second with Neal singling home Richie Ashburn, who singled and moved up on a walk to Felix Mantilla, who later scored on a sacrifice fly by Frank Thomas.

Five hits netted two runs in the Redbird 3rd with Musial driving in Javier with a double, then scoring on Minnie Minoso's single. They scored 4 more in the 6th when Gene Oliver, Julio Gotay, Jackson and Javier crossed the plate.

The Mets scored single runs in the 4th on Hodges homer and the 5th, when Neal hit one into the bleachers. Jackson settled down after the 6th and held the New Yorkers hitless the rest of the way.

Lincoln Ladies Bowl 972 Game

The Dariels Hair Stylist team, bowling in the Cotner Belles League at Plaza Bowl, rolled a 972 game Wednesday afternoon.

The 972 was the highest game in a women's league since the bowling lanes opened at Plaza. Zelma Lutz led the surge with a 207.

Other members of the team and their games: June Karr 188, Lucille Keill 182, Mary Casey 205, Jean Danzl 190. The team had a 3-game series of 2,587.

CELTS SQUARE SERIES

Los Angeles, (AP) — The Boston Celtics overpowered Los Angeles with their balanced scoring attack Wednesday night and threw the National Basketball Association playoffs into a 2-2 tie by scoring a 115-103 victory before 15,104 fans.

The Celtics led from start to finish. Bill Russell converted a basket and a foul into a 3-0 lead at the outset and Boston never was behind thereafter.

Six Celtics shot in double figures. Russell led the attack with 21, followed by Tom Heinsohn with 19 and Tom Sanders with 18. Bob Cousy hit for 17, Sam Jones 14, and K. C. Jones 12.

Andy Nelson Inks

Baltimore, (AP) — The Baltimore Colts announced Wednesday Andy Nelson has contracted to play his 6th National Football League season.

The 29-year-old Nelson has been a mainstay in the defensive backfield of the Colts since they signed him out of Memphis State in 1957.

Palmer, Finsterwald In Greensboro Open

... RICHEST MEET IN 'TAR HEEL' HISTORY

Greensboro, N.C. (AP)—Headed by Masters playoff rivals Arnold Palmer and Dow Finsterwald, the $35,000 Greater Greensboro Open, richest golf tournament ever held in North Carolina, opens today with a field of about 120.

The 4-day, 72-hole go offers a $5,300 purse to the winner of its 23rd staging, although the event is being billed as the Silver Anniversary renewal in view of its 1938 start. Two World War II years were skipped.

Gary Player, 3rd member of the Masters playoff earlier in the week, passed up the tournament to return to his home in South Africa where his wife is expecting their 3rd child.

The pyrse, $12,500 more than last year's, has attracted the finest field a GGO has boasted in several years.

Eleven of the top 17 money winners of the year and 24 of the 40 leaders are here. Seven of the top 10 in the modern era, the 15-year period dating back to 1947, are here to match birdies and pars over the par 71 Sedgefield Country Club course which can be lengthened to about 7,000 yards.

Mike Souchak is defending champion in a field that includes 5 other former winners, headed by 7-time champ Sam Snead. Finsterwald, Bob Goalby, Stan Leonard and Doug Ford are the others.

Other name swingers entered include Doug Sanders, Bill Casper, Phil Rodgers, Jack Nicklaus, Bobby Nichols, Joe Campell, Julius Boros, Art Wall, George Bayer, Lionel Hebert, Kel Nagel, Dave Marr, Billy Maxwell, Charlie Sifford and Mason Rudolph.

Snead's game appears ready for another high money finish here off what he showed in the Masters where he tied for 15th place and was 3 over par for 72 holes.

Sam has 7 seconds and 3rds in addition to his 7 victories here. He won the 1938 inaugural and made it No. 7 two years ago. Last spring he was runnerup to Souchak.

PERU ROMPS TO TWINBILL WINS BY 8-5, 22-10

Peru—Peru romped to wins in both ends of a doubleheader, downing St. Benedict's of Kansas by 8-5 and 22-10 scores Wednesday afternoon.

Roger Smith's home run paced the Peru attack in the first game. The second game was called after 5 innings when Peru held a 22-10 lead.

Peru got homers from Edwards, Gilson and Ohnoutka while McLaughlin homered for the losers in the second game. The two wins gave Peru a 5-3 record with a doubleheader against Nebraska Wesleyan slated for the Bobcats diamond Friday.

Cincinnati Council Asks For Renewal

Cincinnati (AP) —City Council asked Wednesday for renewal of a 5-year agreement with the Cincinnati Reds to keep the baseball team in Cincinnati.

The city joined Hamilton County in 1958 in an agreement to spend $2 million for off-street parking around the team's Crosley Field home stadium.

That agreement is due to run out at the end of the just-begun major league season. The city program added 2,600 parking spaces for fan's autos.

—ASSOCIATED PRESS SAYS—

Warriors Set To Move West Within 2 Weeks

Philadelphia (AP) — Unless owner Eddie Gottlieb has a change of heart within the next two weeks the Philadelphia Warriors of the National Basketball Association are going to San Francisco.

Gottlieb verbally has agreed to sell the club, The Associated Press learned Wednesday. Although he still could have a change of heart, it is doubtful.

A reliable source also told the AP that even if the Warriors are sold and moved to the West Coast, Gottlieb still will be in business here, either this year or next with an NBA franchise.

Gottlieb has been offered $850,000 for the Philadelphia franchise by Bernard Solomon, spokesman for a West Coast syndicate.

Although the sources wouldn't elaborate on Gottlieb remaining in business, it has been reported the Syracuse Nationals may be switched to Philadelphia. Despite the fact Gottlieb faces a losing season financially this year, Philadelphia is considered a strong spot for the NBA.

Probably, if Gottlieb wasn't strangled by the huge yearly salary he pays Wilt Chamberlain, the Warriors would have been in the black this season, helped by the playoff gates of the Syracuse and Boston series.

Within the league, the thinking is to transfer Cincinnati to the Eastern division with San Francisco, of course, in the West. Should the Royals sign Jerry Lucas to go allong with Oscar Robertson and Co., it would strengthen the Eastern division, setting up a more intense rivalry with the Boston Celtics. Also with clubs in Los Angeles and San Francisco it would set up more profitable trips for the other teams.

The only chance Gottlieb may change his mind is one of sentimentality. He was enthused by his team's 7-game effort to dethrone Boston in the Eastern finals. Had the Warriors won and gone on to beat Los Angeles for the title, it is extremely doubtful Gottlieb would have parted with a champion. But they didn't, and it appears good business sense will overcome sentiment.

Most of Gottlieb's associates are encouraging the portly owner to sell.

Shed No Tears For Powell

Baltimore (AP) — Shed no tears for John (Boog) Powell, the huge rookie outfielder of the Baltimore Orioles.

The 6-foot-4, 240-pounder, who won the left field job with his booming bat in spring training, struck out 3 times and popped to the infield in his 1962 debut.

But Powell had sympathizers. After all, here was 20-year-old kid with experience in only 4 major league games playing in his first opener — in imposing Yankee Stadium and against Whitey Ford, one of the best pitchers in baseball.

"Under different circumstances, I'd feel better," Powell told the Baltimore sports reporters association today. "I was a little nervous."

Powell, who has batted over .300 during each of his 3 minor league seasons, batted 1.000 Wednesday in a question-and-answer session.

Asked what the Yankee pitchers were throwing him yesterday, Powell grinned sheepishly and replied succintly: "Baseballs."

"They threw everything," the rookie went on. "Nothing special. I just wasn't hitting anything."

Manager Billy Hitchcock, himself a rookie as a major league shipper, came to the defense of Powell.

"Boog has a lot of determination," Hitchcock said. "He'll bounce back and be all right after he gets a few games under his belt. He was just trying too hard."

Powell, along with Jim Gentile and Gus Triandos, is expected to supply the bulk of the home run power for the Orioles in 1962.

But the only homer hit by a Baltimore player in the opener came off the bat of Johnny Temple.

Rocket Reserves Win

Lincoln Northeast's reserve track team downed Southeast 67-51 in a dual Wednesday afternoon.

Northeast's Tom James had the day's best time when he won the mile in 4:59.2.

Results:

INJURED BOXER DISPLAYS SOME IMPROVEMENT

Bluefield, W. Va. (AP)—Heavyweight boxer Tunney Hunsaker, 32, was able to speak Wednesday as he continued to show extremely slow improvement, Dr. E. L. Gage reported.

The fighter received a brain injury last Friday night in a fight with Joe Shelton of Cleveland at Beckley. He underwent two brain operations over the weekend.

Hunsaker was taken off the critical list Tuesday.

"He has eaten food fairly well," Dr. Gage said, and "is answering 'yes' or 'no' to questions."

Hunsaker could "Move a little more on command," The doctor said.

Until Wednesday, the boxer's only word was "Hi" to his wife as he was wheeled out of surgery at Bluefield Sanitarium after the second operation.

Husker Netters Swamp Bluejays

Nebraska swept 6 singles and 3 doubles tennis matches against Creighton University Wednesday in Lincoln.

Dick Gibson defeated Jay Wu 6-3, 6-2; Dave Wohlfarth defeated Tom Stabile 6-1, 6-1; Jim Fowler defeated John Easley 7-5, 8-10, 6-4; Rich Hardley defeated Terry Tonkin 6-1, 6-2; Russ Dobb defeated Jim Manion 6-0, 6-1; Dick Woods defeated Dave Little 6-0, 6-0; Gibson and Wolfarth defeated Stabile and Easley 6-0, 6-2; Fowler and Harley defeated Wu and Tonkin 4-6, 6-1, 6-0; Dobb and Woods defeated Little and Manion 6-1, 6-0.

Iowa State Is First Entry In Drake Relays

Des Moines (UPI)—Iowa State Wednesday became the first university class team to file an official entry for the 53rd Drake Relays to be run here April 27-28, director Bob Karnes announced.

It will be the final appearance at the Drake classic for Burl Berry who has resigned as Cyclone track coach after serving since 1950.

Windhorst Hurls Disc 147-10 At Hebron Meet

TEAM STANDINGS

Hebron	75 5/6
Aurora	68 1/12
Deshler	36
York	34 5/12
Seward	33 1/3
Wymore	32 2/3
Crete	31
Central City	22 1/3
Geneva	1/3

Hebron — Big Roy Windhorst of Deshler whirled the discus 147-10 to highlight the 3rd annual Hebron Twilight Relays Wednesday night.

Windhorst, the defending state discus champion, broke the relays record by 11 feet with the mighty throw, which was good for 5th place in the state prep discus charts.

The Deshler strongman also copped the shotput crown with a one inch victory over Don Vyhnalek of Crete.

Rain, which started early and shortened many of the field events, kept most records intact.

Hebron repeated as team champion, nipping runnerup Aurora by 7 points.

Field Events

Shot—1. Windhorst, Deshler, 49-3½; 2. Vyhnalek, Crete, 49-2½; 3. Snyder, Wymore, 46-6¾.

Discus—1. Windhorst, Deshler, 147-10; (Record breaking old mark of 136-11½ set by Strait, Concordia, 1960); 2. Faeh, Central City, 132-3½; 3. Snyder, Wymore, 128-10½.

Pole Vault—1. (Tie) George, Aurora; Kassebaum, Hebron; Werner, Hebron; Stoehr, York, 10-3.

High Jump—1, (tie) Stoehr, York; Welch, York; Marshall, Wymore, 5-2½.

Broad jump—1, Marshall, Wymore, 19-8¾; 2. McGuire, Wymore, 18-11; 3. Berthold, Aurora, 18-10½.

Relays

Shuttle high hurdles—1. Aurora (Berthold, Sands, Hansen, Collingham), 40.2; 2. Hebron, 41.0; 3. Seward, 41.3; 4. York, 42.5.

Two Mile—1. Aurora (Palmberg, Higby, Thompson, Menke), 8:50.1; 2. Crete, 8:53.1; 3. Central City, 9:14.7; 4. Seward, 9:15.7.

Sprint Medley—1. Seward, (Beckler, Mumm, Rhodes, Reiling), 3:52.4; 2, Deshler, 3:55; 3. Hebron, 3:58.2; 4. Central City, 4:00.5; 5. Aurora, 4:05.5.

Mile Relay—1. Aurora (Nelson, Palmberg, Aalborg, Berthold), 3:48.3; 2. Hebron, 3:51.4; 3. Deshler, 3:51.9; 4. Seward, 3:54.3; 5. Crete, 3:55.1.

Lucas Confers

Columbus, Ohio (AP) — All-America Jerry Lucas conferred Wednesday with George Steinbrenner, president of the Cleveland Pipers of the American Basketball League, but said afterward no decisions were made.

The Ohio State star told newsmen: "We just got acquainted and talked things over." Steinbrenner was not available for comment.

Lucas, also being sought by the Cincinnati Royals of the National Basketball Association, said earlier that he does not want to play professional ball but at the same time left the door open for an offer.

Majors' Best Bets For 1962

. . . 'THE' BEST BET—'DON'T BET THE GROCERY MONEY'

New York (UPI) — Baseball's best bets for 1962:

The pennants — the New York Yankees, the club with the fewest question-marks, on their blasting power and bench strength; the Los Angeles Dodgers by a nose in a 5-team National League scuffle.

Batting champions — Vada Pinson of Cincinnati, a speedster not afflicted with home run fever, goes to the top in the national, edging Hank Aaron of the Milwaukee Braves; Elston Howard of the Yankees is convinced he can do it in the American League.

Home-runs—Mickey Mantle edges Yankee teammate Roger Maris on the theory Mickey will encounter less pressure in the early weeks; Orlando Cepeda of the Giants, the NL's top candidate to make a run at Babe Ruth's 154-game record.

Pitchers—you have to go with Warren Spahn of the Braves until he begins to act his over-40 years; durable Frank Lary of the Detroit Tigers in the American.

Best relievers—Stu Miller, the giant junk-baller, figures to retain his honors; Ditto Luis Arroyo of the Yankees, though Luis may not match his 15-5 record of last year.

Comeback of the year—a couple of pitchers could figure here: Early Wynn of the Chicago White Sox, hit by a sore arm in mid-1961, and Ernie Broglio of the St. Louis Cardinals, who skidded from 21 victories in '60 to only 9 last year.

Top Rookies—John (Boog) Powell, Baltimore left-fielder, rates plenty of raves on his training camp showing and could beat out Yankee shortstop hopeful Tom Tresh; Ken Hubbs, Cubs second baseman, was another spring dazzler and gets a vote as the NL's candidate.

Manager of the hottest spot Walt Alston of the Dodgers, who must be used to it by now.

Most base hits—Vada Pinson of the Reds and Al Kaline of the Tigers.

Most total bases—two guys who usually hit for high average as well as distance—Mickey Mantle of the Yankees and Hank Aaron of the Braves.

Best pinch-hitters — Jerry Lynch of the Reds, regarded as baseball's peerless pincher, and John Blanchard of the Yankees, a long ball belter.

Stolen bases—Maury Wills of the Dodgers and Luis Aparicio of the White Sox, a couple of throwbacks to the days when stealing was a major art.

Cellar dwellers — Washington is nominated again and, in the newly expanded National League, Houston generally is consigned to the 10th slot.

Toughest jobs ahead—Cincinnati retaining its NL pennant, Roger Maris making a good home run showing, Norm Cash of the Tigers defending his batting title, Casey Stengel trying to regain his sanity while managing the makeshift Mets, all hands when the wind is blowing at San Francisco's Candlestick park.

Most valuable players — Mickey Mantle of the Yankees and a flier on Orlando Cepeda of the Giants.

Best bet of all—don't bet the grocery money unless pop owns the store.

PRAVDA LAUDS U.S. SKATERS FOR TWISTING

Kiev, Soviet Union (AP)—The newspaper, Pravda of the Ukraine, praised the two United States figure skaters who brought the twist to the Soviet Union.

The praise went to Peter Kollen of Ann Arbor, Mich., and Dorothy Ann Nelson of Chicago, who have just completed a 3-day exhibition here. Also in the party are Judianne and Jerry Fotheringill of Tacoma, Wash., and Vicky Fisher of Minneapolis.

Miss Nelson and Kollen first combined in a twist number in Moscow last week. The spectators at the ice-show there loved it. The two visitors made it a part of their routine here and Pravda, although it did not mention the number specifically, said that the 12,000-seat arena here was filled everyday to see them.

Soviet officials have made no complaint about the twist although official propaganda organs have labelled the current dance craze a decadent expression of the West.

Palmer Determined In Bid To Get Grand Slam

Augusta, Ga. (AP)— Arnold Palmer, winner of his 3rd Masters golf crown in 5 years, said he still is determined to score a professional Grand Slam paralleling the 1930 amateur feat of Bob Jones.

"As long as I'm playing golf, I'll be shooting for it," the rugged young professional from Latrobe, Pa., said. "It's foremost in my mind."

The professional slam to which Palmer refers consists of the Masters, the U.S. and British Opens and the U.S. PGA. No man has ever won all 4 although Hogan won the first 3 in 1953, skipping the PGA.

Jones' Grand Slam in 1930 consisted of the U.S. Amateur and Open championships and the British Amateur and Open championships.

"I honestly believe the professional slam is tougher," Palmer said. "Competition is much tougher today than it was back in the 1920s and 1930s — even Mr. Jones says so."

The next leg of the professional slam is the U.S. Open at Oakmont, Pa., June 14-16. The British Open, in which Palmer is the defending champion, is at Troon, Scotland, July 9-14. The PGA is set for July 19-22 at Newtown Square, Pa., near Philadelphia.

"I definitely hope to play in these tournaments," Palmer said. "As for the others on the tour, I'm not sure. I will pace myself with the hope of being at my peak in the big events."

His next start will be in the Greensboro (N.C.) Open this weekend. Prior to the U.S. Open, he may play in only a trio of events — the Colonial Invitation at Fort Worth, Tex, May 10-13; The Memphis Open May 31-June 3, and the Upper Montclair, N.J. $100,000 event June 7-10.

"I like to get some rest between tournaments so that I don't get dull," the Masters champion said. "Therefore, I have to skip some good tournaments. I want to play Oakmont quite a bit in order to get familiar with the course."

Casey Sticks To N.Y.

New York (UPI)—Casey Stengel is the only man to be affiliated with all 4 of New York's modern baseball teams—as player with the Dodgers and Giants, manager of the Dodgers and Yankees and now manager of the new Mets of the National League.

TV Cops Closing Up Shop; Did They Catch All The Crooks?

By JOSEPH FINNIGAN

Hollywood (UPI) — They must have caught all the crooks on television because cops are starting to close up shop.

Detectives have long been one of television's staples. If you weren't looking at cowboys, chances are you were watching slick young men chasing down thugs.

Most video detective shows are similar in format, the variance seeming to be whether or not a leading character has some unique characteristic, like a beard.

Three Guys

Usually there are 3 fellows, the suave, sophisticated private eye, a wise assistant and a baby faced youngster learning how to arrest people.

For years, these hearties have sleuthed around the nation's television sets, sometimes posing as insurance agents, lawyers, scholars, even newspapermen.

It's nice to think of newspapermen as trench coated chaps who smoke pipes and solve crimes, but it just isn't so. We tried it once and the bandit got away scot free.

Peddling

As for insurance agents, they can't possibly halt real life crime waves. They're too busy ringing doorbells peddling life insurance.

Teachers are even less likely cops. Getting one out of a classroom is tough enough without expecting him to chase dope peddlers after Parent-Teacher Association meetings.

Ax wielding network executives have chopped away at next season's schedule, leaving in their wake at least 5 dead detective shows and 4 seriously injured.

The Losers

NBC is losing "87th Precinct," Robert Taylor's "Detectives," "Cain's 100" and "Thriller," a mystery-crime show. CBS brass have said goodbye to "The Investigators" and ABC let "Surfside 6" go out.

Nursing wounds are "The New Breed," "Target, The Corruptors" and "Checkmate." It's possible that these shows might survive.

With the departure of many detectives comes an increase in medical shows ala "Ben Casey" and "Dr. Kildare."

That seems only fair. After all the shooting that's been going on, somebody's needed to patch up wounds.

Main Feature Clock

Daley Is Jolted

...By Primary Results

REP. SIDNEY R. YATES

Sen. Dirksen

Chicago (UPI) — Illinois primary returns Wednesday jolted the Democratic powerhouse of Chicago Mayor Richard J. Daley and boosted the home - state stock of Senate Republican leader Everett M. Dirksen.

Rep. Sidney R. Yates, handpicked protege of Daley, and Dirksen, smooth-talking orator of Capitol Hill, both coasted to easy, anticipated senaatorial nominations in Tuesday's first-of-the-year primary.

But Yates' showing in the first step of his drive to unseat Dirksen was tarnished by a political maverick who emerged from an unbroken string of 20 losing political battles to cut deeply into the congressman's vote.

The Daley organization, often tabbed the last of the old-style political machines, suffered a bitter defeat by voters who turned down $66 million in bond issues for pet rebuilding projects planned by the Illinois Democratic kingpin.

It was Daley's worst setback in years.

The titular head of Illinois Republicans also suffered a setback in his efforts to firm up his control of the GOP state party organization.

Secretary of State Charles F. Carpenter, only Republican to win a statehouse office in the Democratic landslide of 1960, saw his choice for state treasurer, State Rep. Walter Reum, go down to defeat in the primary's closest race.

The political maverick who embarrassed the state Democratic organization — and Yates — is Lar Daly, who often campaigns in an Uncle Sam suit and whose middle name is legally "America First."

Daly took more than 25% of the vote in the Democratic primary, most of it in Chicago.

Returns from 10,103 of 10,344 precinrts gave Yates 694,839 and Daly 216,941. Dirksen breezed to victory over Chicago attorney Harland D. Jones, a political unknown, 716,651 to 107,262.

Commencement Comes In April At Wayne State

Wayne (AP) — Caps and gowns will make their appearance at Wayne State College in a few days.

Commencement this year will be April 19 as a result of Wayne's new trimester program which compresses what formerly was 18 weeks of work into 15 weeks. Thus graduation will come 6 weeks earlier than formerly.

A new term begins April 23 with another commencement ceremony at the close, Aug. 4.

The April graduation roster includes 162 candidates for bachelor's degrees and 6 for degrees of master of science in education. Commencement speaker will be President John R. Emens of Ball State College, Muncie, Ind.

Gothenburg Issue OKd By Both City, School District

Gothenburg (AP) — Both city and school district voters have approved a $374,000 bond issue for a new community building for joint use.

School district votes, counted Wednesday, gave the bond issue a 687 to 380 margin, a majority of slightly over 64%. A 55% majority was needed.

City voters approved the issue 673 to 375, also a majority of 64-plus %, with a 60% majority required.

The new building will be a combination auditorium-gymnasium.

GEN. CLAY RESIGNS

...His Berlin Post

Berlin (UPI) — Gen. Lucius D. Clay left Wednesday for Washington, confirming his plans to resign as President Kennedy's personal representative in Berlin.

Clay, who saved Berlin with the 1948-49 airlift when the Soviet Union blockaded the city, was brought back last September, when the communist wall and new Soviet pressure on the Allies created a fresh Berlin crisis.

Kennedy's action in sending him to Berlin appeared to have raised the morale of Berliners and to have shown the Russians the Allies were prepared to defend their rights here.

But both Clay and his aides cautioned Wednesday against the belief that his departure means the Berlin problem has been solved.

Confirmed By Kennedy

Washington (AP) —President Kennedy confirmed Wednesday that Gen. Lucius D. Clay is stepping out as his personal representative in Berlin, but will be asked to continue to advise him on Berlin policy.

The retired Army general was originally supposed to terminate his Berlin service last January, Kennedy told a news conference. But he was asked to stay on and agreed to do so until now.

Clay feels, however, he should get back to his duties as head of Continental Can Corp. in New York, Kennedy said.

Clay, who flew out of Berlin Wednesday, is scheduled to call on the President Thursday.

Detroit Free Press Is SuspendingPublication Because Of A Strike

Detroit (AP)—The Detroit Free Press announced Wednesday night it is suspending publication of all Thursday editions because of a strike by the Teamster Union over a new labor contract.

Local 372 of the union, which has 480 members employed at Detroit's morning newspaper, struck shortly after 4 p.m. Wednesday. Printers and editorial staffers already were preparing for the first edition.

Liz, Burton Take Day Off; Visit Country

Rome (UPI) — Elizabeth Taylor and her Marc Antony, Richard Burton, took the day off from shooting the film "Cleopatra" to spend a rainy afternoon in the country Wednesday.

Miss Taylor and Burton were not scheduled to shoot on the set at nearby Cinecitta Studios until Friday, according to the 20th Century Fox publicity office.

A publicity spokesman said "I don't have any idea where they are."

A maid at the villa said they were "out of town" and would be back this evening.

Wednesday started as a sunny spring day but by afternoon it was pouring rain.

There was still speculation in Rome whether Burton's wife, Sybil, would arrive here this weekend. She flew to London to "visit relatives" on March 21, the same day Eddie Fisher went to New York "on business." She and her husband of 13 years met in Paris last weekend. Burton had gone there to do some work in a cameo part in "The Longest Day."

When he left Paris on Sunday evening he said his wife would join him in the eternal city in about a week. But a few hours later when he arrived in Rome he denied he said any such thing.

H. O. Phipps Found Dead

New York (AP)— Socially prominent Henry Ogden Phipps, 30, was found dead Wednesday in a Manhattan hotel suite, under what police described as mysterious circumstances.

Police investigating the death, said the body bore no marks of violence. An autopsy was scheduled for Thursday.

Deputy Police Commissioner Walter Arm said Phipps' body was found face-up on the living room floor of his suit in the Hotel Hamilton.

A friend, William Turlington of Astoria, Queens, found the body. He and the hotel's manager broke into Phipps' room after receiving no response to persistent knocks.

Phipps was in the Social Register in 1959 but is not listed in the current edition. He was married in 1957 to Diana Sternberg, daughter of the Count and Countess Leopold Sternberg.

Maiden Flight Of Centaur Delayed

Cape Canaveral, Fla. (AP) — An attempt to launch the United States' newest space rocket, the high-energy Centaur, on its maiden flight was postponed again Wednesday.

Fueling problems cropped up after the countdown on the two-stage, 105-foot-tall rocket had advanced to within 60 seconds of lift-off.

Fallout From Soviet Testing Reported

Washington (AP) — The first evidence of the expected spring fallout from last year's Russian nuclear tests was reported Wednesday with all signs indicating it arrived very slowly.

A spokesman for the Public Health Service's Radiological Health Division who disclosed this indicated the service still feels it's highly unlikely there will be need for special protective measures to reduce human intake of radioactive strontium-90.

American fallout specialists have said the fallout from the Russian tests might be expected to reach its maximum in the rains of late April or early May, then taper off in June.

At the time of last fall's tests, experts said some of the radioactive debris—deposited in relatively low levels of the atmosphere — would come down mostly within a month after a given shot. But they said the largest fraction of the debris, deposited high in the stratosphere, would not begin to come down until spring.

They said the bulk of the debris in the stratosphere might come down in two stages, part this spring and part in the spring of 1963.

Meanwhile, varying speculation arose concerning exactly when the United States might touch off its initial blast in the resumed series. These were authorized by President Kennedy to begin late this month if Russia does not agree to an acceptable test ban treaty in the meantime.

One scientist, Dr. Ralph Lapp, speculated it's possible the United States might delay any resumption of testing until sometime after April 30 — if the delayed fallout from last fall's Russian tests should begin to come down relatively heavily by the end of April. The United States might make such a delay, he said, to make clear that whatever fallout was being deposited was coming from the last Russian test series.

Still another unofficial speculation pegged the date for sometime between April 23 and 26 — so the first shot would have been fired before the arrival in this country of April 27 of British Prime Minister Harold Macmillan. This view was that a test detonation prior to April 27 would spare the British leader further pressures from pacifist elements in his country to withhold Western testing.

Kennedy has said fallout hazards from any resumed atmospheric tests by the United States would be "remote and infinitesimal."

Evidence that the stratospheric component of Russia's last tests has commenced to come down was obtained, a Health Service spokesman told a reporter, from samples of milk obtained from some southern states.

He said slight increases had been noted in the milk's content of radioactive strontium. While some of this increase might be due to still persistent stratospheric fallout from all past tests of all nations which accelerates each springtime, some of it was unquestionably due to the recent Russian series, he said.
